

NAME	2W1	BASE	PEDICURE BASE	SENSITIVE CARE BASE	SMOOTHER BASE	BB BASE ROSE	BB BASE NUDE	FIBER BASE	EXTEND BASE	CARE BASE	MINERAL STRONG BASE	DREAM LONG BASE	PROTECT & CARE BASE	
SPECIFICS	It combines durability and adhesion and protects colour from fading or looking dull.	Protection and improvement of nail polish adhesion to the natural nail plate.	You can easily create even a very thin layer of the base coat. It is easier to apply the nail polish, even on the smallest nails and the pedicure looks natural.	It allows you to easily paint thin layers and remove the manicure.	It perfectly evens out the surface for a completely smooth manicure. It fills out nail defects, ridges and lines. It allows you to gently build up and shape flat nail plates.	It harmonises with the nail plate, helps you shape, and slightly build up and extend your nail plate by up to 0.5 Cm, allowing for a quick and easy manicure removal.	It harmonises with the nail plate, helps you shape, slightly build up and extend your nail plate by up to 0.5 Cm, allowing for a quick and easy manicure removal.	It fills out and shapes the nail plate, nylon fibres strengthen the nails and help extend them by up to 1 cm.	Builds up, shapes, strengthens and extends the nail plate by up to 1 cm.	It creates a protective layer which protects the nails from mechanical damage, splitting and breaking. It allows for nail building and extension.	It perfectly builds up and extends the nail plate while hiding roughness and imperfections.	It protects the nails from nail-biting, helps extend and build up the nails, the nails are firmer, harder, visibly strengthened and more resistant to damage.	It supports regeneration and strengthens the nails it also helps even out, build up and extend the nail plate.
