About Us: Polka Luka is a boutique Australian design label. Taking design cues from fields as diverse as modernist art and architecture to travels across Asia, Polka Luka celebrates simple form and colour and imbues a distinctly Australian style- spirited, bold, uncomplicated and vibrant.

Designer: Polka Luka designer, Alexandra Freeman, has a background in fine arts and cultural conservation. Over 14 years of travel and residence across east and South East Asia inspire the design & production of each polka luka piece. Alexandra's travels have also illustrated the value of equitable and sensitively managed trade in improving people's livelihoods, and the ability of small businesses to positively effect change in people's lives.

The Polka Luka team is made up of a small yet diverse team spanning across Australia and Bali. Our products are designed in Australia and then produced in small runs in collaboration with our two cottage workshops in Bali. This collaborative, boutique approach allows us to have direct input into creating equitable, safe and beneficial work environments. We see first hand the benefits this employment have brought to the individuals and their families; we are proud of the relationships we have built, the team we have created, and the lives we have changed.
