

AEROSOL VITROGLAZE

The clear solution

DIY KIT

- ✓ Reduces cleaning time by up to 90%
- ✓ Treats area up to 10 m²
- ✓ 5 year warranty
- ✓ Keep glass looking 'as new'

PROTECTIVE NON STICK COATING

Application Instructions (new glass) - To achieve the best results, the surface to be treated must be thoroughly cleaned and dry before applying Vitroglaze

STEP 1. Apply the Foaming Pre-Cleaner to the glass surface (shake well before use) and using a clean, dry rag or paper towel over the surface until the glass is streak free and dry.

STEP 2. Apply the Vitroglaze evenly to a small area of the cleaned glass surface (about 1 square metre at a time) and immediately wipe over this area using a clean flat folded piece of paper towel or rag. Continue this process until all the glass surfaces have been treated.

STEP 3. Using a clean dry rag or paper towel, rub over the entire glass areas for about 1 minute to achieve a sparkling finish.

To treat glass that's not brand new, simply clean the glass as you normally would then using a mild detergent in warm water and the hand scourer provided, rub vigorously over the entire glass surface. Dry the entire surface then proceed with the application from step 1-3.

Allow to cure for 24 hours before glass comes in contact with water.

KIT INCLUDES:

- Vitroglaze Precleaner
- Vitroglaze Non Stick Coating
- Cleaning Mit

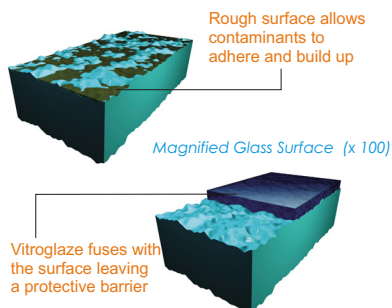

USE ON:

- Showerscreens
- Balustrading
- Windows
- Marine glass
- Any glass surface

PROTECT FROM:

- Salt Spray
- Soap Scum
- Dirt & Grime
