

30 Test Terms

Words you need to know to answer questions properly.

Put the Test Terms on cards and the Descriptions on sentences strips; match and discuss. Once familiar, pick a card and ask the child to verbalize the description; then compare two or three Test Terms determining the differences. Gather short passages, create questions and ask the child to respond appropriately.

___ Analyze	To delve and think of something carefully and come up with an answer.
___ Answer	To write what you think is the correct answer to a question.
___ Check	1. To read the question and all the answers, then choose the correct one. 2. Once done, go back and double-check all of your answers.
___ Choose	Read the question carefully then select/pick the correct answer.
___ Compare	Tell how two items are similar.
___ Contrast	Tell how two items are different.
___ Define	Give the meaning of the word (definition).
___ Describe	Tell or write the details of something; what it is like. Write it so the reader sees in their mind what you see in yours.
___ Detail	Tell the facts about someone or something.
___ Discuss	To write or talk about something; include facts and options.
___ Evaluate	To consider the pros and cons and make a judgement.
___ Explain	To describe something to someone so they understand it.
___ Explain why	To give reasons behind why something happened.
___ Fact	Something you know is true.
___ Identify	To find out who a person is or what a thing is.
___ Infer	To come to a conclusion from the facts that are known.
___ Justify	To write how a decision or action is reasonable or necessary.
___ List	To make a list. To write or say names or things one after another.
___ List Facts	To list only the known pieces of information; not your opinion.
___ Main idea	The main point of the story (not necessarily the main thing that happened).
___ Persuade	To change someone's mind.
___ Point of View	Your opinion about something or someone.
___ Provide	To write or give the answer that is wanted or asked.
___ Retell	To give details about a story or event.
___ Sequence	To tell something in the order that they happened.
___ Solve	To find an answer to a problem or a question.
___ Summarize	To tell the most important points about something.
___ Support	To build a case (give details) so the reader is persuaded to your side.
___ Synthesize	To pull all the points of information together; to make sense of it.
___ Tell Opinion	To tell what you think or feel about something; does not always contain facts.
