

Any Setcom KA/KE-Series helmet kit can be used with Portable-Only Liberator.

Up to 1,024 concurrent riders.

Does not require syncing. After mounting the motor, key the handlebar mounted PTT and the wireless link will operate.

Breakaway connector prevents officer's helmet from being unsafely tethered to the Liberator in the event of an accident. SuperMic mic & speaker auto-mute when helmet kit is plugged in here.

No additional battery required for the Liberator Wireless SuperMic. In normal operation, both SuperMic and portable radio will operate a full shift from the radio's battery.

Water proof IP-X7

Water proof IP-X8

Wireless Radio PTT

To Switched/Fused Battery 12VDC
