

## TYPHOON MADE TO MEASURE DRYSUIT FORM

If you require assistance with any aspects of this form please call us on 0208 994 6006 or visit us in store:

Mike's Dive Store  
113 Power Rd  
Chiswick  
W4 5PY

### A. CHEST

The maximum horizontal girth measured around the chest under the arm pits with the subject standing upright, this is around the bust for ladies.

### B. WAIST

The girth of the natural waistline between the top of the hip bones and lower ribs measured with the subject breathing normally and standing upright with the abdomen relaxed.

### C. HIP

The horizontal girth measured around the buttocks at the level of the maximum circumference.

### D. HEIGHT

The vertical distance between the crown of the head and soles of the feet measured without shoes. Feet need to be together.

### E. INSIDE LEG

The distance between the crotch and the soles of the feet, measured in a straight line with the subject standing upright. Ensure no footwear is worn and that the feet are slightly apart.

### F. CUFF TO CUFF

Measured with the arms outstretched, across the back, from the point of the wrist bone to point of the wrist bone.

### G. SHOE SIZE

As normal shoe size.

### H. THROUGH MEASURE (HOOP)

Taken from the Adam's Apple, down the front of the body, tight under the crotch and up the neck to the nape of the back neck.

### I. THIGH

Measure around at the widest point of the thigh.

### J. CALF

Measure around at the widest point of the calf.

### K. BICEP

Measure around at the widest point of the bicep.

### L. NECK

Measure around at the widest point of the neck.

### M. FOREARM

Measure around at the widest point of the forearm.
