## CODE FORMAT

## MANUFACTURED DATE:

The lot number is defined using the Albanese internal identification barcode. In this example, the lot number is 1201010114. The Mfg. Date and the last 4 digits of the Albanese internal identification barcode are the Julian manufacture code. For the example above 0114 is the Julian code which decodes as YJJJ, 0 meaning 2020 and 144 is the Julian code for April 23.

\*If calling in to report an issue with product, we will need the  $Lot\ Number$  listed under the bar code, in this example, it would be 1201010114.\*
