CINELLI TUTTO PLUS COMPLETE BIKE

Tutto Plus is your do-everything high-performance urbantrack frame: it can quickly morph from messenger work bike complete with front rack to crit race bike to single-speed cross machine to indestructible commuter.

Obviously made with Columbus Cromor steel tubes.

Tutto has been constructed to be able to accept a rear derailleur and a modern road race wheel. A segmented TIG welded fork which improves rigidity as well as the overall aggressive street-ready aesthetic of the bike.

STATE BIKE CO - 4130 THE MATTE BLACK

Description

The 4130 Steel Line earned its namesake from the double-butted 4130-grade chromoly steel used on the frame and fork that maximizes strength without making compromises on weight. Internal cable routing, seat stay rack mounts, water bottle cage mounts, a flip-flop hub, and integrated chain tensioners provide versatility while maintaining the clean aesthetic State Bicycle Co. is known for. Drilled high-flange hubs, an open faceplate stem, and the CNC'd seat post clamp not only look great but also help to shave some additional weight.

WEIGHT: 9.89 kg

STATE BIKE CO - PIGEON CORE-LINE

Our Core-Line fixed gear and single speed bicycles are what we're best known for. Built on a durable steel frame with seat stay rack mounts, eyelet mounts on the fork and cable stops, the Core Line models are as stylish as they are versatile. Quality components, a flip-flop hub that will allow you to ride fixed gear or freewheel and Cult x Vans 'waffle pattern' grips will keep you comfortable and riding hassle-free for years to come.

If you want a fun and well-built bicycle but aren't yet looking for something "race-ready", the Core-Line series is for you.

BLB LAPIOVRA POLISHED SILVER

Following its cult status of the original La Piovra, we redeveloped BLB La Piovra ATK frameset for the 2018/19 season – making it stiffer, lighter and through adding a tapered headtube (and carbon fork) made it corner more quickly and with significantly more stability.

Made from 6061 alloy, with a 35.6 tear shaped down tube and hydroformed seat tube, this is a stiff, super-fast frame. The BLB La Piovra ATK Fixie & Single Speed (polished silver) is twinned with a tapered head tube and full carbon tapered fork. The bike holds the road brilliantly.
