

**FLEX SEAL® EXTREME LIQUID EPOXY** is a high-performance, two-part adhesive designed for exceptional strength and long-lasting durability. Its advanced formula creates a permanent, watertight bond on a wide range of materials. This rapid-cure adhesive features a non-sag formula making it ideal for overhead and vertical application. The go-to solution for heavy-duty repairs, precision fixes, and everything in between.

## • WHAT DOES IT DO?

- High-performance, two-part adhesive that creates a strong permanent bond
- Tensile strength up to 6,000 PSI — strong enough to lift over 16,000 lbs
- Resistant to high temperatures (up to 550°F)
- Excellent chemical and fuel resistance (once cured)
- Suitable for vertical & overhead applications
- Approximately 45 minutes to tool or modify before it begins to harden
- **Set:** 3–10 hours | **Full cure:** 15-24 hours or as fast as 1 hour with heat
- Paintable (high-quality latex paints recommended)
- Cures to a waterproof barrier making it great for indoor and outdoor repairs.
- It can be sanded and drilled
- It has gap and crack filling capability

## • HOW DO IT USE IT?

1. **Prep:** Clean and dry surface
2. **Mix:** Dispense equal parts of resin and catalyst onto the mixing tray
3. **Stir:** Mix thoroughly until a uniform color

4. **Apply:** Place mixed epoxy on desired area
5. **Set:** Clamp if necessary; allow to cure undisturbed
6. **Clean-up (uncured):** Use mild solvent
7. **Clean-up (cured):** Remove mechanically (e.g., sanding)

## • NOT RECOMMENDED:

- Not for flexible joints or moving cracks
- Not food safe
- Not aquarium-safe
- Do not thin with solvents (prevents curing)
- Product will NOT cure to a flexible coating
- Avoid exposure to temps above 120°F before product cures

## • TEMPERATURE:

- **Application temperature:** between 50°F and 110°F
- **Storage temperature:** 60°F to 100°F (climate-controlled area recommended)

## • RECOMMENDED SURFACES

- Metal
- Glass
- Wood
- PVC
- Ceramic
- Concrete
- Tile
- Fiberglass
- Brick
- Stone
- Rigid Plastics and more

## • SIZES

- .85 FL oz syringe
- Two .5 FL oz tubes

## • COLORS

- Black

## • LAUNCH DATE

- 07/2025
