SureColor SC-F6400H

Produce superior-quality results, and reach new markets with the extended colour gamut featuring FyFp, LcLm or OrVi inks.

The SC-F6400H is a 44-inch 6 colour dye sublimation printer that has been developed for textile producers, promotional goods businesses and photographic studios. The extended colour gamut features Fluorescent Pink and Fluorescent Yellow (FpFy), Light Cyan and Light Magenta (LcLm) or Orange and Violet (OrVi) inks.

Extended colours
The 44-inch, 6 colour dye-sublimation printer enables businesses to expand into new markets, as the extended ink sets can achieve a wider colour gamut with Orange and Violet, reduce graininess with Light Cyan and Magenta or print true fluorescents with Fluorescent Pink and Yellow.

Increased productivity
User productivity is improved thanks to the large touch screen, which combined with an easy to access maintenance area, improves efficiency and helps to reduce printer downtime.

Easy to use ink packs
Enjoy 45% larger ink packs** which reduce downtime and replacement frequency, while less packaging reduces waste. The ink packs only need to be shaken and inserted, no more pouring and stirring, which can create mess.

The complete package
The SC-F6400H offers users a complete solution so everything works in harmony: from hardware and software, to printheads, ink and warranty.

KEY FEATURES

- **Complete Epson solution**
  Hardware, software, printhead, ink and sublimation paper
- **Easy installation**
  Special tools and specialist knowledge are not required
- **Bundled take-up reel**
  Print longer, uninterrupted lengths by winding media onto a core
- **Product durability**
  Enhanced specification increases product life and improves ROI
- **Low TCO**
  Easy user access and downtime reduction
