

SureLab SL-D500

DATASHEET / BROCHURE

The SL-D500 is a compact, lightweight and portable photo production printer, for 10x15cm simplex and duplex photos, calendars and cards.

The SL-D500 is ideal for photo retailers, copy shops, designers and artists, as well as events, hospitality and photo box markets. This compact and lightweight production printer is space-efficient, portable and stackable. It produces the same high-quality images as the SL-D1000(A) and is ideal for the production of 10x15cm simplex and duplex photos, calendars and cards.

Compact, lightweight and portable

The SL-D500 features a small footprint and is the lightest and most compact SureLab printer in the Epson range. This is particularly useful when the printer needs to be transported to an event or moved to a different location onsite.

Seamless integration

As the SL-D500 is compact and lightweight, up to three printers can be stacked to form a production tower to improve productivity. It can also work seamlessly alongside Epson DTG, signage and LFP printers.

Enhanced connectivity

This photo production printer includes USB, LAN and Wi-Fi connectivity for ease of use. Epson Cloud Solution PORT and Order Controller also support the SL-D500.

More sustainable solution

The SL-D500 has been designed to minimise the environmental impact: compact and lightweight, reduced energy consumption per print, and a heat-free system.

KEY FEATURES

- **Compact and stackable design**
Fits seamlessly into most work environments
- **Connectivity**
USB, LAN and Wi-Fi
- **Integration**
Works alongside other SureLabs, Epson DTG, signage and LFP printers
- **Reduced user intervention**
70ml CISS ink system. 100 sheet ASF
- **Vibrant, high-quality images**
10x15cm simplex and duplex photos, calendars and cards
