

Steamroom Health and Safety Guidelines

The following important Health and Safety Guidelines are provided to ensure safe and proper use of the steambath product. We strongly recommend that this self-adhesive label be posted on the outside surface of the glass shower enclosure or in a prominent location (wall) near the steambath. Precautionary Warning Prior to Operation of the Deluxe Steam Generator.

- If you are an elderly person and/or in poor health, or if you are pregnant, or if you have a heart condition, suffer from high blood pressure or diabetes, do not use this device unless otherwise directed by your physician. If you have any other condition that requires the use of medication or drugs, it is also necessary to check with your doctor before steambathing.
- Do not use steambath while under the influence of alcohol as this can be hazardous to your health. Immediately exit the steamroom if you are feeling dizzy, faint, starting to fall asleep or otherwise uncomfortable.
- Beware of the flooring or other surfaces in the steamroom that may become slippery and therefore dangerous due to a build-up of condensation or moisture. Install non-skid floor materials or use proper footwear at all times to prevent serious accidents.
- Avoid direct contact with the steam coming out of the steam head or with the steam head itself as this could cause severe burns or physical injury.
- Do not use aromatherapy oils without first checking to see whether you are allergic to essential oils.
- The oil reservoir should not be filled while the steam unit is in operation as this could cause serious injury.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- **Warning:** Only allow children to use the appliance without supervision when adequate instructions have been given so that the child is able to use the appliance in a safe way and understand the hazards of improper use.
