Your Partner in Cool.

**AQUA
COOLER**

AQUA COOLER

The leader in drinking water solutions.

About us

Aqua Cooler offers expert solution advice, nationwide technical support, and installation services of drinking water products throughout Australia and New Zealand. Aqua Cooler Headquarters are in Brisbane, Queensland, along with warehousing and distribution arrangements across the two countries. We hold a range of stock locally in our Auckland warehouse, ready for convenient distribution nationwide.

Our serviced industries include education, transport, commercial buildings, transportation, construction sites, healthcare, fitness and sports facilities, domestic homes and more.

Products

Our range includes drinking fountains, bubblers and bottle fillers, public drinking fountains, mains-connected and bottle top water coolers, under bench systems for home and offices, remote water systems, wall mounted drinking troughs, water filter systems and associated accessories.

Our Values

We are a customer-first organization, putting customer satisfaction at the forefront of how we conduct business. We aim to improve life through water. We believe in never being difficult to deal with and being there for our customers when they need us the most.

Our History

Aqua Cooler Pty Ltd is a proud family-owned company with a strong history dating back to 1946 when we operated as a contractor in the refrigeration sector and later as a manufacturer of packaged water chiller units.

In 1979 Aqua Cooler acquired Sam Hort (Aust.) Pty Ltd, which commenced production of Drinking Water Fountains in 1953, and with the rapidly growing spring water market we commenced production of bottled water coolers in 1989.

"The key to our success lies in our ability to provide expert advice to our clients, fast response to sales, short lead times and quality products."

DRINKING FOUNTAINS

The M Series and VersaFiller drinking fountains stand as the flagship products within Aqua Cooler's lineup. Renowned for their unparalleled durability, reliability, and performance, they have become the top choice across a wide spectrum of industries. The chic yet understated design complements nearly any setting, with the IP33 rating (M-Series only) allows for installation in places where other fountains are not feasible.

M Series

Heavy-duty, mains-connected drinking fountains

The M Series is a sleek, mains-connected water fountain with a heavy-duty build. The tank is made from industrial-grade stainless steel ensuring the fountain will meet any demand.

IP33
RATED

KEY FEATURES

- Industrial grade 304 stainless steel tank and robust construction
- Polished stainless steel top
- Front panel removes for ease of servicing
- Optional stainless steel cabinets
- Simple filter changes for filtered units
- Adjustable, tamper-proof, non-squirt bubbler and glass filler
- IP33 rating suitable for outdoor use (see page 7)

The M Series is designed with an easily removable front panel giving instant access to all components and controls. Hassle-free filter changes and services can be done without disconnecting the plumbing.

Available with or without a glass filler tap, in filtered or unfiltered configurations with a stainless steel or dark grey powder coat finish, this robust water dispenser fits perfectly in a multitude of places, including offices, worksites and gyms.

Filtered models feature a compact, easy-to-replace filter that removes taste, odour and chlorine. The proprietary carbon-block filter has greater density than other products with a 2-micron filtration pad to prevent carbon and sediment bypass.

The water inlet connection is a 1/2" MBSP and the drain is a 40mm female PVC socket.

Model Selection Chart

Cabinet	Filtered	10 Litres per hour		26 Litres per hour	
		1-20 people*			21-80 people*
		Bubbler	Bubbler & glass filler	Bubbler & glass filler	
Dark grey powder coat	No	M2	M3	M11	
	Yes	M2F	M3F	M11F	
Stainless steel	No			M11SS	
	Yes			M11FSS	

*Approximate figures only. All M3 and M11 models are supplied with fittings to temporarily remove bubbler for reinstallation at a later date. This will enable the drinking fountain to be used as a glass filler only unit.

Ingress protection

What it means for water fountains in the construction industry

The joint Australia/New Zealand Standard (AS/NZS 3000:2018) has been prepared by the Joint Technical Committee EL-001, Wiring Rules to provide uniform essential elements that constitute the minimum regulatory requirements for safe electrical installation.

AS/NZS 3000:2018, published on 26 June 2018, allowed for a six-month transition period.

Section 4.1 of the Standard stipulates that electrical accessories installed outside a 30-degree arc from shelter shall have a minimum degree of ingress protection of IP33.

Area under an overhang requiring accessories to be a minimum of IP33 (side view)

That means any water fountain with a lower IP rating installed without the shelter shown above is in breach of the Standard. Worksites risk being shut down for this breach of the Standard.

Aqua Cooler's flagship product, the M Series free-standing drinking fountain, has achieved a rating of IP33*. We offer a 12-month comprehensive warranty, regardless of whether it is installed in uncovered conditions, followed by a 24-month parts-only warranty.

(*M Series ingress protection tested by Ex Testing and Certification Pty Ltd, report # REP18122-01, 26/11/2018)

IP33
RATED

"The M Series is a must for work sites that require cold water and don't have the luxury of undercover space."

VersaFiller

Wall-Mounted Mains Connected All-In-One Unit

The VersaFiller Series comes in a wide range of configurations, including single and split-level designs, both of which feature either manual or contactless bubblers and bottle fillers.

KEY FEATURES

- Stainless steel top and heavy duty frame with galvanized or stainless steel option
- High efficiency cooling system and refrigerant R-134a
- Built-in 100 micron strainer stops particles before they enter the waterway
- Waterways are lead free in materials and construction
- External stream height adjustment on bubblers
- Hands-free bottle filler with programmable shut off timer (hands free version only)
- Integrated bottle counter and filter monitor. (hands free version only)

With the option to upgrade to a vandal-resistant design, the VersaFiller is perfect for schools and other public areas. All VersaFiller fountains use R-134a refrigerant and have an efficient, high-performing refrigeration system.

All Oasis bottle fillers are made with proprietary Freshield technology. Freshield harnesses the natural bacteria-fighting power of silver by infusing it into a poly compound on moulded parts of the alcoves.

UNDER BENCH

Aqua Cooler under bench chillers sit out of sight and deliver a steady supply of chilled water to a tap or faucet above the bench. These under-bench units offer a practical alternative to storing water jugs in the refrigerator and, when equipped with an optional filter, deliver chilled and filtered water on demand, anytime you need it.

H₂O Now

BY AQUA COOLER

The H2ONow chiller by Aqua Cooler is an innovative drink system designed to sit out of sight and dispense filtered chilled water on demand.

KEY FEATURES

- 5L/H chilled water output
- Stylish chilled tap
- Simple to use, with automatic shutdown
- Thoughtfully designed for space-saving under-bench installation
- Fully insulated to achieve maximum energy efficiency
- Easy filter replacement with a single twist
- 12-months standard warranty
- Full range of replacement parts

A 5L per hour chilling capacity means you'll always have fresh, cold water available. The included carbon filter kit removes chlorine, taste, odour, and fine particles from cold water.

The stylishly designed tap includes an LED reminder light, to indicate when it's time to replace your filter, and filters are easily replaced with a single twist off/on fitting.

Great for keeping the family hydrated

WATER COOLERS

Aqua Cooler is the trusted choice for thousands of customers who depend on our brand to deliver cold, filtered water to their waiting rooms, lunchrooms, residences, fitness centres, educational institutions, and workplaces. This trust is rooted in the exceptional quality and value that Aqua Cooler water coolers provide. The stylish, contemporary designs, combined with the renowned reliability inherent in all Aqua Cooler products, make them the ideal solution for all your drinking water requirements.

Odyssey Series

Free Standing Water Cooler

The Odyssey Series offers unrivalled value in bottled ambient and cold drinking water dispensers. The modern cooler is the perfect unit for family homes, renters and small offices all year round.

*Optional

KEY FEATURES

- Stylish front facade made from high quality durable plastic, coupled with steel side panels for strength
- Easy-to-use taps, only one hand required
- Food-grade, stainless steel water contact tubes
- Durable polypropylene, self-closing taps
- Easy-to-clean, removable drip tray
- 12-month standard warranty and additional 24-month refrigeration system coverage
- Full range of replacement parts

The Odyssey Series is a free-standing unit available in ambient and cold configurations. The series has a 2.5L tank and is an excellent choice for any application, dispensing 2.5L/H of cold water.

The cooler is created from high-quality materials including food-grade and stainless-steel water contact tubes. The durable plastic, coupled with steel side panels for strength, making this unit perfect for home and small office use.

The Odyssey Series is covered with a 12-month standard warranty and additional 24-month refrigeration system coverage. A full range of replacement parts is available to keep the unit in operation for longer.

Harmony Series

Bottled water coolers

Aqua Cooler's Harmony range offers unrivalled value in bottled, hot and cold drinking water dispensers.

KEY FEATURES

- 2.0L/h cold water chilling capacity
- 5.0L/h hot water heating capacity
- Durable polypropylene, colour-coded, self-closing taps, with child-proof mechanism on hot tap (on HBHC model)
- Food-grade, stainless-steel water tank and dispensing tubes
- Easy-to-clean, removable drip tray
- 12 months standard warranty and 36 months refrigeration circuit warranty.

Discover a modern touch with the Harmony Series Water Cooler, featuring a simple yet stylish rounded plastic enclosure. Its quietly efficient compressor makes it an excellent fit for home or small office settings.

Crafted with care from quality materials, Harmony Series Coolers include a food-grade stainless-steel water tank and dispensing tubes, ensuring durability for years to come.

Designed for easy use with 12L or 15L pre-filled spring water bottles, the Harmony Bottled Water Cooler provides a reliable solution. With a cold water capacity of 2L/h and hot water capacity of 5L/h, it ensures a steady supply of fresh water for your everyday needs.

AC-HBCC

Maximus Series

Mains-Connected Water Coolers

The largest capacity commercially suitable water cooler in Australia, the Maximus Plumbed-In Water Cooler is ideal for use in high-demand areas.

KEY FEATURES

- 6.5L/h cold water chilling capacity
- Massive 14L cold water tank storage to manage peak demand
- Durable self-closing taps
- Easy-to-clean, removable drip tray
- Heavy-duty powder-coated steel side panels and corner pieces
- 12 months standard warranty and 36 months refrigeration circuit warranty.
- Australian Watermark Certification (Lic No. WMK26317)

There is no other water cooler like Maximus, making it the best choice for offices, workshops, warehouses and more.

Enjoy perfectly chilled water, on demand with the unprecedented 14L cold tank with a 6.5L chilling capacity per hour. Convenient mains connection via ¼" push fit female fitting and includes connection kit to connect to a ½" tap. Internal self-filling mechanism keeps the water tank topped up automatically.

This free-standing unit serves both ambient and cold water, with self-closing taps. An optional external filter kit is also available to be added. Maximus is the largest capacity commercial water cooler range available on the Australian market. No other cooler in its class offers the same level of performance making Maximus the ideal choice for high-demand areas such as offices and workshops.

FILTERS & ACCESSORIES

Aqua Cooler offers an assortment of water cooler accessories, from a variety of filters and replacement filters, to refillable bottles and more.

Parts & accessories

2-Micron Water Filter

The Aqua Cooler 2-micron water filter is our most popular filter. This WaterMark approved filter reduces 99% of chlorine, taste and odour found in standard tap water.

The filter is self housed and only requires a head in order to be attached to a 1/4" tube.

The Z-8110 should be replaced every six months and has a max pressure rate of 875kPa and a max flow rate of 3.5L/M.

2-Micron Water Filter Z-8110

Filter Upgrade Kit

Take your Aqua Cooler Drinking Fountains to the next level with this Filter Upgrade Kit.

Featuring both the Z-8110 2-Micron Water Filter and Z-8115 Filter Head together in one kit and including all fittings, you've got everything needed to start drinking perfectly filtered and chilled water.

Filter Upgrade Kit FKIT

Tri-Stage Refillable Filter Bottle

Ditch the plastic and make your own fresh, filtered water with our Tri-Stage Refillable Water Cooler Bottle. Specifically designed and perfectly suited for use with our Odyssey Water Coolers, you'll never run out of water for your cooler again!

With a large 10L capacity, and replaceable 5-stage filter, this bottle will filter up to 4L/hour keeping you topped up and ready for refreshment.

Tri-Stage Refillable Filter Bottle TSFB

Get To Know Our Tri-Stage Refillable Filter Bottle

The eco-friendly Tri-Stage Filter Refillable Bottle is the revolutionary new bottle that fits all Aqua Cooler Odyssey Coolers and is designed to minimise purchasing bottled water. The bottle creates a positive impact to save money and the environment. The 10 litre bottle is perfect for home and small office use. With the use of the environmentally sustainable bottle, you will be part of a 'go green' global movement.

The long-term cost-saving benefit to home owners, renters and small office users like dentists, general practitioners and businesses, is extremely significant and can be used for years to come. Invest in the Odyssey Eco Packages to save costs, improve your carbon footprint and 'go green' in your home or workplace.

Tap water is gravity fed through a replaceable filter allowing for a constant and convenient supply of fresh filtered water.

Tri-Stage Refillable Bottle Replacement Filter (PK3)

This Tri-Stage Replacement Filter has five phases of filtration; activated carbon, mineral stone, silicon, mineral ball, and ceramic disk. These reduce sediment, removes chlorine taste and odour, produces great tasting, fresh filtered water.

Tri-Stage Filter (3PK) TSFBF3PK

Tri-Stage Refillable Bottle Replacement Ceramic Disk

Filtering most impurities from the water the Tri-Stage Ceramic Disk Replacement has strong absorption abilities and prevents any filter agents from entering the water.
