

Concrete Cord wrapped Monolith Minimalist Pendant Light

| | |
|-------------------------------|--|
| Description | Beautifully crafted minimalist concrete pendant light inspired by New York Loft style and Scandinavian Minimalism. This simple and understated pendant is the perfect addition to any industrial, loft or creative space. Choose between three designs of fabric cords - rope, black or zig zag. All concrete shades are hand made, the texture is naturally porous and as a result, some holes may randomly appear larger. Due to the nature of concrete, this ensures that each is a handmade, unique product. |
