

RING SIZING GUIDE

RING SIZING GUIDE

Besbelle rings are only offered in U.S. standard ring sizes 4 to 9. Please make sure to use the chart below to convert your measurement to U.S. standard ring size before placing your order.

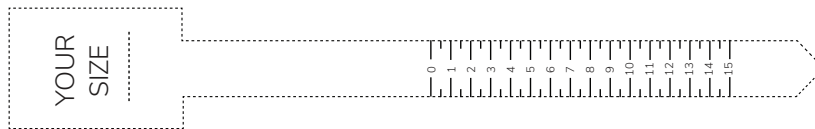

DON'T KNOW YOUR SIZE?

There are a couple of ways to measure your ring size.

1. Measure the internal diameter (in mm) of an existing ring of yours. You can also print this page at 100% scale (not stretched to fit) and try to match your ring to one of the circles in the chart below.
2. Wrap around a strip of paper around your desired finger, mark a spot, and measure the length with a ruler. It is more accurate to measure the length in centimeters (cm) or millimeters (mm) than to measure in inches.
 1 cm = 1 mm
 1 in = 2.54 cm = 25.4 mm

YOU CAN ALSO USE THIS RING RULER BELOW.

- Print this page at 100% scale (not stretch to fit)
- Cut along the dotted lines, including the slit just below "YOUR SIZE."
- Wrap the long strip of paper around your desired finger, slip the pointed end through the slit
- Tighten the paper around your finger but make sure it passes over your knuckle
- Ta-daa! That's your ring size (in U.S. standard size)

3. Find the nearest jeweler and he/she should be able to assist you to find your perfect fit!

B RING SIZE CONVERSION CHART

	4	5	6	7	8	9
USA & CANADA
