

PRODUCT INFORMATION SHEET

SLATE FINISH

INTERIOR FINISH

Description

Tasman **SLATE FINISH** is a high performance, multi-purpose, low maintenance sealer polish. It is primarily used in dry areas with heavy traffic. It is a scuff and slip resistant, wax-free polish, suitable for the following surfaces: slate, terrazzo, paving brick, terracotta, marble, quarry tiles, stone, rubber, linoleum, vinyl, thermoplastic and seamless tiles.

Application

TASMAN **SLATE FINISH** is a hard self shining acrylic finish which gives protection, easy maintenance and adds lustre to any 'dry' area treated with TASMAN SLATE SEAL or ALL STONE SEALER. Initially two coats are required. Slate Finish is only for interior use.

Method of Use

1. TASMAN **SLATE FINISH** is suitable for use in all indoor areas but not wet areas (shower recesses, spas and any exterior applications open to rain).
2. After TASMAN SLATE SEAL or ALL STONE SEALER has been used and dried thoroughly, apply 2 thin even coats of TASMAN **SLATE FINISH** allowing 1 hour drying time between applications.
3. For regular maintenance sweep floors daily to remove dust and light soils. Difficult stains can be spot cleaned with TASMAN TILE KLEEN.
4. When floors look dull wash with TASMAN TILE KLEEN and apply TASMAN **SLATE FINISH** to traffic areas only. This can be done about four times a year (depending on wear and traffic).
5. Apply with lambswool applicator or mop. TASMAN **SLATE FINISH** can be used undiluted to achieve a high gloss finish or diluted 1:1 with clean water for a matt finish.

COVERAGE: 1 Litre will cover 8-20 square metres per coat depending on the porosity of the surface to be sealed.
