FREEDOM CONCENTRATE

Quaternary Ammonium Based Sanitiser

Active Constituent : 80 g/L Didecyl Dimethyl Ammonium
Chloride

Description

- ❖ FREEDOM is a clear coloured liquid that contains a combination of cleaning agents and highly effective quaternary sanitisers. It has been specially formulated to leave cleaned surfaces germ free. FREEDOM is specifically used as the final rinse sanitiser at the end of the standard wash program

Features and Benefits

- ❖ Improved sanitising performance at lower use concentrations.
- ❖ Greater hard water tolerance sanitising activity at lower use levels.
- ❖ Superior organic soil tolerance.
- ❖ Freedom is suitable for use in food preparation areas

Directions for Use

- ❖ FREEDOM is used at a dose rate of 1 : 250 to provide 300 ppm of active quat. At this concentration it has F.D.A. clearance to sanitise without the requirement of a potable water rinse. (See information listed below)
- ❖ FREEDOM can be applied by spraying, fogging or mopping onto the required surface
- ❖ FREEDOM is also suitable for use in a foot bath at a dilution rate of 1 : 100

Packaging

- ◆ 5 Litre polyethylene drums ◆ 15 Litre polyethylene drums

Health Hazard Information

- ❖ See separate Health and Safety Data Sheet, available on request.

The Product Information Sheet supersedes all previous issues for this product. Information contained herein is offered in good faith as being true and accurate to the best of our knowledge, but as the conditions of use are beyond our control, no guarantees are either stated or implied. Where health or safety data given discloses a risk to the user or the environment, it is the responsibility of the purchaser to pass on the information to employees who may be using the product, ensuring that adequate safety procedures are used, including good industrial hygiene.
