Data Sheet

Hessian

Prevents water loss in newly laid concrete and brickwork.

Product Code	Width (mtr)	Length (mtr)
HESS	1.37	46

Product Specification – Plain weave Hessian Cloth width 1.37m x 46m x 200gms/m² made of 100% lignocellulosic natural and biodegradable jute fibres .

Intended use - Packing and protection of goods and others

Chemical composition

Cellulose- 59-72%
Hemi Cellulose- 12-16%
Lignin- 12-14%
Nitrogenous matters- 0.6-2.5%
Mineral matters- 0.6-1.2%
Pectin - 0.2-0.5%
Fat & waxes- 0.4-0.5%

Flammability

Catches fire when comes in contact with electrical spark due to short circuit or fire and turns into flames at 360 C

Fire Fighting Measures

Normal equipment and measures to douse fire

Handling & Storage

Mechanical and manual handling has no problem and store should be free from any fire hazards, dry and free from any damp as jute is naturally hydrophobic and absorbs moisture from damp atmosphere changing its physical properties and strength

Stability and Reactivity

Under normal atmospheric conditions it is completely stable and has no reaction
