All Blendtec blenders are built to meet the unique needs of the commercial customer. Each feature - from top to bottom - delivers simple operation and is designed to reduce overall cost.

JARLESS BLENDING, THE FOREFRONT OF INNOVATION

Why waste ingredients when you can have amazingly proportioned drinks and smoothies blended right in the cup you give your customer? The Nitro Blending System minimizes waste, saves time, and increases your profit margin. Each Stealth Nitro comes with two micronizers and two cup stands – two wingtip blade micronizers for pulverizing ingredients into silky-smooth single-serve drinks, or two frothing blade micronizers – perfect for whipping, frothing or emulsifying milks and creams for coffee and other beverages.
