Installation of Nolting's

Quiltmagine

Online Update

Table of Contents

Remove the USB cable from the tablet.
# Open Quiltmagine in Simulation Mode
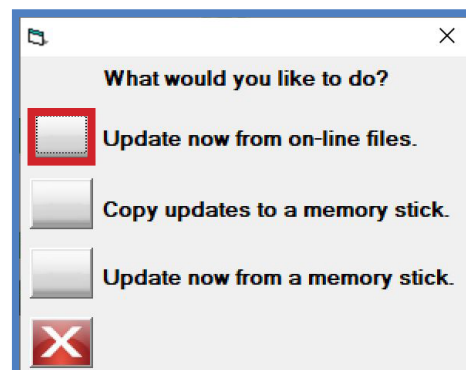

From the home page, select **Help.**

From the **Help Menu** window, press **Software Management**.
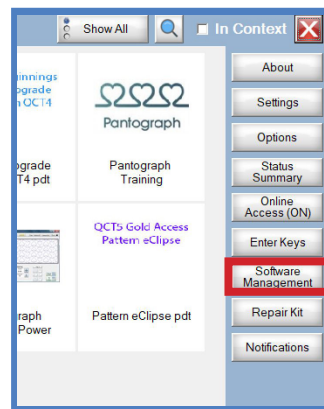

From the **Manage Software** window, touch **Check for Updates.**

From the **What would you like to do?** window, choose **Update now from on-line files**.
From the **Select to begin updating...,** press **1. Update - Version 5.05.83**
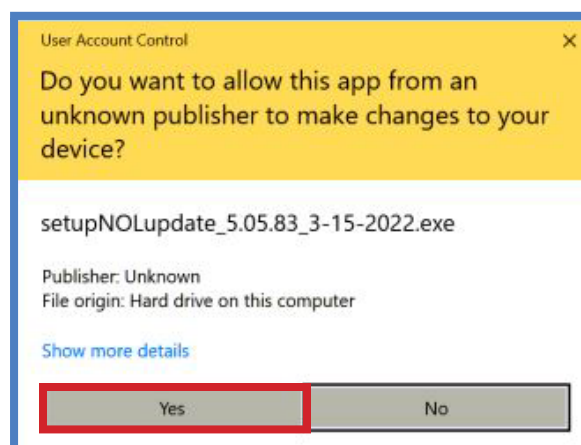

Touch **Yes** when you are ready to download.

The **Downloading File.** window will automatically close once the file has completed downloading.

User Account Control will now prompt you "**Do you want to allow this app from an unknown publisher to make changes to your device?"**
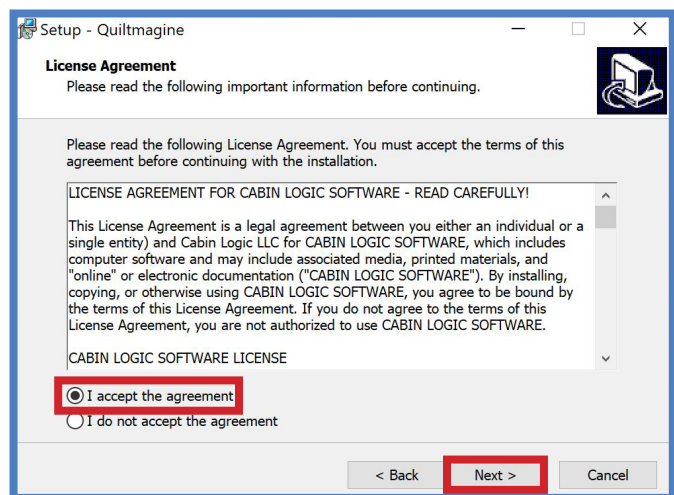

Touch **Yes**.

On the **Welcome to the Quiltmagine Setup Wizard** window, touch **Next >**.

On the **License Agreement** window, press **I accept the agreement** and touch **Next >**.

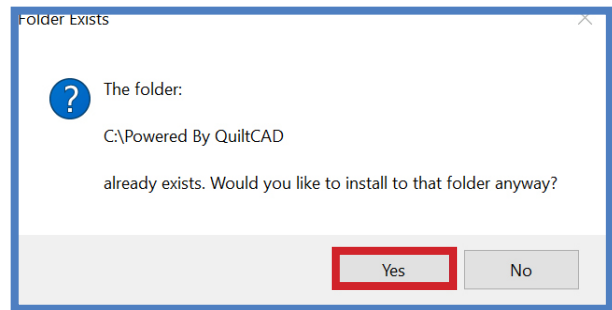

The **Select Destination Location** window will open.

* Do not change the default destination location.

Touch **Next >**.
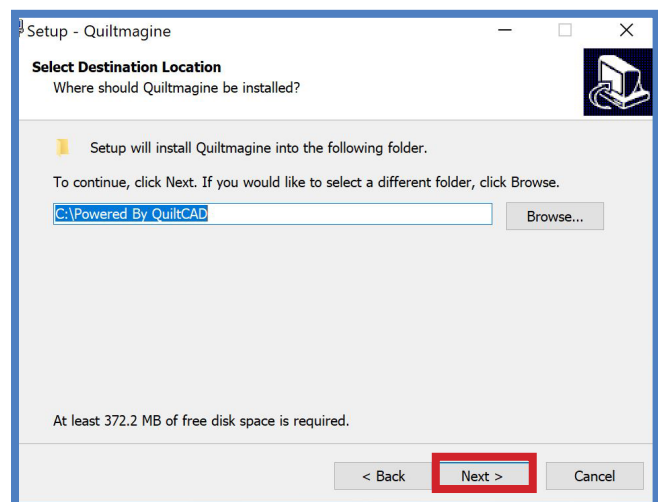

On the **Folder Exists** window, touch **Yes**.

On the **Select Start Menu Folder** window, choose **Next>**.
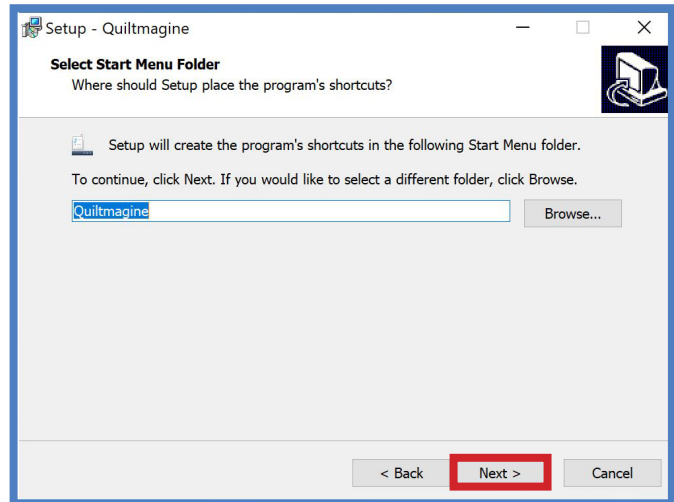

On the **Select Additional Tasks** window, select **Next>**.
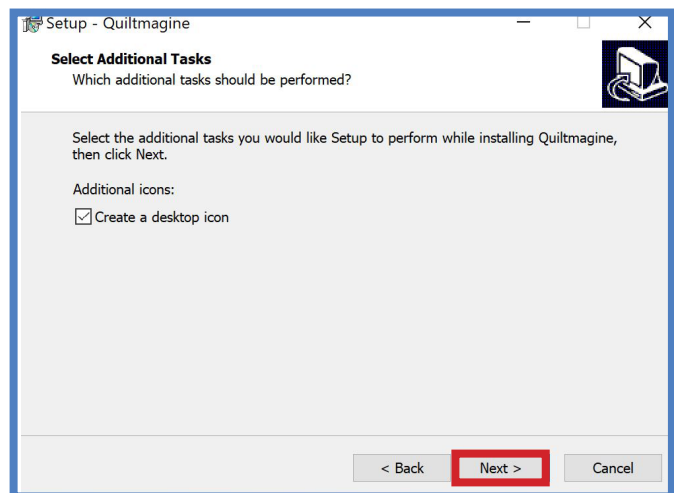

On the **Ready to Install** window, press **Install.**
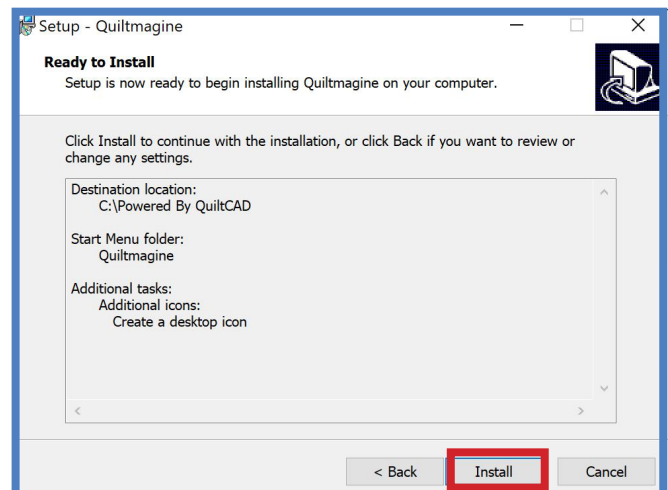

The Installing window will automatically close when installing has completed.
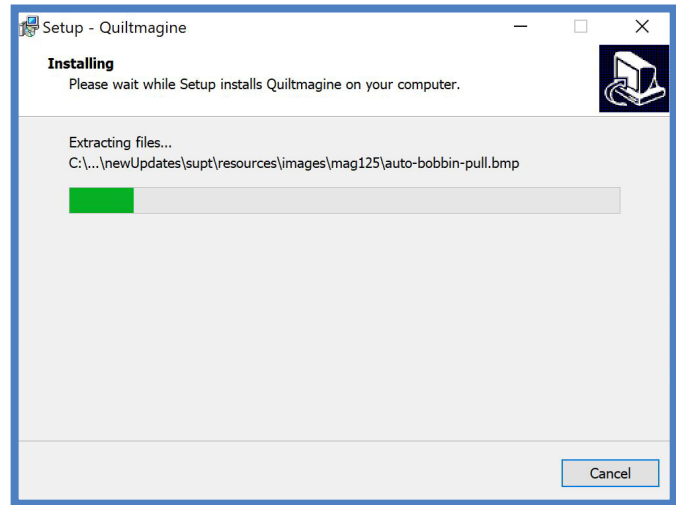

On the **Completing the Quiltmagine Setup Wizard** window, touch **Finish.**
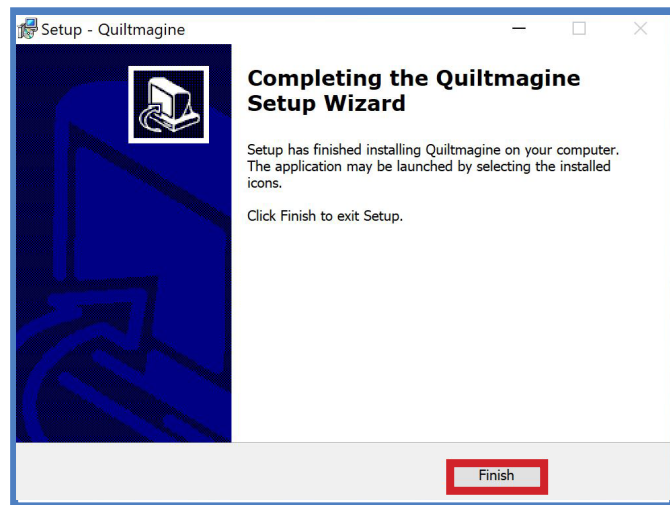

Double tap the **Quiltmagine** icon and the installation of files and directories will complete.
Make sure you unplug your USB cable if this device is connected to your system.
Tap OK
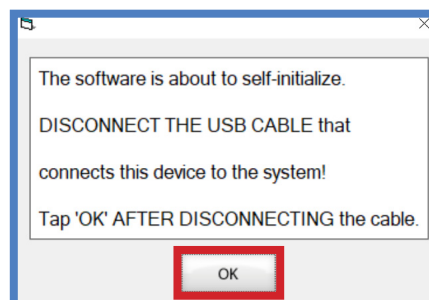

The installation of files and directories will complete.

If you get any error on the file transfer you will need to reinstall the update. Refer to page 16.

On the **USB Driver Load** window, press **Load Drivers**.

The USB drivers must be loaded to control the hardware. (This is a one-time process only)

1. Click on the 'Load Drivers' button to start the load process.
2. File Explorer will pop-up.
   Double click on: 'CDM212364_Setup.exe' to launch the Driver Loader.
3. Follow the Driver Loader prompts to completion.
4. CLOSE FILE EXPLORER!
5. Click 'OK' to complete the process.

The program will then be stopped and re-started.

Load Drivers

Double tap on the **CDM21364_Setup** file.

This PC > Windows (C:) > Powered By QuiltCAD > supt > ftdi

Touch OK.

Registration Successful

You have successfully re-submitted your registration and the software will be restarted.

OK

9

On the **Re-start Program** window, touch **OK**.

Re-start Program

Click 'OK' to re-start the program.

OK

You will be prompted to make sure the needle is up and to center your carriage. After you have centered your machine, touch **OK**.

Make sure the sewing machine needle is up and, move the carriage to the center of the sewing area.

OK
You should be back on the home screen of the program and showing that you are connected.

Congratulations!

You have updated your software. We hope you enjoy your software.
Please practice!
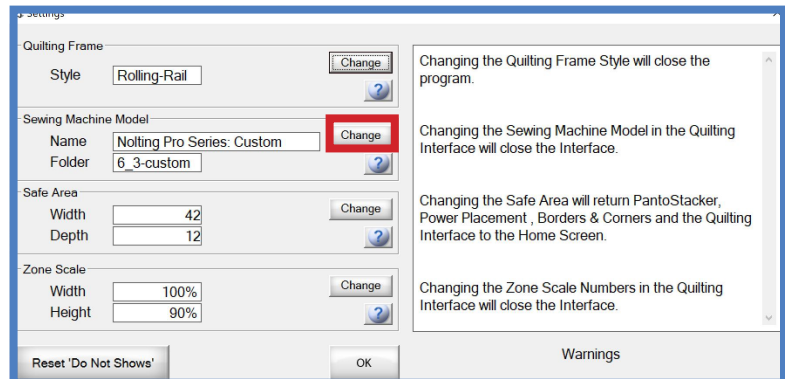

Nolting has new Sew Models
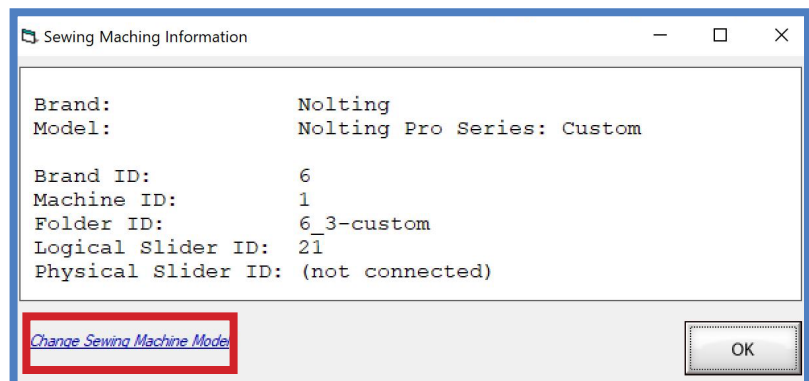

From the home page, select **Help.**

From the **Help Menu** window, press **Software Management**.

From the **Settings** window, touch **change**.

From the **Sewing Machine Information** window, touch **Change Sewing Machine Model**.

This is the new look for Selecting your Sewing Machine.

Fun Quilter-CLX

You have 3 options with different parameters.
Option 1 are the parameters that you have been using.

To decide which option works best for you, select another option and test the stitching on some practice fabric using a pattern with points and corners or the pattern you are going to use next.

Please don't test the different options on a real quilt.
Pro Series Models

You have 3 options with different parameters. There is a setting for putting your machine in Constant Speed with Motion Detection. There are Instructions in "help" on how to put your machine in the constant speed.

With this update the settings that you have been using will be on the Nolting Pro series custom setting.

To decide which option works best for you select another option and test the stitching on some practice fabric using a pattern with points and corners or the pattern you are going to use next.

Please don't test the different options on a real quilt.

Getting Connected to the Internet

Follow the instructions below if you do not know how to connect your tablet to the Internet

To connect to the Internet, swipe in from the right on your tablet. Touch **All Settings**.

Press **Network & Internet**.

Under Status, tap on the link that says **Show available networks**.

The list of available Wi-Fi networks will show up. Locate your local Wi-Fi connection & touch it. If you have never connected to this network, it will prompt you for your Wi-Fi password. Enter your password and press **Connect**.

If your Wi-Fi button is greyed out, touch the button to enable the Wi-Fi.
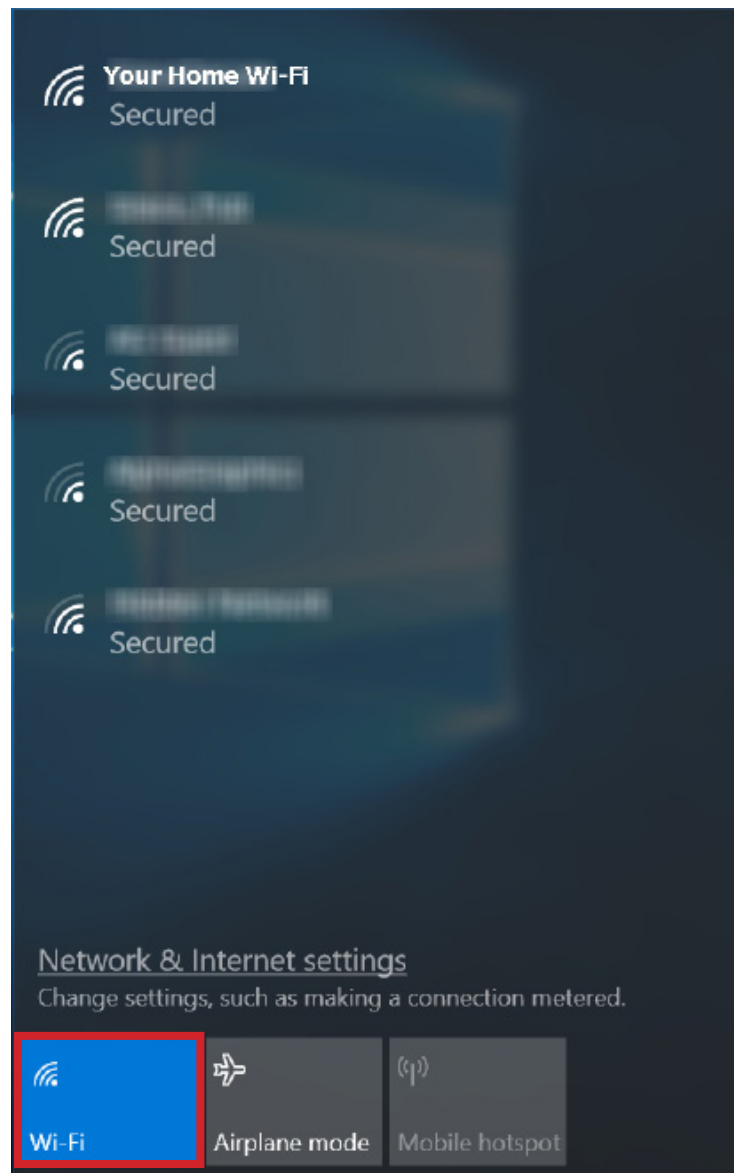

Troubleshooting

Downloading Update Error:
If you get an error while **downloading** the update, it could be your internet connection or that Windows Update is downloading to your tablet. **Reboot your tablet and try again.**

Firmware Update:

If this picture keeps coming up while trying to update the firmware:
1. Make sure you are pushing the firmware button on QuiltMotion and then touching the **OK** button on your tablet screen within 20 seconds.
2. If the picture is still coming up, close the program and power everything off. Then power everything back on and try again.

Firmware Load Button Push

Press the firmware update button on the side of your lower carriage.

(NOTE: Older models do not have this button. Press 'OK' to continue..)

OK

Permission denied:

Depending on the version of Windows you are running,
it is possible you may encounter a
permission denied error. Some cases are a Virus
Protection program or Quiltmagine is opened a couple
of times. You are not a admin of the device.
Reboot Tablet.
Turn off any Virus Protection program.
Re install update. Update location is on page 16.

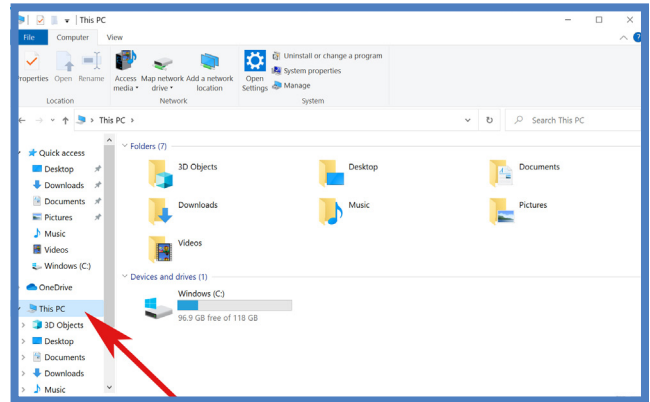

Delete Folder Error

Permission denied

OK
If you do get a message like this, touch **OK**.
This should close the program installer.
Reinstall the Update

To restart the update, touch the File Explorer icon on your taskbar:
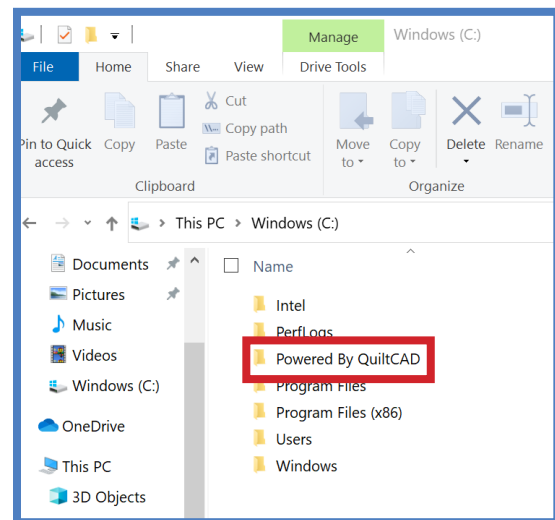

This will open **File Explorer**. Locate **This PC** and double tap.

Locate the **(C:)** Drive and double tap it.

Double tap **Powered By QuiltCAD**.

16

Locate the **Updates** directory, and double tap it.

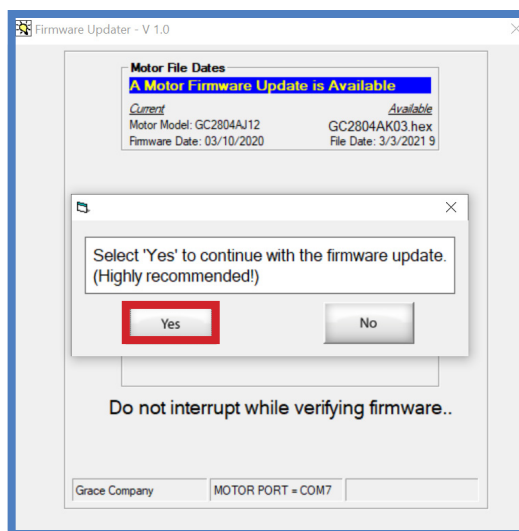

In **Updates**, locate the
**setupNOLupdate_5.05.83_3-15-2022_3-3-2021**

If you are asked to do a firmware update

Completing the Motor Firmware Update
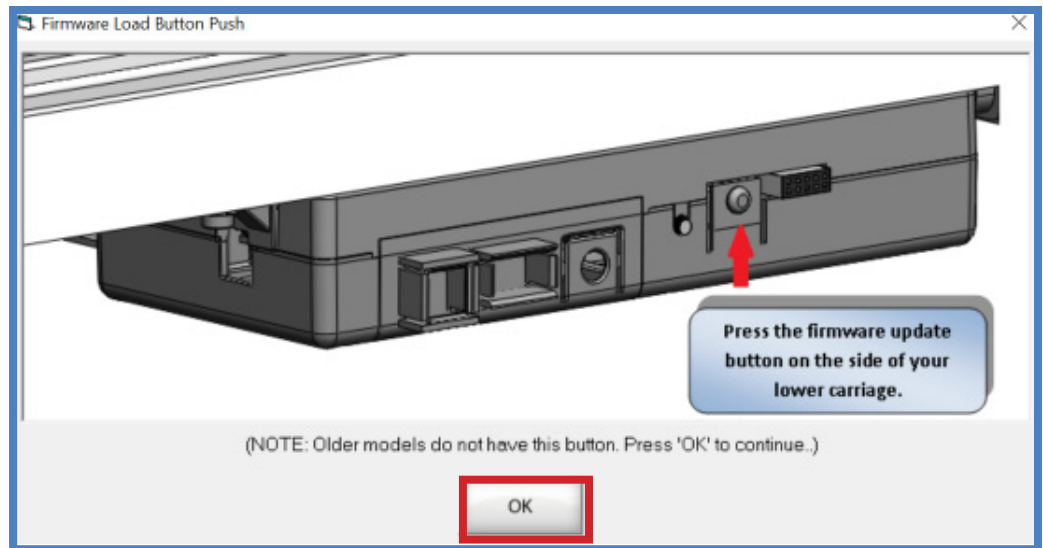

Choose **Yes** to continue with the firmware update.

You will now be prompted to turn the sewing machine OFF. **Once the sewing machine is turned OFF**, touch **OK** to continue with the firmware update.
The **Firmware Load Button Push** window will appear.

Push in the **firmware update button** on your bottom carriage two times. You will have 20 seconds to touch **OK** on your tablet screen.

This is how the QuiltMotion will look under your carriage.

The moment you see these numbers counting down showing the lines, **move away from the frame while this process runs. Do not touch the frame, carriage or tablet while it is completing this update.**
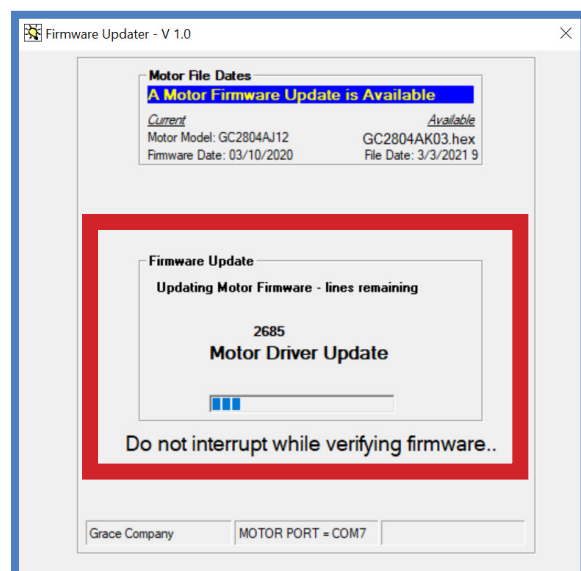

You will now be prompted to **POWER CYCLE the motor carriage then turn the sewing machine back ON**. Turn off the QuiltMotion by using the power strip switch attached to the back of your carriage. Wait 30 seconds, then power back on. Touch **OK**.

POWER CYCLE the motor carriage then turn the sewing machine back ON.

OK
Once you have completed power cycling the carriage, press **Yes**.

Have you power cycled the motor carriage?

Yes   No
You will now be prompted **The program will now shut down. You will need to re-start it.** Touch **OK**.

The program will now shut down. You will need to re-start it.

OK
