FARGO

Fargo is our original drop bar mountain bike. A bit of a cult classic, it's designed for mixed surface riders and bikepackers who want the versatility to take any route and the capability to carry everything needed when they're out for days on end.

“

IT IS A FUN MACHINE. IT IS A TICKET TO PLACES AND EXPERIENCES THAT MAYBE OTHER BIKES COULD MANAGE, BUT THE FARGO IS MADE FOR. IT DOES LOADS, IT DOES ROADS, IT DOES DIRT, SAND, AND GRAVEL. IT CAN CHANGE DIRECTION IN A CATLIKE MANNER, YET IT CAN RIDE LIKE A MAGIC CARPET WITH A LOAD ON.”

VAYA

Vaya is designed to handle any road surface, from pavement to gravel to dirt. Whether you're on a fast tour or just taking your time, this all-road adventure and light touring bike is a versatile machine that feels great lightly loaded or unloaded.

“

POPULAR WITH TOURERS AND COMMUTERS AS WELL AS 'ANY-ROAD' DISCIPLES, SALSA'S ADVENTURE CREDENTIALS ARE CLEARLY EVIDENT IN THIS BIKE.”

**STORMCHASER**

The Stormchaser single speed frameset is designed from the ground-up to take on gravel rides in inclement weather. The lightweight aluminum frame features gravel race geometry similar to Warbird; Class 5™ VRS to absorb road impacts; our all-new sliding Alternator Flat Mount dropouts make single speeding simple, and the included geared dropout plate adds 1x drivetrain compatibility; and extra tire clearance for managing mud. The carbon fiber fork is also prepared for anything—abrasion plates prevent wear from mud-caked tires, Three-Pack mounts add extra storage for water or gear, and internal routing keeps your brake hose and dynamo cable out of the elements. The Stormchaser single speed gravel frameset is a stellar starting point for a bike that performs rain or shine

FRAME-SETS 2023**

**HITCHHIKER**

From smooth roads to single tracks, gravel paths to cityscapes and beyond, the BLB Hitchhiker (Satin Ti Grey) is designed to take you on that next adventure. Built from Columbus Cromor tubing and based on touring geometry with all the right clearances, the Hitchhiker delivers a durable and well balanced ride.

Coming equipped with fender mounts that allow up to 40c tyres and rack/pannier mounts, you can gear up for the everyday commute or a full scale escape into the wilderness.

Excellent stopping power is provided no matter the conditions through the capability of running up to 160mm disc rotors whilst the external cable routing offers ease of maintenance. If single-speed is your preference, then the long style road dropouts make this possible.

**SPECIFICATIONS**

- Columbus Cromor tubing
  - 1 1/8" threadless fork
    - 52mm rake
  - British bottom bracket
    - 100/135mm spacing
  - clears up to 700x42, 650bx47
- fits up to 160mm disc brake rotors
  - for 27.2mm seat post
- for non-integrated headset (not supplied)
  - removable canti-brake studs
  - fender/rack mounts

BICYCLE COMPANY

**QUIVER X**

Meet the next generation of adventure, the Quiver X. A true all-road bicycle designed to be your next gravel, touring, road or commuter rig. Many cyclists use the term "quiver" when referring to how many bikes they have in their collection. The Quiver X was created to become your one bike quiver offering wide tire clearance, ample fender/rack mounts, a durable steel frame and carbon fork.

Built around our reliable 4130 double butted chromoly steel frame and popular Sparta Carbon fork, the Quiver is equipped to handle the toughest roads, paths or gravel you can throw at it! The Quiver has been updated to a more Endurance road geometry making this bike ideally suited to handle a week of bike packing, touring or even your daily commute. The 440mm length chainstays offer quick handling yet a compliant and comfortable ride.

Equipped with 12mm thru axles front and rear, flat mount disc brakes and tire clearance for 650+ or 700x42c you can be sure to maintain control where ever your ride may take you. Featuring full rack and fender mounts that include bottle cage spaced mounts on the carbon fork this bike is ready for anything. Each frame is ED coated which is an automotive level frame protection which means this frame will last a lifetime. The 1x11 SRAM Rival drivetrain is the icing on the cake and gives this bike a great gear range that can handle almost anything you throw at it shifting smoothly along the way.

**DISC TRUCKER**

Disc Trucker enjoys the same reputation as Long Haul Trucker: It's one of the best-riding and most value-packed drop bar touring bikes out there. Sometimes, however, a combination of load, climate, and terrain demands a bit more braking performance than a standard rim-brake LHT can provide.

That's where the newly redesigned Disc Trucker comes in. Packing reliable stopping power and a horde of useful mounting points, shortened chainstays up the Disc Trucker's stiffness and maneuverability around corners. Add in improved fit and handling under load, plus captured thru-axles for tool-free removal and installation, and the Disc Trucker is ready to help you meet — or dodge — your daily obligations.

**The Disc Trucker is a pure-bred drop bar touring bike suitable for traveling anywhere in the world on mostly paved roads.**

**GRAPPLER**

**A Trail Bike Tailored for Drop Bars**

Off-road enthusiasts have been Frankensteining drop bars onto trail bikes for decades, so we designed the Grappler to scratch that itch with a little more precision. Engineered first and foremost around a stable and comfortable drop-bar hand position, its trail-ready geo provides a spirited ride on mixed terrain.

Cleared for girthy tires and decorated with an array of mounts for hauling your daily provisions and overnight gear, the Grappler is ready to take you and your paraphernalia down that overgrown fire road for an extrasensory experience. There's nothing to be afraid of. Probably.

**Grappler is a drop-bar trail bike built for single-track sessions, all-day dirt rides, and bikepacking excursions.**

**STRAGGLER**

Straggler is tuned for cross-over exploration on a wide variety of terrain conditions. It's a day-tripper and a weekender. It's a 'rough road' road bike, a cyclocross bike with no pretense about racing, a utilitarian townie, a light-duty touring bike and an all-weather commuter. It's a steel gravel bicycle that thrives on the road. Think of it as a "mountain biker's road bike." If you only have room for one bike in your life, Straggler can (and should) be your one and only.

Straggler's capabilities go well beyond asphalt. It also lends itself well to light touring setups. We're talking frame bags, seat bags, and "credit card touring" rather than full-blown touring. Straggler also handles our 8- and 24-Pack Racks well, so you have some heavier-duty loading options.

Available in 650b and 700c wheel diameters

Accommodations for racks and fenders

Forward-exiting horizontal dropouts for singlespeed compatibility and wheelbase adjustability

Clearance for 650b x 41mm or 700c x 41mm tires with fenders!

**Straggler is a bikepacking-inspired road/gravel bike mostly at home on pavement but ready for trail duty when called.**

**COSMIC STALLION**

**PERFORMANCE GRAVEL ALL-STAR**

**The ultimate gravel bike for chasing PRs and podiums on race day, and all the training rides that get you there.**

**LIVELY, SPIRITED, STABLE**

Perfectly capable of flying fast down the tarmac, the Cosmic Stallion really shines when things get rough. Quick, efficient, and designed for gravel riding and racing, we're yet to find a bike that does a better job at soaking up road chatter and jealous stares.

**WHISKY NO.9 CX DISC 12 TAPERED FORK**

Lightweight with generous tire clearance and precise handling capabilities, Whisky's gorgeous carbon fork accommodates 12mm thru-axles and flat-mount disc brakes.

Built with versatility in mind, it accommodates tire sizes 700 x 42mm or 650b x 47mm (both with or without fenders).

**PERFORMANCE GRAVEL ALL-STAR**

**The ultimate gravel bike for chasing PRs and podiums on race day, and all the training rides that get you there.**

**SUPERIOR QUALITY AND ELEGANCE**

Drawing on everything we've learned from producing A.C.E. steel, Oberon Titanium is our proprietary blend of 3/2.5 titanium tubes -- and 3/4 lb. lighter than an A.C.E. steel frame. Named for the immortal king of the fairies in medieval literature, Oberon Ti promises premium ride quality, irresistible fun, and forever durability.

Built with versatility in mind, it accommodates tire sizes 700c x 45mm or 650b x 42mm (both with or without fenders)

**REAR RACK AND FENDER MOUNTS**

Ready to run mudguards with the ability to mount a bag to two in the back to keep you comfy on those long rides.

**WHISKY NO.9 CX DISC 12 TAPERED FORK**

Lightweight with generous tire clearance and precise handling capabilities, Whisky's gorgeous carbon fork accommodates 12mm thru-axles and flat-mount disc brakes.

**NATURE CROSS SINGLE SPEED**

**SINGLE-SPEED CYCLOCROSS SLAYER**

**Built from our proprietary A.C.E. steel tubing, the Nature Cross Single Speed is lighter, faster, and stiffer than any other single-speed steel steed out there. For speed and agility from start to finish, look no further.**

**THE EXTRA GEARS GOTTA COME FROM YOU**

Hungry for all the mud, sand, and chewed-up grass the cross course can dish up, the Nature Cross Single Speed is ready to tear through tight turns and quick up-and-downs as you push the limits of your body and your bike all the way to the finish line.

**A.C.E. TUBING**

Painstakingly crafted from our proprietary heat-treated, air-hardened, and custom-extruded A.C.E. steel tubing, there's nothing else like it on Earth.

**OVALIZED TOP TUBE**

Quickly and comfortably shoulder your bike while you power past any obstacle thanks to the ovalized top tube.

**TIRE CLEARANCE**

Boasting clearance for 700c x 42mm tires for bomb-proof durability and performance.

**ADVENTURE-GRAVEL-TOURING-ROAD  
FRAME-SETS 2023**

**A VERSATILE LIGHT-TOURING RIG**

The agile and stable Space Horse is our most versatile and popular model, and it's ready to take you and your gear wherever adventure leads — from road riding to randonneuring to full-fledged touring.

**CLASSIC STYLE THAT'S DOWN TO PARTY**

Capable of tackling ambitious centuries, speedy gravel jaunts, urban commutes, and loaded touring, the nimble and dependable Space Horse offers unmatched elegance, comfort, inspiration, and fun.

**SIZING FOR SMALL & TALL**

Available in seven frame sizes and carefully paired with one of three different forks, the Space Horse capably and comfortably accommodates our smallest to tallest riders for long days in the saddle. These considerations eliminate toe overlap and ensure smooth handling, offering a consistent ride from top to bottom.

**SIGNATURE DETAILS**

**Our mission is to bring beauty back to production bicycles. This means investing in custom touches that elevate the whole. We devote time and resources to signature details that turn heads and signify high-quality craftsmanship. These elements tell a cohesive visual story and form a distinct silhouette so that even if your unique bike were stripped down to bare metal, it would still be instantly identifiable as an All-City bicycle.**
