Rate your dog's itch tracker

Your dog's name

 Rate your dog's itch every day.
Day 1 is when you start giving your dog a healthy source of Omega 3s.

Extremely severe: dog is scratching, chewing, licking, almost continuously, it never stops.

Severe: prolonged episodes of scratching, and licking, mostly happen at night and also when eating, playing, or exercising.

Moderate: regular episodes of scratching while awake but no scratching occurs when eating, playing, exercising, or being distracted.

Mild: moderately frequent episodes of scratching and/or other symptoms. Occasional episodes at night.

Very Mild: occasional episodes of scratching during the day or at night.

Normal: woo hoo! My dog is not itchy.
