

Autosat Light

The "Pop Top" solution

The simplicity of an Autosat combined with a compact 65cm dish and a weight of only 9kg, this system is the ideal companion for your pop top caravan.

The **Autosat Light** automatically tracks the satellite and can pick up all that Vast and Foxtel have to offer at the push of a button

The **Autosat Light** is low in weight and is very compact whilst maintaining high signal quality

Size, weight and price are just three reasons why the **Autosat Light** is a "big competitor" on the market.
