Model Giga · Design by Jens Juul Eilersen

English:

Can you sit in a sofa without a back? And can you reconstruct your sofa every day? Yes, because a Giga sofa is made accordingly to a formula, and the result is a super-flexible playland.

Naturally, you must be able to lean back safely and comfortably in your sofa. You can do that in your Giga too, and the secret is cunning mathematics combined with a unique plastic material. It all begins by exploiting body weight and the force of gravity. The relative proportions of the base area and the height of the loose elements are carefully calculated so that the weight of the body presses the loose back ideally down towards the seat. At the same time the elements are covered with a special type of plastic that sticks to the base layer, so the back stands absolutely firm.

The movable backs are moulded in foam and at the same time angled to curve around you and provide extra support. The Giga body is a thin, warm seat measuring 115 x 210 cm or 130 x 210 cm. Made of course in our well known down top quality, with a loose, casually fitting cover to give the play area a relaxed look. All covers can be taken off and cleaned.

Solid-wood frame, covered with a highly elastic polyurethane foam with a wrap of 100% down and small duck feather sewn into a ribbed, feather proof cambric casing. Seat base with Nozag springs.

Backsupport consists of a polyurethane foam with a wrap of 250 gr. pre compressed fibre fill

Cushion filling is 100% down and small duck feathers sewn into a ribbed, feather proof cambric casing.

To retain the feather cushion's appearance and shape, regular fluffing-up and airing are recommended.

Giga is available with fabric or leather upholstery.

As for fabric upholstery: Standard delivery has fixed-frame upholstery, and alternatively it is available with removable cover on the frame with a calico cover underneath.

As for leather upholstery: Standard delivery has fixed-frame upholstery without a calico cover underneath.

All cushion covers have zip-closing.

The model is supplied with legs of brushed stainless steel, size 15,5 x Ø2,8 cm. Alternative black lacquered (RAL 9004, mat) or white lacquered (RAL 9002, mat) legs in stainless steel.

The factory provides a 5 year guarantee, to cover frame, springs and cushion filling. No guarantee is provided for fabric and leather upholstery. Please see special information on selection of fabric and leather on www.eilersen.eu.

All overall dimensions correspond to frame sizes.

Dansk:

Kan man sidde i en sofa uden ryg? Og kan man bygge sin sofa om hver dag? Ja, for Giga er sofa sat på formel, og resultatet er et ultra fleksibelt legeland.

Naturligvis skal du kunne læne dig trygt og behageligt tilbage i din sofa. Det kan du også i Giga, og hemmeligheden er et stykke snedig matematik kombineret med et unikt plastmateriale. Det hele tager udgangspunkt i at udnytte kropsvægten og tyngdekraften. Størrelsesforholdet mellem grundfladen og højden på de løse rygelementer er nemlig regnet ud, så kroppens vægt trykker den løse ryg perfekt ned mod sædet. Samtidig er elementerne belagt med en særlig type plast, der klæber til underlaget, så ryggen står fuldstændig fast.

De flytbare rygge er støbt i skum og er samtidig vinklet, så de krummer sig om dig og giver ekstra støtte. Gigas krop er et tyndt, vamsset sæde på 115 x 210 cm eller 130 x 210 cm. Naturligvis produceret i vores velkendte duntop, og betrækket er monteret løst og skødesløst for at give legepladsen et afslappet udtryk. Alt betræk kan tages af og renses.

Stel i massivtræ polstret med højelastisk polyurethanskum indsvøbt i et kanalopdelt vår af duntæt cambric fyldt med 100% dun og andesmåfjer. Sædeaffjedring er Nozag-fjedre.

Rygstøtten består af polyurethanskumkerne med et svøb af 250 g forkomprimeret fiberfill.

Fyldet i puder er 100% dun og andesmåfjer, indsyet i et kanalopdelt vår af duntæt cambric.

For at bibeholde dunpudens form og fylde bør den jævnligt bankes op og lufttørres.

Giga fås betrukket med stof eller læder.

Ved stofbetræk: Modellen leveres standard med fastmonteret betræk på stel, alternativt fås den med aftageligt betræk på stel, med et underbetræk af stout.

Ved læderbetræk: Modellen leveres med fastmonteret betræk på stel med et underbetræk af stout.

Alle pudebetræk er forsynet med lynlås.

Modellen leveres med 15,5 x Ø2,8 cm ben i børstet rustfrit stål. Alternativt sortlakerede ben (RAL 9004, mat) eller hvidlakerede ben (RAL 9002, mat) i rustfrit stål.

Der ydes 5 års fabriksgaranti mod fabrikationsfejl på stel, fjedre og polstring. Der ydes ikke garanti på stof og læder, men der henvises til www.eilersen.eu for særlig vejledning for valg af stof og læder.

Alle angivne mål er stelmål.
