Case Study from Dr.Eissa

Dr. Hesham Mahmoud Eissa is a consultant ophthalmologist. He bought QuikVue at EOS (Egyptian Ophthalmic Congress) in March 2019. He is happy to share the following case he treated by using QuikVue to record the pathology progress.

3 weeks post DALK surgery

Corneal granular dystrophy type I

3 weeks post triple case(cataract removal, IOL implantation and keratoplasty)

An intraocular foreign body in the AC through a semi self-sealed corneal wound.

Shanghai VisuScience Meditech Co., Ltd.Address: No. 344 Sanlin Rd., Pudong New District, Shanghai 200124, China Tel.: +86 21-34973659 Fax: +86 21-34973659 E-mail: info@visuscience E-mail: <u>info@visuscience.com</u> Website: <u>www.visuscience.com</u>

a phaco patient had her surgery couple of hours and I implanted a trifocal lens

You can easily see the circles of the trifocal IOL on the optics
