Find your size :

You need to save your morphological characteristics. For that, stand up against a wall, and measure your shoulders width (A) with the help of tape measure. Make also a measure of bust size (B). You will find the size which suits corresponds to you.

Advice how to use :

Insure you that should pads recover the totality of upper body and there are tight/adjusted to insure a maximum protection. Once equipped with the shoulder pads, raised your arms in order to see if shoulder pads cover the chest and scapula.

Don't use shoulder pads if there is a crack.

Care instruction : only wash your shoulder pads with a wet rag without detergent. Then, leave them in a dry place if they are wet.
