
SureColor F2200

DATASHEET / BROCHURE

SureColor F2200 offers a full package for Direct-to-garment & Direct-to-film printing, providing businesses with flexibility & scalability.

SC-F2200 offers a hybrid Direct-To-Garment & Direct-To-Film solution, including printer, printhead, inks and software.

It's been developed for businesses demanding accuracy, speed, and the ability to produce customers' complex designs on a variety of garments. It's compact, flat top design minimises working space allowing easy installation into smaller spaces and scalability with multiple units.

Increased productivity

Productivity is increased by up to 35% vs the SureColor F2100*, thanks to the new PrecisionCore MicroTFP printhead. POL (Part Over Lap) reduces banding, even in lower pass printing.

Improved usability

Automatic carriage height adjustment moves carriage to optimal position for stable quality, reducing manual adjustment frequency by the user. The SureColor F2200 also features a 4.3-inch touchscreen, transparent lid and internal light, allowing the operator to easily view and check printing status.

Compact design

The SureColor F2200 has a compact, flat top design which reduces work space, allowing easy installation into smaller spaces and through narrow doors. The improved design allows the printer to be installed in a smaller footprint, allowing for greater scalability with multiple units.
