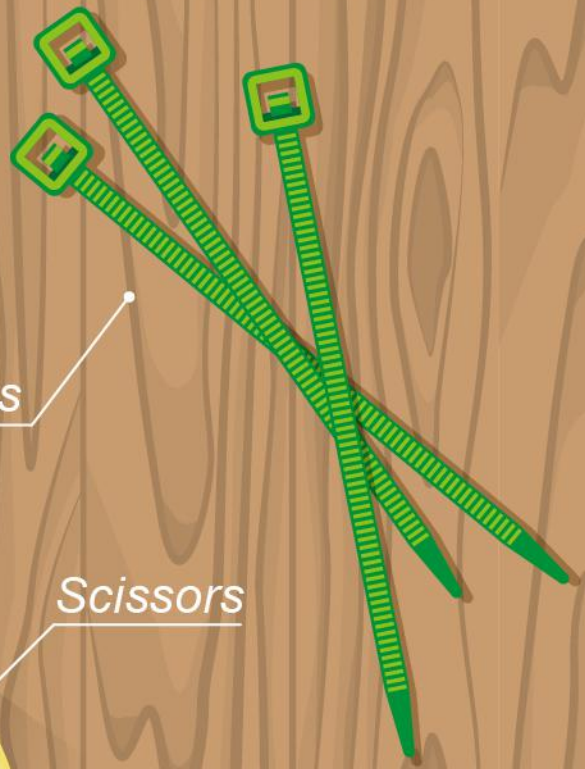
Green life,
Solution

Fence installation

with zip ties
(Applicable for both iron fence
or wooden fence)

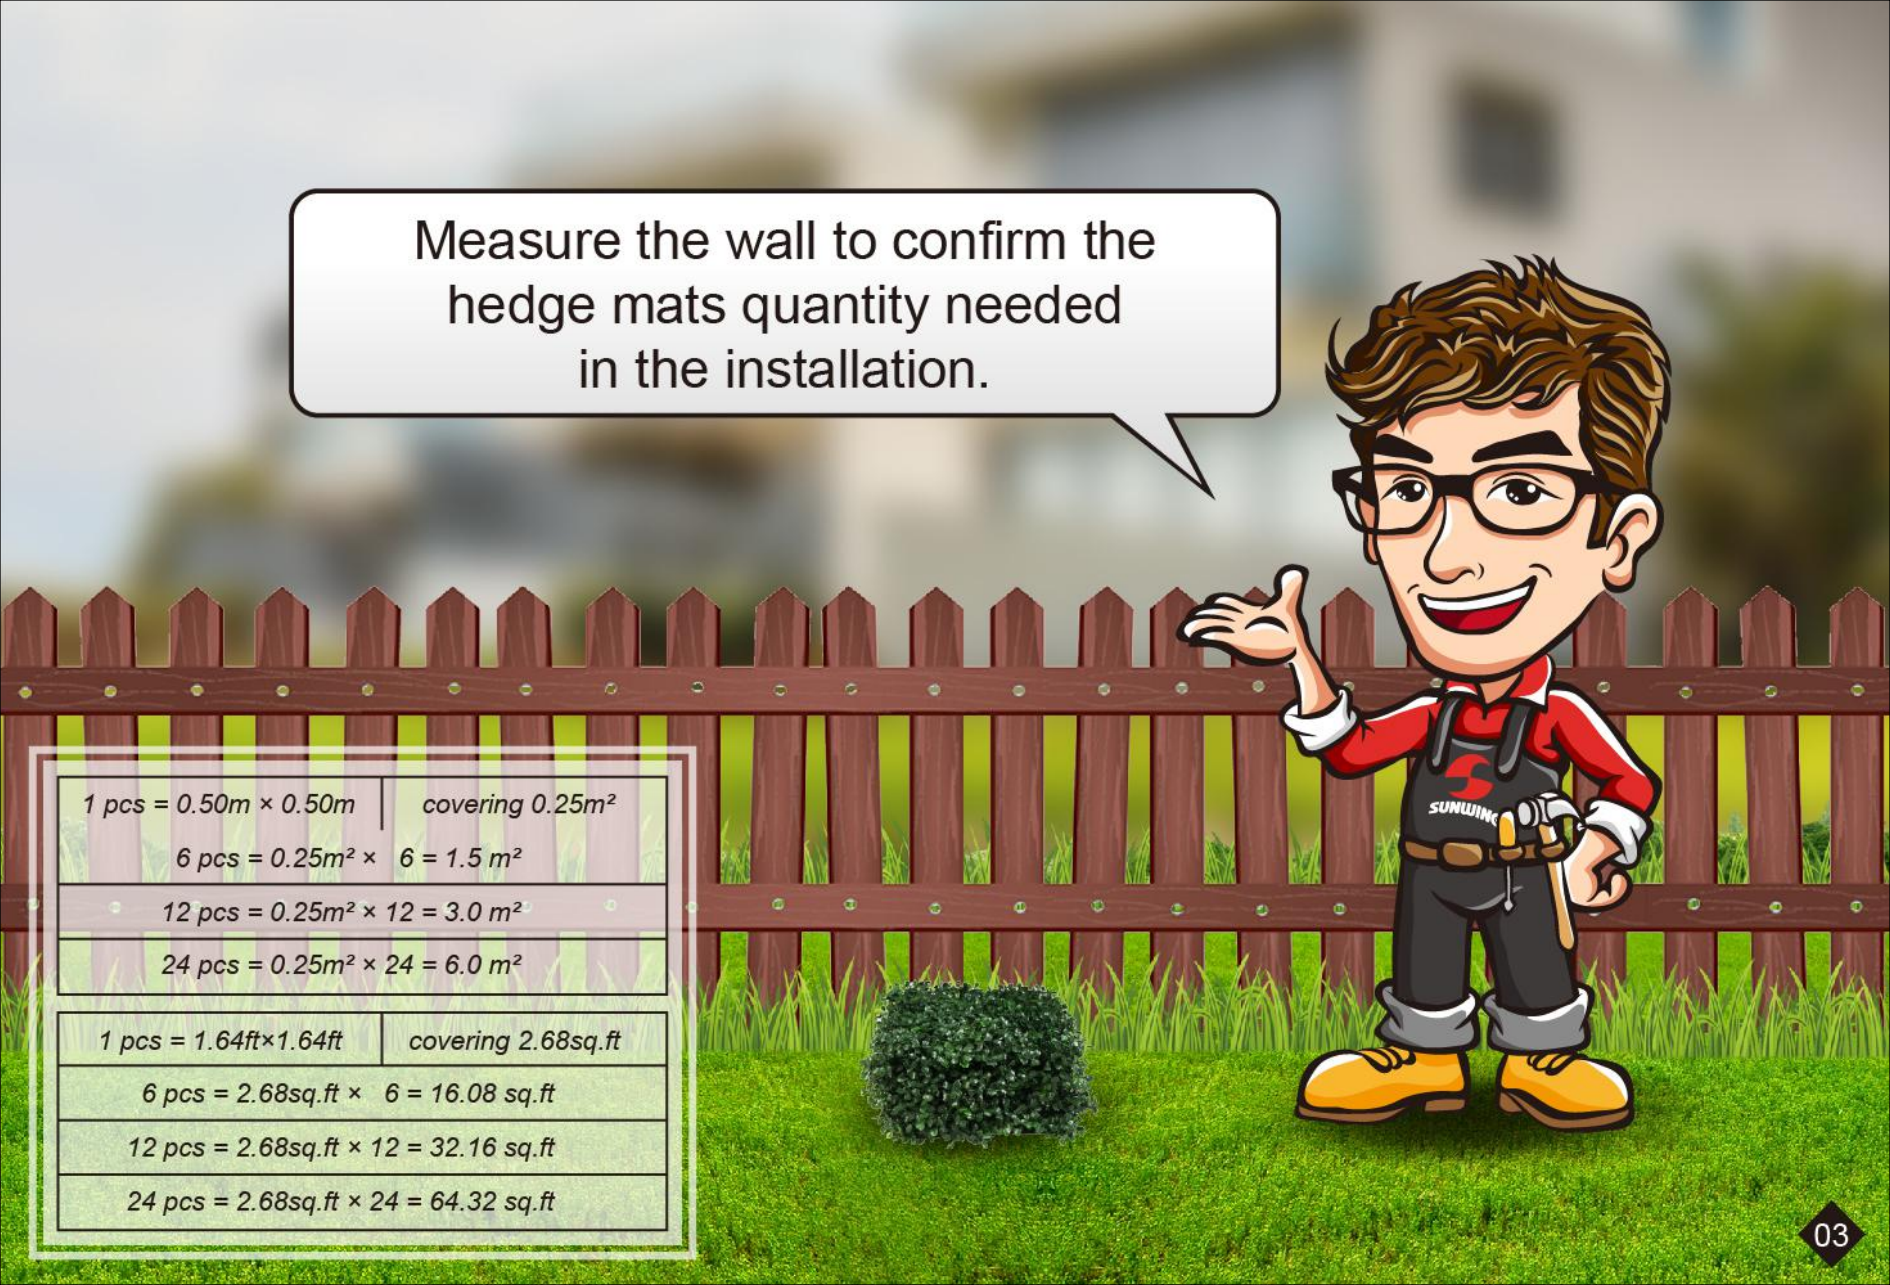
TOOLS NEEDED

Long tape



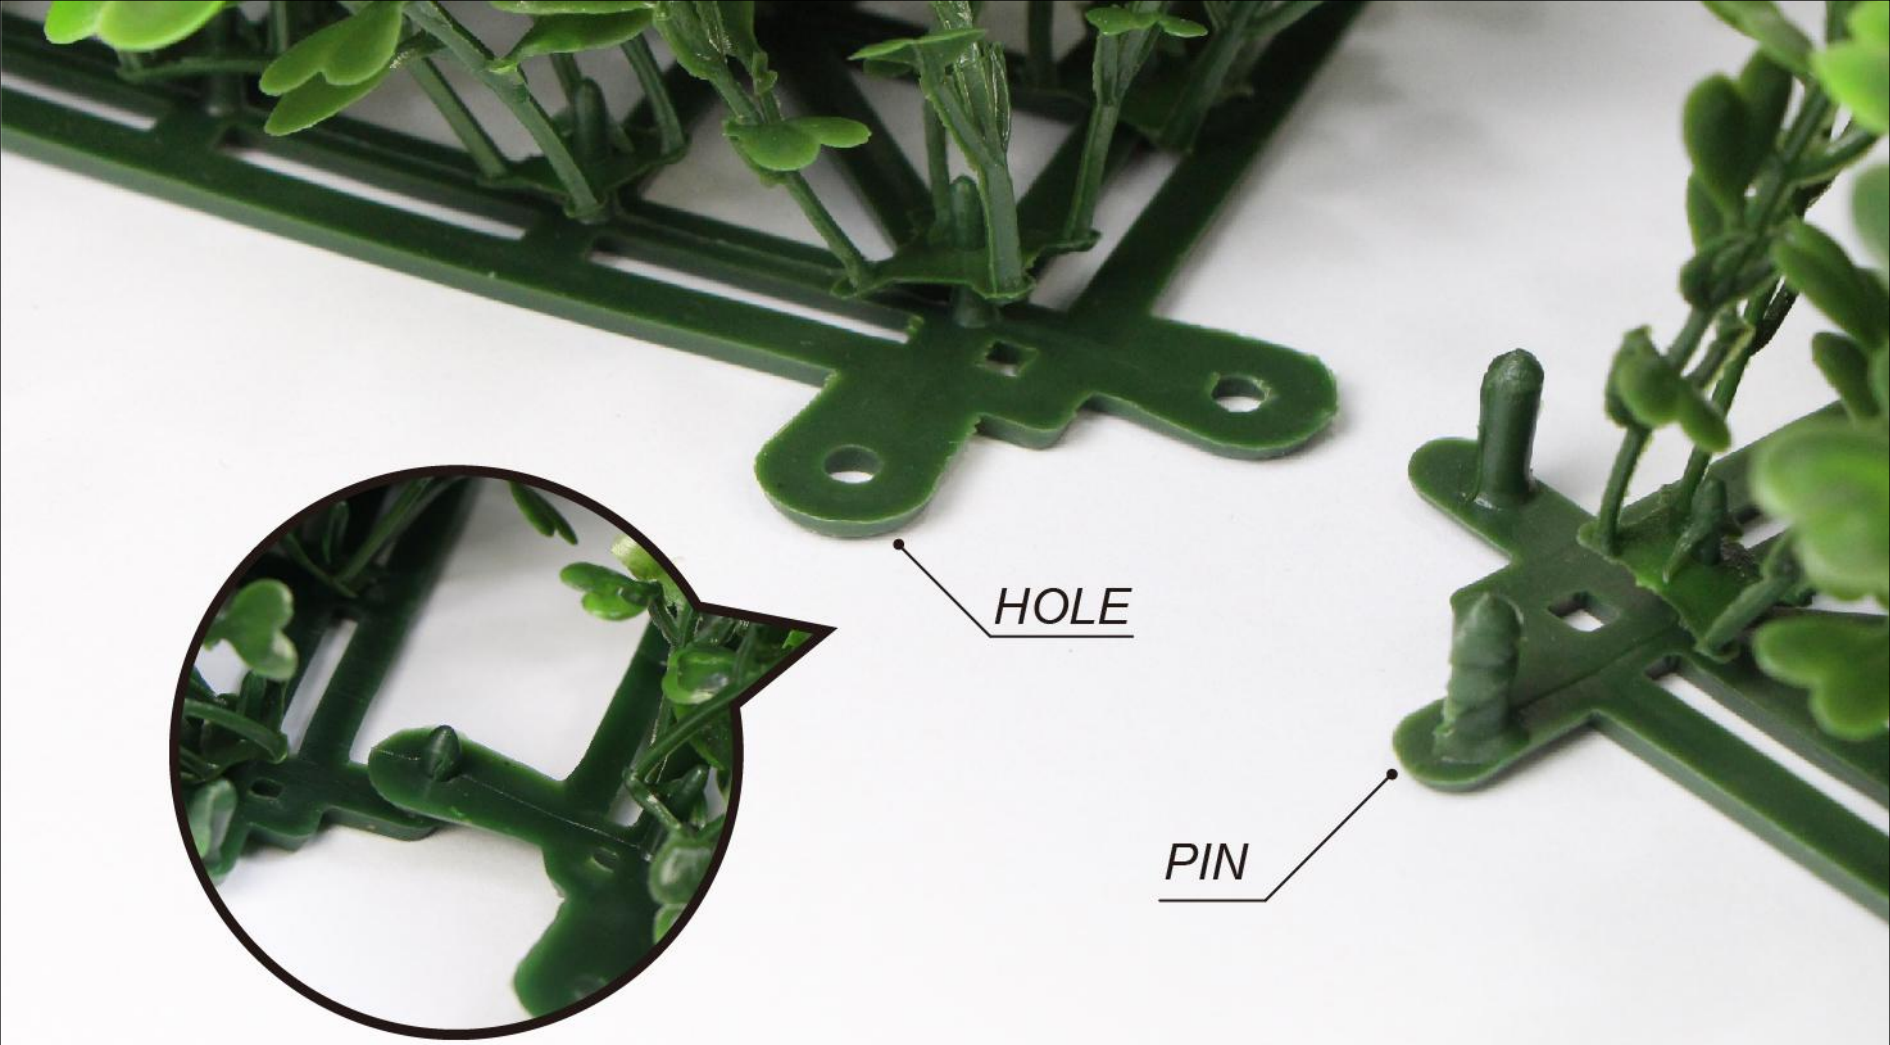
Zip Ties

Scissors



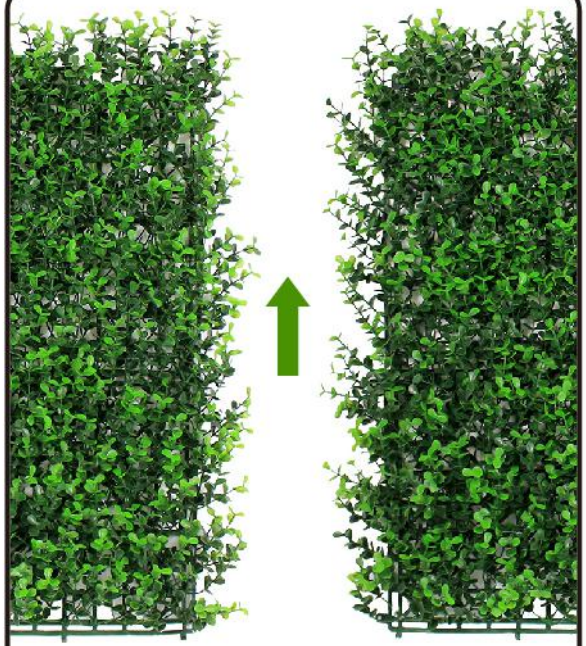
1 pcs = 0.50m × 0.50m	covering 0.25m²
6 pcs = 0.25m² × 6 = 1.5 m²	
12 pcs = 0.25m² × 12 = 3.0 m²	
24 pcs = 0.25m² × 24 = 6.0 m²	

1 pcs = 1.64ft×1.64ft	covering 2.68sq.ft
6 pcs = 2.68sq.ft × 6 = 16.08 sq.ft	
12 pcs = 2.68sq.ft × 12 = 32.16 sq.ft	
24 pcs = 2.68sq.ft × 24 = 64.32 sq.ft	



Snap&lock the hedge mats for easy installation.

Fix them together as your required size.



For other models, please pay attention to the splicing direction. Place all the leaves upwards and then splice.

Fix the aligned hedge mats on the fence with zip ties.

Trim the extra zip ties to finish the installation.

You can cut the extra hedges with scissors to make the hedeges fit your wall or fence better.

Project Installation

with pneumatic steel nail gun

(suitable for wooden and cement walls)

TOOLS NEEDED

Pen

pneumatic nail gun

Goggles

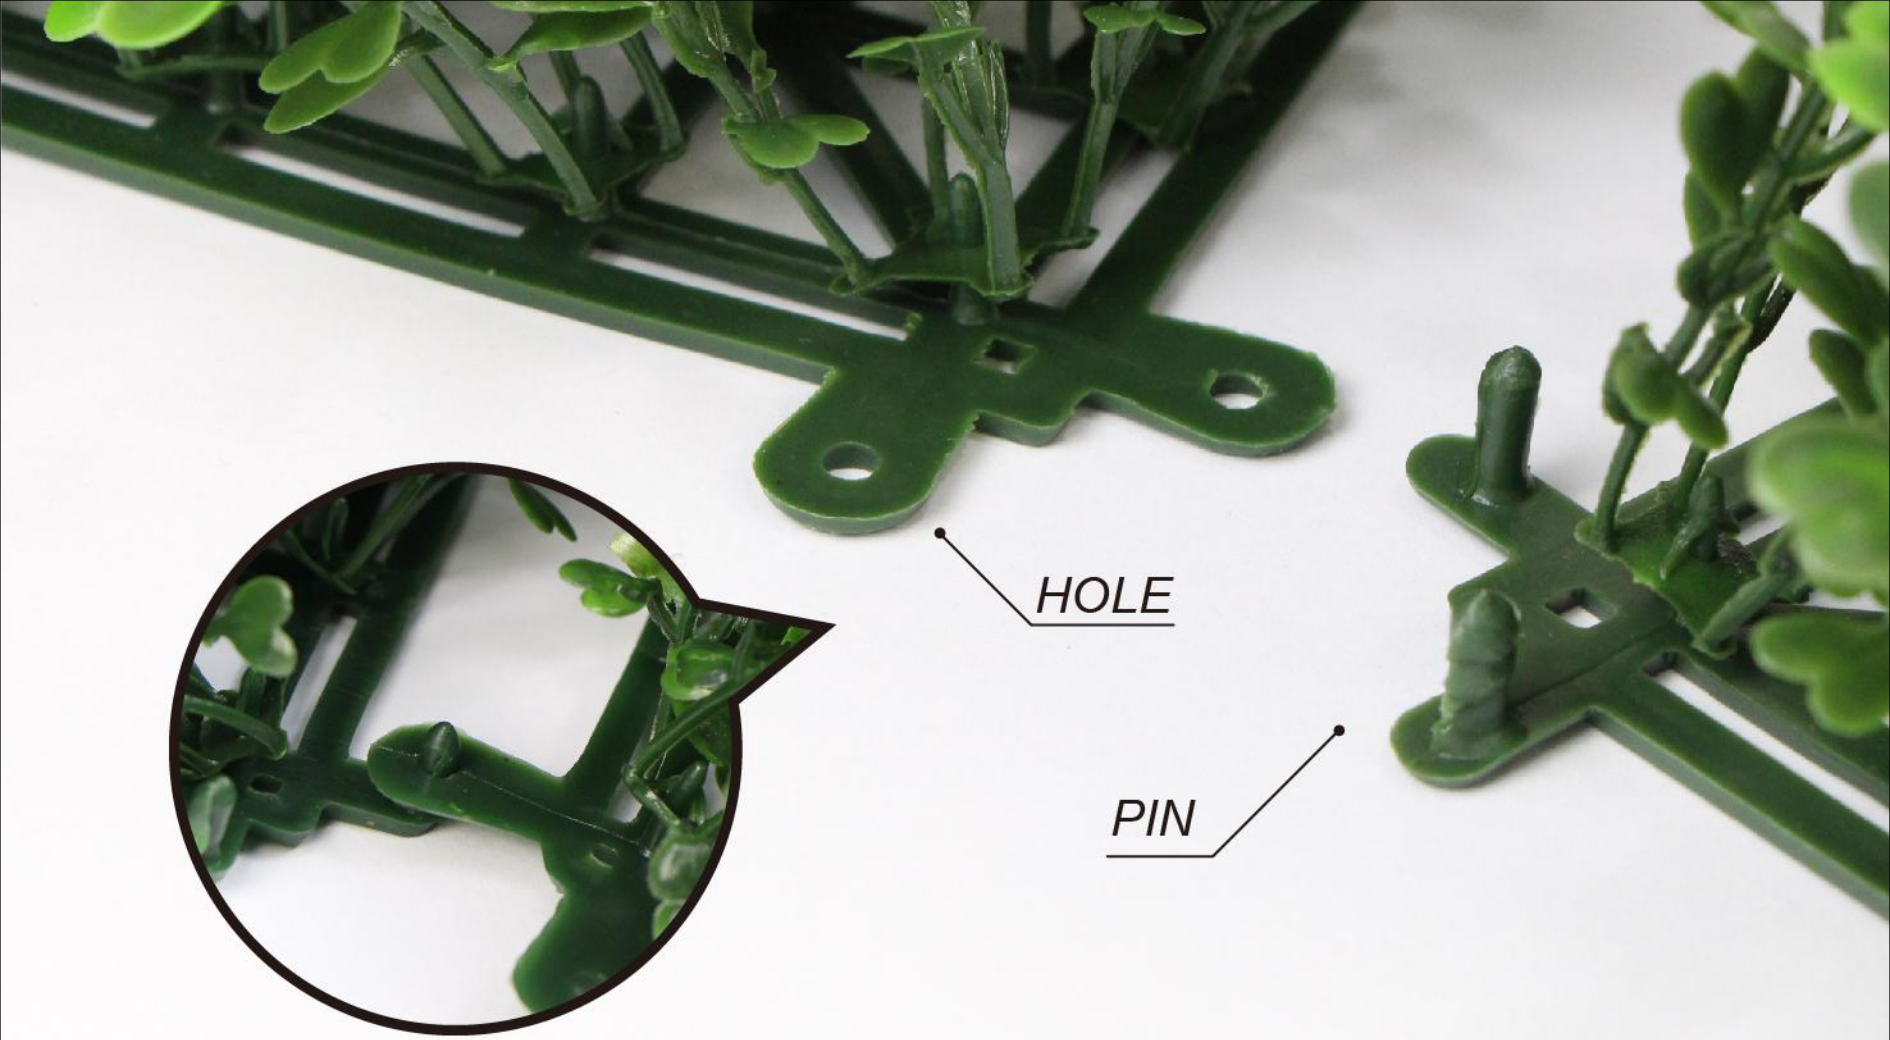
Long tape

Scissors

Measure the wall to confirm the hedge mats quantity needed in the installation.

1 pcs = 0.50m × 0.50m	*covering 0.25m²*
6 pcs = 0.25m² × 6 = 1.5 m²	
12 pcs = 0.25m² × 12 = 3.0 m²	
24 pcs = 0.25m² × 24 = 6.0 m²	

1 pcs = 1.64ft×1.64ft	*covering 2.68sq.ft*
6 pcs = 2.68sq.ft × 6 = 16.08 sq.ft	
12 pcs = 2.68sq.ft × 12 = 32.16 sq.ft	
24 pcs = 2.68sq.ft × 24 = 64.32 sq.ft	



Snap&lock the hedge mats for easy installation.

Fix them together as your required size.

Hedge Installation On Concrete Walls

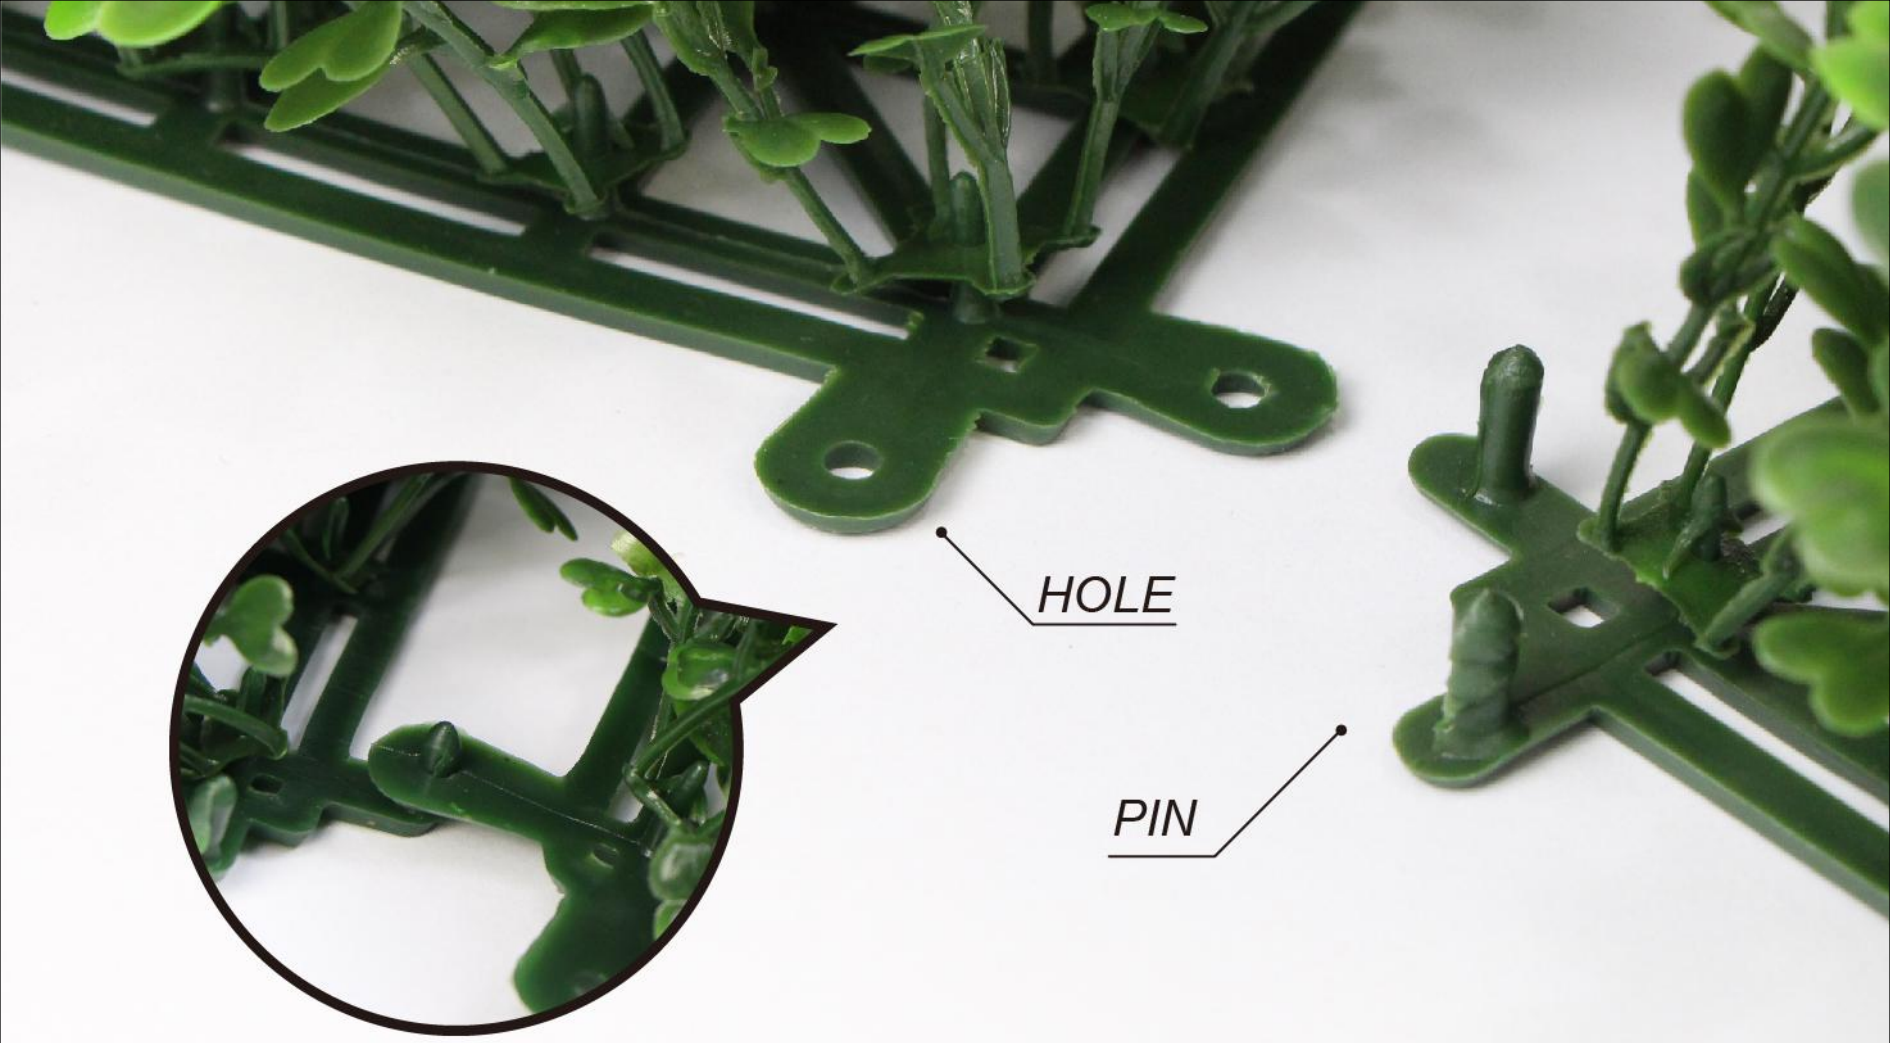
with screws&expansion bolts

TOOLS NEEDED

Measure the wall to
confirm the hedge mats quantity
needed in the installation.

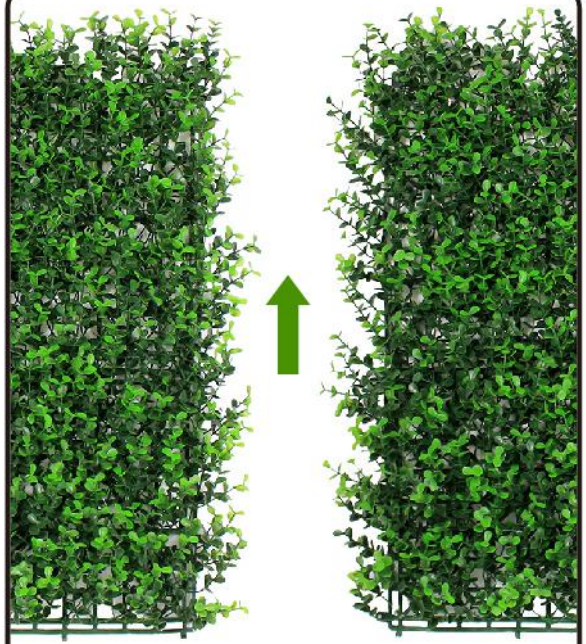
1 pcs = 0.50m × 0.50m	covering 0.25m²
6 pcs = 0.25m² × 6 = 1.5 m²	
12 pcs = 0.25m² × 12 = 3.0 m²	
24 pcs = 0.25m² × 24 = 6.0 m²	

1 pcs = 1.64ft×1.64ft	covering 2.68sq.ft
6 pcs = 2.68sq.ft × 6 = 16.08 sq.ft	
12 pcs = 2.68sq.ft × 12 = 32.16 sq.ft	
24 pcs = 2.68sq.ft × 24 = 64.32 sq.ft	



Snap&lock the hedge mats for easy installation.

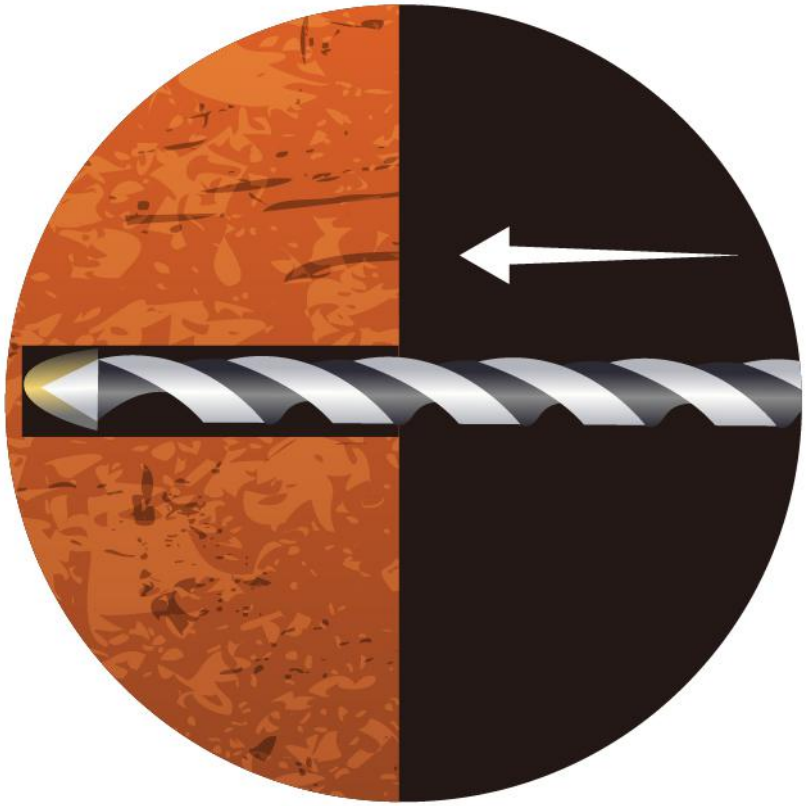
Fix them together as your required size.

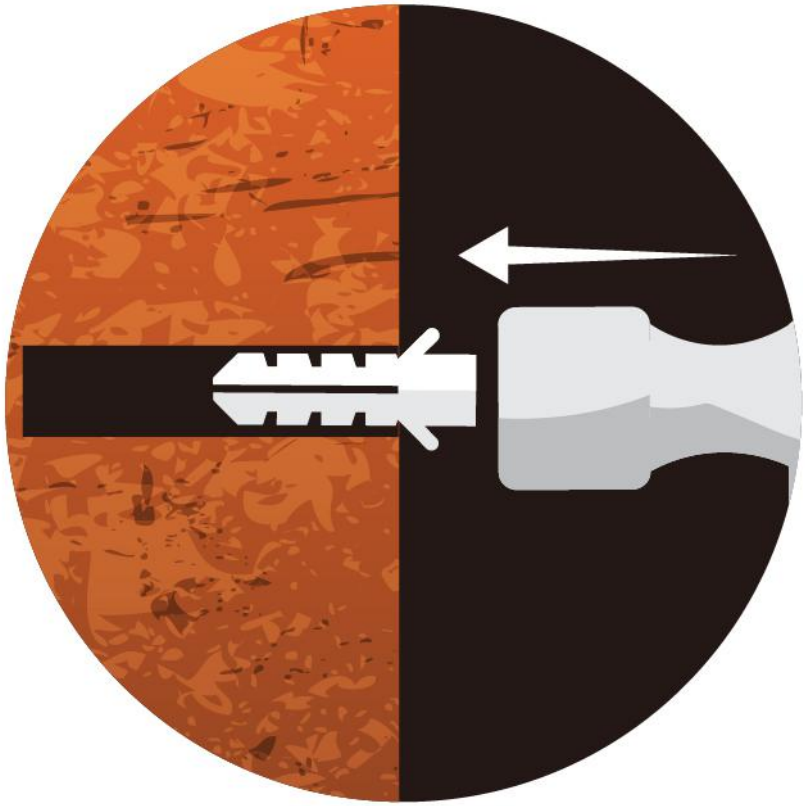


For other models, please pay attention to the splicing direction. Place all the leaves upwards and then splice.

Measure to define
the fixed point.

Suggested 40-45cm between nails.





Puch the fixed points with electric drill and
put the expansion drill in the hole.

Put the steel wire grid on the wall
and drill holes to Insert the nails
or screw anchors.

Put the hedge mats on the steel wire grid, use zip ties to fasten the hedge mats and cut the extraparts of zip ties with scissors.

You can cut the extra hedges with scissors to make the hedeges fit your wall or fence better.
