FOOTBALL AUSTRALIA ENDORSED

Our range of footballs has been given the tick of approval by Football Australia, attesting to their excellence in construction, playability, and design. You can rest assured knowing that these are the best footballs on the market. SUMMIT is the sole licensee for Football Australia footballs and equipment.

AN EASY CHOICE FOR CLUBS

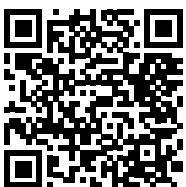

We're trusted by hundreds of clubs, schools and associations for their equipment. Our range delivers the best quality and price point, providing a ball for every player.

We believe that our balls are that good, they are guaranteed from 12 to 24 months - some of the longest guarantees in the industry.

TURN UP THE PRESSURE

Achieving the FIFA Pro standard requires a soccer ball to maintain pressure, losing no more than 20% over 72 hours. SUMMIT balls easily surpass this holding the correct pressure for longer, making them more reliable and less work to maintain.

We use only the best materials and are constantly striving to make improvements in manufacturing.

A FIRST IN RECYCLED RUBBER TECHNOLOGY

Innovation in ball technology, SUMMIT has created a netball with recycled rubber content. With reclaimed rubber, we are making a difference with every ball.

NETBALLS COME IN COMPOSTABLE BAGS

The first time any netball has come in compostable bags. SUMMIT Netballs will move from recycled bags, to composting and paper bags only.

FOAM IN RUBBER SHEET TECHNOLOGY

Using our technology from soccer balls, we have developed the first foam layered netball. This gives a softer touch and allows for better grip.
