## EISENKERN STORMTROOPERS

**\* NOTE**  
This kit contains enough rifles and arms to equip your entire twenty man squad with rifles.

You also have the option of equipping your squad with anti-tank weapons, submachine guns or grenadier support weapons. Please be aware that you must choose what weapon options you would like in your final squad, as there are not enough arms to complete all twenty rifles and all other optional weapons. The back of the box displays all thirty two weapon choices available for this box set
