

## CYCLONE PREMIUM BLEACH

Revision: 2022-12-17

Version: 01.1

### SECTION 1: Identification of the substance/mixture and supplier

#### 1.1 Product identifier

**Product name:** CYCLONE PREMIUM BLEACH

#### 1.2 Recommended use and restrictions on use

**Identified uses:**

Bleach

**Restrictions of use:**

Uses other than those identified are not recommended

#### 1.3 Details of the supplier

Diversey Australia Pty. Limited

Unit 8, 55 Newton Road, Wetherill Park, NSW, 2164

1-7 Bell Grove, Braeside, VIC 3195

Telephone: 1800 647 779 (toll free)

Email: aucustserv@diversey.com

Website: diversey.com.au

#### 1.4 Emergency telephone number

Seek medical advice (show the label or safety data sheet where possible)

Call 1800 033 111 (24hrs)

### SECTION 2: Hazards identification

#### 2.1 Classification of the substance or mixture

Serious eye damage, Category 1

Skin irritation, Category 2

#### 2.2 Label elements

**Signal word:** Danger

#### Hazard statements:

AUH031 - Contact with acids liberates toxic gas.

H315 - Causes skin irritation.

H318 - Causes serious eye damage.

#### Prevention statement(s):

P233 - Keep container tightly closed.

P264 - Wash face, hands and any exposed skin thoroughly after handling.

P280 - Wear protective gloves, protective clothing and eye or face protection.

#### Response statement(s):

P332 + P313 - If skin irritation occurs: Get medical advice or attention.

P304 + P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P310 - Immediately call a POISON CENTRE, doctor or physician.

P321 - Specific treatment (see supplemental first aid instructions on this label).

P362 - Take off contaminated clothing.

#### Disposal statement(s):

P501 - Dispose of unused content as chemical waste.

**2.3 Other hazards****2.4 Classification diluted product:**

Recommended maximum concentration (% w/w): 20

Not classified as hazardous

**SECTION 3: Composition/information on ingredients****3.1 Substances / Mixtures**

| Ingredient(s)                         | CAS#      | EC number | Weight percent |
|---------------------------------------|-----------|-----------|----------------|
| sodium hypochlorite (active chlorine) | 7681-52-9 | 231-668-3 | 3-10           |

Non-hazardous ingredients are the remainder and add up to 100%.

[4] Polymer.

Workplace exposure limit(s), if available, are listed in subsection 8.1.

For the full text of the H and AUH phrases mentioned in this Section, see Section 16.

**SECTION 4: First aid measures****4.1 Description of first aid measures****Inhalation:**

Remove person to fresh air and keep comfortable for breathing.

**Skin contact:**

Wash skin with plenty of lukewarm, gently flowing water. Take off immediately all contaminated clothing and wash it before reuse. If skin irritation occurs: Get medical advice or attention.

**Eye contact:**

Hold eyelids apart and flush eyes with plenty of lukewarm water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTRE, doctor or physician.

**Ingestion:**

Rinse mouth. Immediately drink 1 glass of water. Never give anything by mouth to an unconscious person. Keep at rest. Immediately call a POISON CENTRE, doctor or physician.

**Self-protection of first aider:**

Consider personal protective equipment as indicated in subsection 8.2.

**First aid facilities:**

Eyewash facilities should be considered in a workplace where necessary.

**4.2 Most important symptoms and effects, both acute and delayed****Inhalation:**

May cause bronchospasm in chlorine sensitive individuals.

**Skin contact:**

Causes irritation.

**Eye contact:**

Causes severe or permanent damage.

**Ingestion:**

No known effects or symptoms in normal use.

**4.3 Indication of any immediate medical attention and special treatment needed**

No information available on clinical testing and medical monitoring. Specific toxicological information on substances, if available, can be found in section 11.

**Poison Information Center:** Call 13 11 26 (Australia Wide).**SECTION 5: Firefighting measures****5.1 Extinguishing media**

Carbon dioxide. Dry powder. Water spray jet. Fight larger fires with water spray jet or alcohol-resistant foam.

**5.2 Special hazards arising from the substance or mixture**

No special hazards known.

**5.3 Advice for firefighters**

As in any fire, wear self contained breathing apparatus and suitable protective clothing including gloves and eye/face protection.

**5.4 Hazchem code**

•3Z

•3 - Alcohol resistant foam is the preferred firefighting medium but, if it is not available, normal foam can be used.

Z - Full fire kit and breathing apparatus. Contain.

**SECTION 6: Accidental release measures****6.1 Personal precautions, protective equipment and emergency procedures**

In case of an incident in a confined area wear suitable respiratory protection. Wear suitable protective clothing, gloves and eye/face protection.

**6.2 Environmental precautions**

## CYCLONE PREMIUM BLEACH

Do not allow to enter drainage system, surface or ground water. Dilute with plenty of water.

**6.3 Methods and material for containment and cleaning up**

Absorb with liquid-binding material (sand, diatomite, universal binders, sawdust).

**6.4 Reference to other sections**

For personal protective equipment see subsection 8.2. For disposal considerations see section 13.

**SECTION 7: Handling and storage****7.1 Precautions for safe handling****Measures to prevent fire and explosions:**

No special precautions required.

**Measures required to protect the environment:**

For environmental exposure controls see subsection 8.2.

**Advices on general occupational hygiene:**

Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink and animal feeding stuffs. Do not mix with other products unless advised by Diversey. Wash hands before breaks and at the end of workday. Wash face, hands and any exposed skin thoroughly after handling. Take off immediately all contaminated clothing. Wash contaminated clothing before reuse. Use personal protective equipment as required. Avoid contact with eyes. Use only with adequate ventilation.

**7.2 Conditions for safe storage, including any incompatibilities**

Store in accordance with local and national regulations. Keep only in original packaging. Store in a closed container. Keep from freezing. For conditions to avoid see subsection 10.4. For incompatible materials see subsection 10.5.

**7.3 Specific end use(s)**

No specific advice for end use available.

**SECTION 8: Exposure controls/personal protection****8.1 Control parameters****Workplace exposure limits**

Air limit values, if available:

Biological limit values, if available:

**8.2 Exposure controls**

*The following information applies for the uses indicated in subsection 1.2 of the Safety Data Sheet. If available, please refer to the product information sheet for application and handling instructions. Normal use conditions are assumed for this section.*

*Recommended safety measures for handling the undiluted product:*

*Covering activities such as filling and transfer of product to application equipment, flasks or buckets*

**Appropriate engineering controls:** If the product is diluted by using specific dosing systems with no risk of splashes or direct skin contact, the personal protection equipment as described in this section is not required.

**Appropriate organisational controls:** Avoid direct contact and/or splashes where possible. Train personnel.

**Personal protective equipment****Eye / face protection:**

Safety glasses or goggles (AS/NZS 1337.1).

**Hand protection:**

Chemical-resistant protective gloves (AS/NZS 2161.10). Verify instructions regarding permeability and breakthrough time, as provided by the gloves supplier. Consider specific local use conditions, such as risk of splashes, cuts, contact time and temperature.

Suggested gloves for prolonged contact: Material: butyl rubber Penetration time:  $\geq 480$  min Material thickness:  $\geq 0.7$  mm

Suggested gloves for protection against splashes: Material: nitrile rubber Penetration time:  $\geq 30$  min Material thickness:  $\geq 0.4$  mm

In consultation with the supplier of protective gloves a different type providing similar protection may be chosen.

**Body protection:**

Wear chemical-resistant clothing and boots in case direct dermal exposure and/or splashes may occur (EN 14605).

**Respiratory protection:**

No special requirements under normal use conditions.

**Environmental exposure controls:**

Should not reach sewage water or drainage ditch undiluted or unneutralised.

*Recommended safety measures for handling the diluted product:*

**Recommended maximum concentration (% w/w):** 20

## CYCLONE PREMIUM BLEACH

**Appropriate engineering controls:** No special requirements under normal use conditions.  
**Appropriate organisational controls:** No special requirements under normal use conditions.

**Personal protective equipment**

**Eye / face protection:** Safety glasses are not normally required. However, their use is recommended in those cases where splashes may occur when handling the product (EN 166).

**Hand protection:** Rinse and dry hands after use. For prolonged contact protection for the skin may be necessary.

**Body protection:** No special requirements under normal use conditions

**Respiratory protection:** No special requirements under normal use conditions.

**Environmental exposure controls:** No special requirements under normal use conditions.

**SECTION 9: Physical and chemical properties****9.1 Information on basic physical and chemical properties**

|   | <b>Method / remark</b>                         |
|---|--|
| <b>Physical state:</b> Liquid                                       |  |
| <b>Colour:</b> Clear , Pale , Yellow                                |  |
| <b>Odour:</b> Chlorine  |  |
| <b>Odour threshold:</b> Not applicable                              |  |
| <b>pH:</b> > 12.5 (neat)  |  |
| <b>Dilution pH:</b> Not measured                                    |  |
| <b>Melting point/freezing point (°C):</b> Not determined            | Not relevant to classification of this product |
| <b>Initial boiling point and boiling range (°C):</b> Not determined |  |

**Flammability (liquid):** Not determined.  
**Flash point (°C):** Not applicable.  
**Sustained combustion:** Not applicable.  
*( UN Manual of Tests and Criteria, section 32, L.2 )*

|   |  |
|---|--|
| <b>Evaporation rate:</b> Not determined                                       |  |
| <b>Flammability (solid, gas):</b> Not determined                              |  |
| <b>Lower and upper explosion limit/flammability limit (%):</b> Not determined |  |
| <b>Vapour pressure:</b> Not determined  |  |
| <b>Relative vapour density:</b> Not determined                                | Not relevant to classification of this product |
| <b>Relative density:</b> ≈ 1.08 (20 °C)                                       |  |
| <b>Solubility in / Miscibility with water:</b> Fully miscible                 |  |
| <b>Partition coefficient: n-octanol/water</b> No information available.       |  |

Substance data, partition coefficient n-octanol/water (log Kow): see subsection 12.3

**Autoignition temperature:** Not determined  
**Decomposition temperature:** Not applicable.  
**Viscosity:** Not determined  
**Explosive properties:** Not explosive.  
**Oxidising properties:** Not oxidising.

**9.2 Other information**

**Surface tension (N/m):** Not determined  
**Corrosion to metals:** Not determined

**SECTION 10: Stability and reactivity****10.1 Reactivity**

No reactivity hazards known under normal storage and use conditions.

**10.2 Chemical stability**

Stable under normal storage and use conditions.

**10.3 Possibility of hazardous reactions**

No hazardous reactions known under normal storage and use conditions.

**10.4 Conditions to avoid**

None known under normal storage and use conditions.

**10.5 Incompatible materials**

Reacts with acids releasing toxic chlorine gas. Keep away from acids.

**10.6 Hazardous decomposition products**

Chlorine.

**SECTION 11: Toxicological information****11.1 Information on toxicological effects**

Mixture data:.

**Relevant calculated ATE(s):**

ATE - Oral (mg/kg): &gt;5000

Substance data, where relevant and available, are listed below:.

**Acute toxicity**

Acute oral toxicity

| Ingredient(s)                         | Endpoint         | Value (mg/kg) | Species | Method            | Exposure time (h) |
|---------------------------------------|------------------|---------------|---------|-------------------|-------------------|
| sodium hypochlorite (active chlorine) | LD <sub>50</sub> | 1100          | Rat     | OECD 401 (EU B.1) | 90                |

Acute dermal toxicity

| Ingredient(s)                         | Endpoint         | Value (mg/kg) | Species | Method            | Exposure time (h) |
|---------------------------------------|------------------|---------------|---------|-------------------|-------------------|
| sodium hypochlorite (active chlorine) | LD <sub>50</sub> | > 20000       | Rabbit  | OECD 402 (EU B.3) |                   |

Acute inhalative toxicity

| Ingredient(s)                         | Endpoint         | Value (mg/l)    | Species | Method            | Exposure time (h) |
|---------------------------------------|------------------|-----------------|---------|-------------------|-------------------|
| sodium hypochlorite (active chlorine) | LC <sub>50</sub> | > 10.5 (vapour) | Rat     | OECD 403 (EU B.2) | 1                 |

**Irritation and corrosivity**

Skin irritation and corrosivity

| Ingredient(s)                         | Result    | Species | Method            | Exposure time |
|---------------------------------------|-----------|---------|-------------------|---------------|
| sodium hypochlorite (active chlorine) | Corrosive | Rabbit  | OECD 404 (EU B.4) |               |

Eye irritation and corrosivity

| Ingredient(s)                         | Result        | Species | Method            | Exposure time |
|---------------------------------------|---------------|---------|-------------------|---------------|
| sodium hypochlorite (active chlorine) | Severe damage | Rabbit  | OECD 405 (EU B.5) |               |

Respiratory tract irritation and corrosivity

| Ingredient(s)                         | Result                          | Species | Method | Exposure time |
|---------------------------------------|---------------------------------|---------|--------|---------------|
| sodium hypochlorite (active chlorine) | Irritating to respiratory tract |         |        |               |

**Sensitisation**

Sensitisation by skin contact

| Ingredient(s)                         | Result          | Species    | Method                           | Exposure time (h) |
|---------------------------------------|-----------------|------------|----------------------------------|-------------------|
| sodium hypochlorite (active chlorine) | Not sensitising | Guinea pig | OECD 406 (EU B.6) / Buehler test |                   |

Sensitisation by inhalation

| Ingredient(s)                         | Result          | Species | Method | Exposure time |
|---------------------------------------|-----------------|---------|--------|---------------|
| sodium hypochlorite (active chlorine) | Not sensitising |         |        |               |

**CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)**

Mutagenicity

| Ingredient(s)                         | Result (in-vitro)            | Method (in-vitro)     | Result (in-vivo)                                    | Method (in-vivo)   |
|---------------------------------------|------------------------------|-----------------------|---|--------------------|
| sodium hypochlorite (active chlorine) | No evidence for mutagenicity | OECD 471 (EU B.12/13) | No evidence for mutagenicity, negative test results | OECD 474 (EU B.12) |

Carcinogenicity

| Ingredient(s)                         | Effect   |
|---------------------------------------|--|
| sodium hypochlorite (active chlorine) | No evidence for carcinogenicity, negative test results |

## CYCLONE PREMIUM BLEACH

## Toxicity for reproduction

| Ingredient(s)                         | Endpoint | Specific effect                           | Value (mg/kg bw/d) | Species | Method  | Exposure time | Remarks and other effects reported    |
|---------------------------------------|----------|---|--------------------|---------|---|---------------|---------------------------------------|
| sodium hypochlorite (active chlorine) | NOAEL    | Developmental toxicity Impaired fertility | 5 (Cl)             | Rat     | OECD 414 (EU B.31), oral OECD 415 (EU B.34), oral |               | No evidence for reproductive toxicity |

## Repeated dose toxicity

## Sub-acute or sub-chronic oral toxicity

| Ingredient(s)                         | Endpoint | Value (mg/kg bw/d) | Species | Method             | Exposure time (days) | Specific effects and organs affected |
|---------------------------------------|----------|--------------------|---------|--------------------|----------------------|--------------------------------------|
| sodium hypochlorite (active chlorine) | NOAEL    | 50                 | Rat     | OECD 408 (EU B.26) | 90                   |                                      |

## Sub-chronic dermal toxicity

| Ingredient(s)                         | Endpoint | Value (mg/kg bw/d) | Species | Method | Exposure time (days) | Specific effects and organs affected |
|---------------------------------------|----------|--------------------|---------|--------|----------------------|--------------------------------------|
| sodium hypochlorite (active chlorine) |          | No data available  |         |        |                      |                                      |

## Sub-chronic inhalation toxicity

| Ingredient(s)                         | Endpoint | Value (mg/kg bw/d) | Species | Method | Exposure time (days) | Specific effects and organs affected |
|---------------------------------------|----------|--------------------|---------|--------|----------------------|--------------------------------------|
| sodium hypochlorite (active chlorine) |          | No data available  |         |        |                      |                                      |

## Chronic toxicity

| Ingredient(s)                         | Exposure route | Endpoint | Value (mg/kg bw/d) | Species | Method | Exposure time | Specific effects and organs affected | Remark |
|---------------------------------------|----------------|----------|--------------------|---------|--------|---------------|--------------------------------------|--------|
| sodium hypochlorite (active chlorine) |                |          | No data available  |         |        |               |                                      |        |

## STOT-single exposure

| Ingredient(s)                         | Affected organ(s) |
|---------------------------------------|-------------------|
| sodium hypochlorite (active chlorine) | Not applicable    |

## STOT-repeated exposure

| Ingredient(s)                         | Affected organ(s) |
|---------------------------------------|-------------------|
| sodium hypochlorite (active chlorine) | Not applicable    |

## Aspiration hazard

Substances with an aspiration hazard (H304), if any, are listed in section 3. If relevant, see section 9 for dynamic viscosity and relative density of the product.

## Potential adverse health effects and symptoms

Effects and symptoms related to the product, if any, are listed in subsection 4.2.

## SECTION 12: Ecological information

## 12.1 Toxicity

No data is available on the mixture.

Substance data, where relevant and available, are listed below:

## Aquatic short-term toxicity

## Aquatic short-term toxicity - fish

| Ingredient(s)                         | Endpoint         | Value (mg/l) | Species                    | Method           | Exposure time (h) |
|---------------------------------------|------------------|--------------|----------------------------|------------------|-------------------|
| sodium hypochlorite (active chlorine) | LC <sub>50</sub> | 0.06         | <i>Oncorhynchus mykiss</i> | Method not given | 96                |

## Aquatic short-term toxicity - crustacea

| Ingredient(s)                         | Endpoint         | Value (mg/l) | Species                   | Method            | Exposure time (h) |
|---------------------------------------|------------------|--------------|---------------------------|-------------------|-------------------|
| sodium hypochlorite (active chlorine) | EC <sub>50</sub> | 0.035        | <i>Ceriodaphnia dubia</i> | OECD 202 (EU C.2) | 48                |

## CYCLONE PREMIUM BLEACH

## Aquatic short-term toxicity - algae

| Ingredient(s)                         | Endpoint | Value (mg/l) | Species              | Method           | Exposure time (h) |
|---------------------------------------|----------|--------------|----------------------|------------------|-------------------|
| sodium hypochlorite (active chlorine) | NOEC     | 0.0021       | <i>Not specified</i> | Method not given | 168               |

## Aquatic short-term toxicity - marine species

| Ingredient(s)                         | Endpoint         | Value (mg/l) | Species                      | Method           | Exposure time (days) |
|---------------------------------------|------------------|--------------|------------------------------|------------------|----------------------|
| sodium hypochlorite (active chlorine) | EC <sub>50</sub> | 0.026        | <i>Crassostrea virginica</i> | Method not given | 2                    |

## Impact on sewage plants - toxicity to bacteria

| Ingredient(s)                         | Endpoint | Value (mg/l) | Inoculum                | Method           | Exposure time |
|---------------------------------------|----------|--------------|-------------------------|------------------|---------------|
| sodium hypochlorite (active chlorine) |          | 0.375        | <i>Activated sludge</i> | Method not given |               |

## Aquatic long-term toxicity

## Aquatic long-term toxicity - fish

| Ingredient(s)                         | Endpoint | Value (mg/l) | Species                   | Method           | Exposure time | Effects observed |
|---------------------------------------|----------|--------------|---------------------------|------------------|---------------|------------------|
| sodium hypochlorite (active chlorine) | NOEC     | 0.04         | <i>Menidia pelinsulae</i> | Method not given | 96 hour(s)    |                  |

## Aquatic long-term toxicity - crustacea

| Ingredient(s)                         | Endpoint | Value (mg/l) | Species                      | Method           | Exposure time | Effects observed |
|---------------------------------------|----------|--------------|------------------------------|------------------|---------------|------------------|
| sodium hypochlorite (active chlorine) | NOEC     | 0.007        | <i>Crassostrea virginica</i> | Method not given | 15 day(s)     |                  |

## Aquatic toxicity to other aquatic benthic organisms, including sediment-dwelling organisms, if available:

| Ingredient(s)                         | Endpoint | Value (mg/kg dw sediment) | Species | Method | Exposure time (days) | Effects observed |
|---------------------------------------|----------|---------------------------|---------|--------|----------------------|------------------|
| sodium hypochlorite (active chlorine) |          | No data available         |         |        |                      |                  |

## Terrestrial toxicity

## Terrestrial toxicity - soil invertebrates, including earthworms, if available:

| Ingredient(s)                         | Endpoint | Value (mg/kg dw soil) | Species | Method | Exposure time (days) | Effects observed |
|---------------------------------------|----------|-----------------------|---------|--------|----------------------|------------------|
| sodium hypochlorite (active chlorine) |          | No data available     |         |        |                      |                  |

## Terrestrial toxicity - plants, if available:

| Ingredient(s)                         | Endpoint | Value (mg/kg dw soil) | Species | Method | Exposure time (days) | Effects observed |
|---------------------------------------|----------|-----------------------|---------|--------|----------------------|------------------|
| sodium hypochlorite (active chlorine) |          | No data available     |         |        |                      |                  |

## Terrestrial toxicity - birds, if available:

| Ingredient(s)                         | Endpoint | Value             | Species | Method | Exposure time (days) | Effects observed |
|---------------------------------------|----------|-------------------|---------|--------|----------------------|------------------|
| sodium hypochlorite (active chlorine) |          | No data available |         |        |                      |                  |

## Terrestrial toxicity - beneficial insects, if available:

| Ingredient(s)                         | Endpoint | Value (mg/kg dw soil) | Species | Method | Exposure time (days) | Effects observed |
|---------------------------------------|----------|-----------------------|---------|--------|----------------------|------------------|
| sodium hypochlorite (active chlorine) |          | No data available     |         |        |                      |                  |

## Terrestrial toxicity - soil bacteria, if available:

| Ingredient(s)                         | Endpoint | Value (mg/kg dw soil) | Species | Method | Exposure time (days) | Effects observed |
|---------------------------------------|----------|-----------------------|---------|--------|----------------------|------------------|
| sodium hypochlorite (active chlorine) |          | No data available     |         |        |                      |                  |

## 12.2 Persistence and degradability

## Abiotic degradation

## CYCLONE PREMIUM BLEACH

Abiotic degradation - photodegradation in air, if available:

| Ingredient(s)                         | Half-life time | Method                   | Evaluation | Remark |
|---------------------------------------|----------------|--------------------------|------------|--------|
| sodium hypochlorite (active chlorine) | 115 day(s)     | Indirect photo-oxidation |            |        |

Abiotic degradation - hydrolysis, if available:

| Ingredient(s)                         | Half-life time in fresh water | Method | Evaluation | Remark |
|---------------------------------------|-------------------------------|--------|------------|--------|
| sodium hypochlorite (active chlorine) | No data available             |        |            |        |

Abiotic degradation - other processes, if available:

| Ingredient(s)                         | Type | Half-life time    | Method | Evaluation | Remark |
|---------------------------------------|------|-------------------|--------|------------|--------|
| sodium hypochlorite (active chlorine) |      | No data available |        |            |        |

**Biodegradation**

Ready biodegradability - aerobic conditions

| Ingredient(s)                         | Inoculum | Analytical method | DT <sub>50</sub> | Method | Evaluation                           |
|---------------------------------------|----------|-------------------|------------------|--------|--------------------------------------|
| sodium hypochlorite (active chlorine) |          |                   |                  |        | Not applicable (inorganic substance) |

Ready biodegradability - anaerobic and marine conditions, if available:

| Ingredient(s)                         | Medium & Type | Analytical method | DT <sub>50</sub> | Method | Evaluation        |
|---------------------------------------|---------------|-------------------|------------------|--------|-------------------|
| sodium hypochlorite (active chlorine) |               |                   |                  |        | No data available |

Degradation in relevant environmental compartments, if available:

| Ingredient(s)                         | Medium & Type | Analytical method | DT <sub>50</sub> | Method | Evaluation        |
|---------------------------------------|---------------|-------------------|------------------|--------|-------------------|
| sodium hypochlorite (active chlorine) |               |                   |                  |        | No data available |

**12.3 Bioaccumulative potential**Partition coefficient n-octanol/water (log K<sub>ow</sub>)

| Ingredient(s)                         | Value | Method           | Evaluation                  | Remark |
|---------------------------------------|-------|------------------|-----------------------------|--------|
| sodium hypochlorite (active chlorine) | -3.42 | Method not given | No bioaccumulation expected |        |

Bioconcentration factor (BCF)

| Ingredient(s)                         | Value             | Species | Method | Evaluation | Remark |
|---------------------------------------|-------------------|---------|--------|------------|--------|
| sodium hypochlorite (active chlorine) | No data available |         |        |            |        |

**12.4 Mobility in soil**

Adsorption/Desorption to soil or sediment

| Ingredient(s)                         | Adsorption coefficient Log K <sub>oc</sub> | Desorption coefficient Log K <sub>oc</sub> (des) | Method | Soil/sediment type | Evaluation                          |
|---------------------------------------|--|--|--------|--------------------|-------------------------------------|
| sodium hypochlorite (active chlorine) | 1.12                                       |  |        |                    | High potential for mobility in soil |

**12.5 Other adverse effects**

No other adverse effects known.

**SECTION 13: Disposal considerations****13.1 Waste treatment methods****Waste from residues / unused products:**

The concentrated contents or contaminated packaging should be disposed of by a certified handler or according to the site permit. Release of waste to sewers is discouraged. The cleaned packaging material is suitable for energy recovery or recycling in line with local legislation.

**Empty packaging****Recommendation:****Suitable cleaning agents:**

Dispose of observing national or local regulations.  
Water, if necessary with cleaning agent.

**SECTION 14: Transport information**

## CYCLONE PREMIUM BLEACH

**ADG, IMO/IMDG, ICAO/IATA**

14.1 UN number: 3082

## 14.2 UN proper shipping name:

Environmentally hazardous substance, liquid, n.o.s. ( hypochlorite )

## 14.3 Transport hazard class(es):

Transport hazard class (and subsidiary risks): 9

## 14.4 Packing group: III

## 14.5 Environmental hazards:

Environmentally hazardous: Yes

Marine pollutant: Yes

## 14.6 Special precautions for user: None known.

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: The product is not transported in bulk tankers.

**Other relevant information:**

Hazchem code: \*3Z

EmS: F-A, S-F

The product has been classified, labelled and packaged in accordance with the requirements of ADG7.7 Code and the provisions of the IMDG Code.

Transport regulations include special provisions for dangerous goods packed in small quantities classified under UN3077 or UN3082

(a) IMDG 2.10.2.7 exception: Labelling and packaging not subject to this Code when package in single or combination packagings containing a net quantity per single or inner packaging of 5L(kg) or less

(b) ADG 7.6 SP No. AU01 exception: Labelling and packaging not subject to this Code when transported by road or rail in packagings not > 500 kg(L) or IBCs

**SECTION 15: Regulatory information****15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

|                             |  |
|-----------------------------|--|
| <b>National regulations</b> | Globally Harmonised System of Classification and Labelling of Chemicals (GHS) as published by Safework Australia.                      |
| <b>Poison schedule</b>      | Classified as a Schedule 5 (S5) Poison using the criteria in the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP). |
| <b>Classification</b>       | Globally Harmonised System of Classification and Labelling of Chemicals (GHS) as published by Safework Australia.                      |
| <b>Inventory listing(s)</b> | Australian Inventory of Industrial Chemicals: All components are listed on the inventory, or are exempt.                               |

**SECTION 16: Other information**

*The information in this document is based on our best present knowledge. However, it does not constitute a guarantee for any specific product features and does not establish a legally binding contract*

SDS code: MS31000110

Version: 01.1

Revision: 2022-12-17

**Full text of the H phrases mentioned in section 3:****Additional information:**

**Respirators:** In general the use of respirators should be limited and engineering controls employed to avoid exposure. If respiratory equipment must be worn ensure correct respirator selection and training is undertaken. Remember that some respirators may be extremely uncomfortable when used for long periods. The use of air powered or air supplied respirators should be considered where prolonged or repeated use is necessary.

**Work practices - solvents:** Organic solvents may present both a health and flammability hazard. It is recommended that engineering controls should be adopted to reduce exposure where practicable (for example, if using indoors, ensure explosion proof extraction ventilation is

**CYCLONE PREMIUM BLEACH**

available). Flammable or combustible liquids with explosive limits have the potential for ignition from static discharge. Refer to AS 1020 (The control of undesirable static electricity) and AS 1940 (The storage and handling of flammable and combustible liquids) for control procedures.

**Personal protective equipment guidelines:** The recommendation for protective equipment contained within this report is provided as a guide only. Factors such as method of application, working environment, quantity used, product concentration and the availability of engineering controls should be considered before final selection of personal protective equipment is made.

**Health effects from exposure:** It should be noted that the effects from exposure to this product will depend on several factors including: frequency and duration of use; quantity used; effectiveness of control measures; protective equipment used and method of application. Given that it is impractical to prepare a Safety Data Sheet which would encompass all possible scenarios, it is anticipated that users will assess the risks and apply control methods where appropriate.

**Abbreviations and acronyms:**

- DNEL - Derived No Effect Limit
- AUH - Non GHS hazard statement
- PNEC - Predicted No Effect Concentration
- ATE - Acute Toxicity Estimate
- LC50 - Lethal Concentration, 50% / Median Lethal Concentration
- LD50 - Lethal Dose, 50% / Median Lethal dose
- STOT-RE - Specific target organ toxicity (repeated exposure)
- STOT-SE - Specific target organ toxicity (single exposure)
- EC No. - European Community Number
