

EcoTank M2170

With mobile printing, this 3-in-1 EcoTank features Wi-Fi, a LCD screen, double-sided printing and 250-sheet tray.

Mobile printing is easy with this durable, fast and energy-efficient EcoTank. With print, scan and copy, it provides a low-cost printing solution, that can help reduce your printing costs. A cost-efficient solution, print up to 11,000 pages with the included black pigment ink¹. Select features directly and quickly using the 3.7cm colour LCD screen.

Reduce your printing costs

Save up to 1,000 AED with in-box ink vs laser printer². It features a large refillable ink tank that you fill with the included ink bottles instead of toner. From the start you have enough ink to print thousands of pages, slashing costs and saving time.

Low cost replacements

Save up to 90% on printing costs³ with EcoTank's large ink tank and replacement inkbottles. One bottle of EcoTank ink is equivalent to five toners¹, so you'll refill less and spend less, too.

Easy to use

With a front facing tank and ink level display, the M2170 is engineered for ease of use. EcoTank ink bottles feature an airflow system, enabling the ink to flow into the refillable tank without the need for squeezing.

Print from almost anywhere

Print on the go, with WiFi Direct and the Epson iPrint App⁴. Using your mobile, laptop or tablet device, you'll be able to send documents to print from almost any location.

Join 50m customers worldwide

Since Epson started making EcoTanks in 2010, over 50m EcoTanks have been sold worldwide⁵, making Epson the no. 1 ink tank printer in the world⁶. 7 out of 10 ink tank printers sold in the Middle East and Africa are Epson⁶.

INK BOTTLE COMPATIBILITY

● 110

1. Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test patterns provided in ISO/IEC 24712. Quote yields are NOT based on ISO/IEC 24711. Quoted yields may vary depending on the images you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set can be lower.
2. Based on Epson calculations, average total saving required to print the same number of pages as the average yield of ink bottles included in-box within the EcoTank Mono range. Comparison between average yield (A4 prints of ISO/IEC 19752) of EcoTank "110" bottle and the genuine consumables sold and used within the 10 best-selling 120ppm mono laser printers in Middle East and Africa (IDC, Quarterly Hardcopy Peripherals Tracker, 2019 shipments, published Q1 2020). Total savings calculated with reference to the average purchase price of a printer amongst these top 5 models plus printing costs, calculated by dividing the relevant cartridge sales revenue and total yield by unit sales in Middle East and Africa (IDC, Hardcopy Peripherals Consumables Tracker, 2019 shipments, published H2 2019). USD converted to local currency using FX spot rate from XE.COM as at 08/07/2020.
3. Based on Epson calculations, cost per page saving with reference to the average printing costs for EcoTank "110" large ink bottle series and the genuine consumables used within the 5 best-selling cartridge-based 1-20ppm single function mono laser printers in Middle East and Africa (IDC, Quarterly Hardcopy Peripherals Tracker, 2019 shipments, published Q1 2020). Cost per page calculated by dividing the relevant bottle/cartridge sales revenue and total yield by unit sales in Middle East and Africa (IDC, Hardcopy Peripherals Consumables Tracker, 2019 shipments, published H2 2019). USD converted to local currency using FX spot rate from XE.COM as at 08/07/2020.3. Cost per page is calculated by dividing price of replacement ink bottle/toner cartridge by their page yield. Cost per page comparison is made based on the introductory prices of Epson black ink bottles (110 series) and the average prices of genuine OEM black toner cartridges of the largest available yield for the top selling 77% of A4 single function monochrome laser printers (print speed below 20ppm) across Israel, Saudi Arabia, South Africa and UAE for the period January - December 2018 as tracked in December 2018 as tracked in IDC Worldwide Quarterly Hardcopy Peripherals Tracker 2018Q4 and IDC EMEA Semiannual Consumables Tracker 2018H2. Competitor laser toner cartridges' yields as communicated by the manufacturers websites.

5. Cumulative sales of Epson ink tank printers from 2010 to 2020 based on Epson internal shipment data.
6. IDC, Quarterly Hardcopy Peripherals Tracker, 2010 to 2020 shipments, published Q1 2020.
7. Determined in accordance with ISO/IEC 24734 showing the average of ESAT from the Office Category Test for default simplex. For more information visit www.epson.eu/testing
