SANI KLEEN

Antibacterial Laundry Powder

Description

SANI KLEEN is a free flowing white powder with a blend of surfactants, sequesterants and oxygen donating bleaching agents. It has a powerful sanitizing action.

Application

SANI KLEEN has been formulated for cleaning and disinfecting laundry in food service, health care and any mixed load wash where disinfection is vital.

Features & Benefits

- Low temperature use; starting at 40°C, saves energy.
- Tested to comply with AS4146 2000 and BS EN 1276: 1997.
- Fully formulated with oxygen bleach, surfactants and sequesterants for cleaning and brightening across a wide range of fabrics and colours.
- Contains a substantive fragrance to leave garments smelling fresh and deodorized.
- Suitable for top and front loaders, and all water conditions.

Directions

Add **SANI KLEEN** to the wash cycle, ensuring it fully dissolves and does not clump on garments, as this can cause spot bleaching.

Use rates are quoted per kilogram of dry weight wash load:

Light Soils - 50g per 50 Kg dry weight wash load.

Medium Soils - 100g per 50 Kg dry weight wash load.

Heavy Soils - 200g per 50 Kg dry weight wash load.

A wash time of 15 minutes is recommended, and for heavily soiled wash loads, a two step wash process may be required.
