BNBCS Series High Tensile Bolt Cutters

SUMMARY OF TOOL

“**High Tensile Bolt Cutters**” have an HRC rating of 48. They can cut harder material and hold their edge better than a standard bolt cutter at 42 HRC. The BN Products USA bolt cutters are “High Tensile” and will last longer and cut through harder material versus a standard bolt cutter. The BNBCS High Tensile Bolt Cutters are available in lengths from 14” to 42”. These tools can be used on chains, padlocks, bolts, and wire mesh. For optimal strength and durability, these tools use a center-cut configuration, and are available in six different lengths; 14”, 18”, 24”, 30”, 36”, and 42”. The head is slim enough to allow cutting close to the surface. The cutting jaws are made from forged CRV60 Chromium-Vanadium tool steel to our exacting specifications and quality standards.

Specifications:

Standard 14”	Bolt Cutter Capacity: 1/4” (6 mm)	Weight: 2.35 lbs.	Length: 14 5/8” (350mm)
Standard 18”	Bolt Cutter Capacity: 9/32” (7 mm)	Weight: 3.6 lbs.	Length: 18 1/2” (450mm)
Standard 24”	Bolt Cutter Capacity: 5/16” (8 mm)	Weight: 5.65 lbs.	Length: 24” (600mm)
Standard 30”	Bolt Cutter Capacity: 13/32” (10 mm)	Weight: 8.6 lbs.	Length: 30” (750mm)
Standard 36”	Bolt Cutter Capacity: 7/16” (11 mm)	Weight: 11.05 lbs.	Length: 36” (900mm)
Standard 42”	Bolt Cutter Capacity: 1/2” (13 mm)	Weight: 17.25 lbs.	Length: 42” (1050mm)
