# Product Features

The NHL-FLL340 is an Architectural LED Flood Light that adopts the latest in optical and LED technology for use in many commercial applications. This large LED floodlight has a wide beam distribution for lighting applications such as safety/security, facade, area, or signs. Operating temperature of -4F to 104F. Multiple mounting configurations to fit any application.

- Economic, versatile, high efficiency flood family, with Multiple mounting configurations to fit any application
- Midpower LED chips and universal voltage driver technology
- Dimming option available
- Precision die cast
- IP66 rated fixture for outdoor use
- Chip and fade resistant powder coat finish in any color
- Industrial grade, Standard button Photocell
