A Rich Heritage and Bright Future

As Gold Medal approaches a century in business, we reflect on our history and what it means to serve your concession needs now and into the future.

From our humble beginnings in 1931, with just \$2,000 and the strong work ethic of founder, David C. Evans, Gold Medal was born during the Great Depression. Through both challenges and prosperity, we've grown from selling simple drink concentrates into providing a complete line of concession equipment and supplies.

Now, the third generation of the Evans family leads the company, and the fourth generation is working here as well. With over 400 employees, Gold Medal has remained at the forefront of industry innovations by always putting our customers first.

Whether you're new to Gold Medal or a decades-long loyal customer, our commitment is the same. From developing, engineering, and manufacturing quality products to supporting you with a dedicated sales and customer service team, you can have confidence we're invested in your success. Put our experience to work for you.

With over nine decades in the concession industry, Gold Medal's rich heritage of innovation fuels the development of products for today's marketplace. Now, together with you, we are building for what's ahead. Gold Medal takes pride in being the past, present, and future of concession food equipment.

Gold Medal Poppers

Where Taste & Performance Meet

There's a science to popping corn. Gold Medal is invested in providing the latest technologies that will enhance the popping process. We design our machines with a focus on safety, simple operation, and ease of cleaning, all to help you produce the absolute best-tasting popcorn. Throughout the catalog, you'll find special icons identifying the key features of each popper. These pages serve as a reference guide by explaining what each icon means.

Key Popper Features Quick Reference Guide

Big Eye Electronic Heat Control

How much could an extra set of eyes benefit you? In this case, the Big Eye Electronic Heat Control automatically monitors the temperature, providing you with increased precision and control.

Brute Force Motors

Gold Medal has strength where it counts. Large, powerful drive motors mean you have popper performance you can rely upon.

E-Z Kleen Kettles

The secret behind the E-Z Kleen Kettles is the stainless steel cook surface. It's simple to maintain and the long-lasting performance ensures great-tasting popcorn every time.

Fire Suppression

Vent hoods and fire drops can be costly additions. Now, you can protect yourself with the highest level of safety in industry-tested PopClean poppers with the built-in Fire Suppression System. Ideal for theaters, arenas, stadiums, and more. **Fire Suppression is standard on all of the PopClean poppers.**

Flexipop®

It's like two poppers in one! Pop half batches during non-peak times, then flip the switch to pop twice as much for high-demand periods. Your absolute best bet for high-efficiency productivity!

PopClean®

Gold Medal offers the highest level of filtration with PopClean. This unique integrated system functions by trapping and filtering steam smoke and oil vapors created during the popping process. Meets stringent emissions requirements of UL 710B/EPA 202 (5mg). **PopClean has earned the FDNY Certificate of Approval #5830.**

PowerOff® Control

A popular safety feature that automatically turns off kettle heat after 15 minutes of idle time. See the next page PowerOff Control models.

Twin-Arm Suspension

Operator safety is the top priority of the double-hung, twin-arm kettle suspension. It prevents accidental oil spills and gives more work room within the cabinet.

Uni-Maxx®

Get the performance you need with a unified kettle and heat element, working together to provide the lowest energy consumption and maximum popping capacity.

Advanced Touch Screen Controls

This intuitive 7" touchscreen display panel is simple to use and provides operators the ultimate user experience. Operators enjoy upgrading to the Advanced Touch Screen Controls because of key features and benefits including: customizable mode of operation; easier to use and train employees; the ability to program and customize recipes; accessibility to videos for quick reference on training and cleaning machine; improved technician diagnostics; back-of-house data; free software updates; customizable exhaust system timeout; and so much more.

BIB Oil Level Sensor & Bucket Pump

You don't have to question what your oil levels are. Located next to the popper controls, this sensor conveniently displays how much oil is left in the Bag-in-Box (BIB) oils. Available on Elite Popper® series only.

Kettle Guard

Take the extra step in safety with Kettle Guards, which help to prevent accidental kettle burns. Available on large poppers only.

Salt/Sweet Switch

Available on larger electronic popper (i.e., Big Eye) kettles, the salt/sweet switch gives you the option to pop sweet popcorn at the proper temperature, preventing sugar from burning.

High Top Kettles

Expansion is made easy with high top kettles! Designed for 32-oz and 52-oz poppers, the taller lid creates as much as 30% more space, allowing you to pop to the max.

Which Popper Is Right for Me?

Here at Gold Medal, we design our equipment to be user-friendly, making it easy, efficient, and cost-effective to implement at any location. But how do you know which popper is right for you? Here are 6 questions you need to ask yourself before you go to purchase a popper. Then check out Gold Medal's popper category selections to see which popper is right for you.

1 How will the popper be used — what venue?

Will it be used at a school concession stand, office, bar, fundraiser, carnival, stadium, zoo, cinema, etc.?

2 Who will be operating the popper?

Volunteers, adults, young adults, bartender, seasonal help?

3 How many servings of popcorn do you need to make in 1 hour?

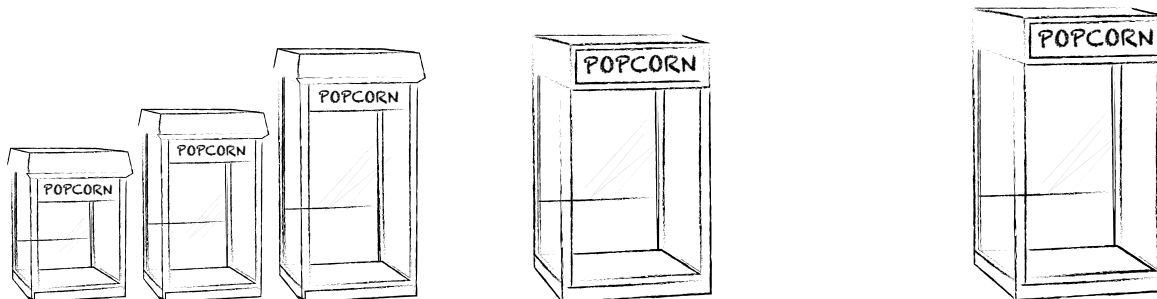

4 How much space do you have for the popper?

Does it need to fit on a counter/does it need to be a floor model?

5 How much electric is available?

15 amp, 20 amp, 30 amp, etc.?

6 Who will be responsible for cleaning and maintaining* the popper?

PopClean is the premier advancement in large-venue poppers. Built with a durable all stainless-steel construction and equipped with Precision Pop® technology for maximum efficiency, these poppers are made for top performance. The state-of-the-art, 3-stage filtration system removes oil and grease-laden vapors from exhausted air. The built-in fire suppression system is designed to meet local fire codes.* **PopClean has earned the FDNY Certificate of Approval #5830.** Ask your Sales Representative for details.

Features:

- Durable, easy-to-clean stainless-steel construction
- Three-stage filtration system
- Big Eye electronic heat control gives a visual light and audible notice for loading or dumping kettle
- Convenient temperature and counter display
- Salt/sweet and Flexipop® standard
- Oil level display
- Easy-to-follow prompts for training
- Easy-to-clean membrane (standard) or ask about touch screen control upgrade
- Multi-lingual feature available with touch screen control
- Twin kettle units available

Benefits:

- Eliminates the need for a vent hood system
- Built-in fire suppression system
- Reduces contaminants that affect digital projection systems and menu boards
- Meets health and safety standards by exceeding UL710B requirements to less than 5 mg of particulates per cubic meter of exhausted air*

Note: minimum clearance is 18" from the top of machine to any exhaust or opening to combustible surface above the unit.

Our fire suppression system is an Ansul R-102 wet system. The system charge and arming must be performed by an Ansul certified fire suppression agency. Our customers can go to Ansul.com to locate a qualified local agent. The Fire Suppression System is fully assembled and a tank is provided for the liquid fire suppressant agent. The fire suppression company will fill the tank with 3 gallons of Ansul liquid agent. In addition, they will install the CO₂ cartridge to propel the liquid agent. The standard cartridge is a 101-20 for most of our poppers. If it is a twin popper with a deep well, they will require a 101-30 cartridge. All links and other hardware are provided. The technician will then arm the system. Typically, every 6 months they will come back to inspect the system. The cost for charging and arming the system is the responsibility of the end customer.

**Check code requirements of your local health department and fire marshal.*

Cotton Candy Machine Terms 101

Ribbon Heat Element

- Heats up immediately and responds quickly to adjustments
- Best suited for owner/operators that know when and how to adjust the machine
- Element can be damaged if machine is not operated/cleaned properly

Tubular Heat Element

- Takes slightly longer than the ribbon element to heat up and is slower to respond to adjustments
- Best suited for rental customers and multiple users who may not be as familiar with the operation of a cotton candy machine
- Element is almost indestructible
- Featured in all cotton candy machines with "Breeze" in the name

Elephant Ears

This is fried dough at its finest. Elephant Ears – or Frying Saucers – are made by frying a large 12" disk of dough, then smothering it with butter and cinnamon sugar. It's a low-cost, great-selling festival treat, and by far among the easiest fun foods to make. Added to flour and water, each bag of our mix produces 30-32 ears, and cooks well in any shallow fryer (shown here in a #8049D FW-9 shallow fryer).

Ingredient Information

Information on allergens and religious documentation.

Food Allergens

Required by law as of January 1, 2006, food producers must list food allergens on all food product package labels.

A food allergen is any edible substance that causes a person to have an allergic reaction or something to which a person would have a strong aversion. According to the Food Allergen Label Consumer Protection Act (FALCPA), governed by the Food and Drug Administration (FDA) of the United States government, there are eight predominant food allergens: milk, egg, soy, fish, wheat, peanuts, tree nuts, and crustaceans.

There is no cure for a food allergy; only strict avoidance of the allergy-causing food can prevent an allergic reaction. Anaphylaxis is the most severe type of allergic reaction. It is sudden, severe, and potentially fatal. It results when the body's immune system reacts to otherwise harmless food proteins. The occurrence of an anaphylactic reaction can vary. It can begin very suddenly within seconds of eating a food, or occur hours after having ingested the food. Anaphylaxis should always be considered a medical emergency, as it may result in brain damage or death.

Anaphylactic symptoms can include:

- Hives
- Swelling of the lips, tongue, and throat
- Nausea
- Shortness of breath, wheezing
- Drop in blood pressure
- Loss of consciousness

For more information about food allergies visit www.foodallergy.org.

To verify if an allergen is present in a Gold Medal Products Co. product, read the ingredient label or contact your Gold Medal dealer or distributor. Food allergen cross-contamination occurs when any allergen is introduced to another or a non-allergen product. When changing products, identify any and all allergens that exist between products. When products' allergens differ, all contact surfaces and equipment must be thoroughly cleaned with soap and water to avoid cross-contamination.

Gluten

Gluten is a protein in wheat, rye, oats, and barley. Common Gold Medal products that do not contain gluten are Sno-Kone® syrups and concentrates, Flavacol®, Frusheez® mixes, Flossugar, Flossine®, Mega Pop® popcorn/salt/oil kits, Glaze Pop® mixes, Complete Corn Treat mixes, and Caramel, Basic, and Chocolate Corn Treat concentrated mixes. For a comprehensive list of products go to our website www.gmpopcorn.com or contact your Gold Medal dealer.

Religious Documentation

Many of our products are Kosher and/or Halal-certified. Certificates are available on request, or can be downloaded from our website at www.gmpopcorn.com.

SQF Certified

The **Safe Quality Food (SQF) Program** is a rigorous and credible food safety and quality program that is recognized by retailers, brand owners, and food service providers world-wide. Recognized by the Global Food Safety Initiative (GFSI), the SQF family of food safety and quality codes are designed to meet industry, customer, and regulatory requirements for all sectors of the food supply chain – from the farm all the way to the retail stores.

Suggestions On Ordering

PRICES & SALES TAXES

For the most up-to-date pricing, please visit gmpopcorn.com or call our corporate office at 800-543-0862 or 513-769-7676. You may also reach out directly to your local Gold Medal branch or distributor.

Every state charges sales tax. We must charge sales tax on all applicable items and to all organizations in AL, AZ, CA, CO, FL, GA, IA, IL, IN, KY, LA, MI, MN, MS, NC, NJ, NY, OH, PA, SC, SD, TN, TX, VT, WA, WI and WV until the appropriate exemption certificate has been properly documented and sent to us. There can be no exceptions – sales tax laws cannot be violated without serious consequences. Any prices in this catalog are F.O.B. Cincinnati. Prices are subject to change without notice.

SPECIFICATIONS

In this catalog, there may be typographical errors, which we reserve the right to correct. Some photos are of prototypes and actual production may vary. Some specifications are changed to improve equipment during the course of the year. Improving design and equipment performance is a continuous way of life here at Gold Medal.

TELEPHONE ORDERS AND OFFICE HOURS

Gold Medal is open 8 a.m. to 5 p.m. EST Monday through Friday year-round. Call 1-800-543-0862 or (513) 769-7676 for Cincinnati or the 800 numbers shown on the back cover for branch locations and specific directions.

WEB, EMAIL & FAX

Visit us on our website at gmpopcorn.com to check out what's new. Our toll-free fax order line is 1-800-542-1496, or you can email us at info@gmpopcorn.com. You can contact us 24 hours a day.

Any messages will be returned as soon as we open for business on the next business day. Many Gold Medal team members have their own direct 1-800 numbers as well. We want to stay in touch with you!

TERMS

If you have not already established credit with Gold Medal, we're happy to handle your orders on cash-with-order basis, or we accept MasterCard, Discover and Visa. To establish an open account, send us the name of your bank and three firms that extend you open account. We do not ship C.O.D.

RETURNED GOODS

Requests for returned goods should be made by calling Gold Medal Cincinnati, extension 2340 for a "return authorization" (RA Form). No food products or food packaging may be returned. You can fax in your completed RA Form to 513-733-5678.

INTERNATIONAL SALES

Gold Medal is actively represented in many international cities. Call or email us for the name of the international distributor nearest you. Interested in becoming an international distributor? Contact our corporate headquarters to determine if you qualify.

Methods of Shipment

The best way of getting your shipment to you at the lowest cost is to specify "Best Way" on your order. Our shipping department will use the best all-around routing. PLEASE ALLOW PLENTY OF TIME – all carriers do not render the speedy service as in the past. We use all popular methods of shipment.

SHIPPING CHARGES

Please call for pricing.

TRUCK LINES

With good service from Cincinnati, this is the best method for shipments over 100 lbs. We can prepay freight and add it to our bill, but we must add a handling charge for this service.

PARCEL

FedEx is our preferred method of shipping parcels. Handling fees will be added to cover additional handling required for parcel shipments. We ship most supply items and small to medium equipment. Larger equipment and some fragile items will not be shipped as a parcel.

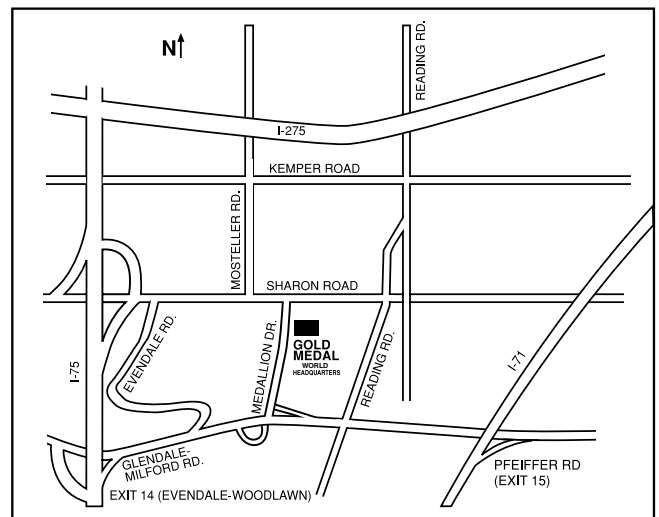

AIR FREIGHT

In a hurry? It's your call – if you pay the freight, you may choose from expedited freight services such as NEXT DAY AIR, or SECOND DAY AIR. When you pay the freight, let us help you "have it your way!"

Directions

Gold Medal's factory and corporate offices occupy nearly 500,000 square feet – over 10 acres under roof – over 25 loading docks, and we are still growing.

We are very easy to find. From I-75, take Exit 15-Sharon Rd. Go east until you come to Medallion Drive – we are halfway between Sharon Road and Glendale-Milford.
