TOURING SITKA ST // LT // XT

Sitka day-touring kayaks are designed for the paddler looking for a lightweight, high performing kayak with effortless maneuverability, and a perfect fit. The Sitka is ready for a saltwater adventure or a lazy afternoon at the lake.

The Sitka combines the best of both worlds - the performance, efficiency and tracking of our Fathom touring kayaks, together with the playful nimble spirit of our recreational kayaks. Eddyline Sitka kayaks are fully outfitted seaworthy kayaks with perimeter lines, bulkheads and hatches, retractable carry handles, deck bungees and Infinity Seat System with backrest (standard) or backband (optional). Each kayak also sports an adjustable drop down skeg for a wider range of hull performance.

SitkaST The Sitka ST is a lively sleek boat for the small-frame paddler.

Sitka^{LT} Designed to fit the medium- to large-frame paddler, the Sitka LT sports a 6 inch forward day hatch for easy storage and access of small items.

Sitka^{XT} The Sitka XT is scaled up with abundant foot and leg room for the large-frame paddler. The Sitka XT includes a 6 inch forward day hatch.

SitkaST

Length: 13' 9" | Beam 22.5" | Weight 43 lb

Sitka^{LT}

Length: 14' 6" | Beam 23.5" | Weight 47 lb

Sitka^{XT}

Length: 15' 3" | Beam 24.5" | Weight 49 lb

TOURING FATHOM

Designed for optimum efficiency and control, our flagship Fathom touring kayak is great for those long-distance adventures or playing in more adverse conditions.

The Fathom sports a highly efficient hull design that is fast, nearly effortless to accelerate to speed, and carries a comfortable degree of initial stability. The combination of hard chines midship and a healthy degree of rocker provide high secondary stability making leaned carved turns and bow rudder turns a breeze.

This kayak tracks well either forward or backwards and subtle deployment of the skeg in small increments allows for fine tuning in winds and waves or heavier gear loads. The full volume front deck provides ample room while the contoured thigh braces provide a secure fit.

TOURING WHISPER

Eddyline's tandem kayak is designed to be versatile and lightweight while maintaining our signature efficient hull design.

WHISPER The Whisper is a dual closed cockpit tandem. Conversation is easy because the cockpits are more centrally located, also giving the bow paddler a drier ride. It is equipped with a foot-controlled rudder in the rear and adjustable foot pegs in the front, bow and stern hatches and bulkheads and deck lines for your convenience and safety. The Infinity Seats add comfort and adjustability for a custom fit. The Whisper is a great all-around tandem for traveling together.

RECREATION SKY 10 // SKYLARK

The Skylark and Sky 10 are recreational sized kayaks that provide the safety and comfort features and performance of full-fledged sea kayaks.

Our best selling recreational kayaks don't stray far from Eddyline's touring kayak roots. Every model in the line comes with hatches and bulkheads bow and stern for safety and storage convenience. Our fixed seat has been designed for maximum comfort on the water.

SKY 10 Weighing only 32 pounds, the Sky 10 is one of the best paddling 10 foot recreational kayaks available anywhere. With standard dual bulkheads, you don't sacrifice safety for size and ease of transport

SKYLARK The 12 foot Skylark has abundant stability and a roomy fit, yet retains the efficiency to keep up with longer boats. This versatile boat is a perennial best-seller because it fits many paddlers and is easy to move, both in and out of the water.

RECREATION

RIO // EQUINOX

An extension of our Skylark models, the Rio and Equinox provide touring level performance and outfitting to a range of recreational paddlers.

RIO

The Rio is designed for the smaller-framed paddler looking for a recreational style kayak with spirited performance and nimble handling. At just under 12 feet in length and only 35 pounds, the Rio is a delightful combination of comfortable stability with a playful and efficient hull. Perfect for the smaller paddler looking for a great fitting kayak.

EQUINOX

The Equinox brings together the comfort and stability of recreational kayaks and the performance of a true sea kayak. The efficient V hull and hard chines provide stability and glide in one package. The kayak tracks well and performs leaned turns with ease. The ample cockpit is equipped with thigh braces that give excellent control even for the smaller-frame paddler. An adjustable Infinity Seat helps the Equinox fit a wide range of paddlers.

RECREATION

SANDPIPER // SANDPIPER 130

Large cockpits and great stability makes the Sandpiper kayaks stand out among the recreational kayak crowd.

Both Sandpipers have a large cockpit making getting in or out of the kayak a breeze, even from a dock or boat deck. Bring a kid, a dog, a camera, the groceries, and don't forget the fishing rod. Sandpiper kayaks are stable enough to land a big one!

SANDPIPER

At 12 feet long, the original Sandpiper comes with a comfortable fixed seat that suits paddlers of many sizes. Knee pads cushion the coaming and you have plenty of room to stretch. The Sandpiper sports 10 inch hatches in the bow and stern, with plenty of deck space for gear storage.

SANDPIPER 130

Our 13 foot Sandpiper 130 comes with a removable Cloud 10 frame seat. Paddle for hours in total comfort, then take the seat with you for a beach chair. The rear hatch is an 18 inch wide oval, making this kayak ideal for hauling bulky gear that won't fit in a standard hatch.

SIT ON TOP **CARIBBEAN 109**

The Caribbean 109 is a sleek and lightweight addition to our award-winning Caribbean series of sit on top kayaks

At 10 feet 9 inches long and only 40 pounds, the Caribbean 109 is a cinch to transport and store. Despite the shorter length, the highly efficient hull design sets this boat apart from its peers. Tracking is exceptional, enabling longer distance travel with less effort. The Caribbean 109 comes with a high-end Cloud 10 SOT seat. Hatches in the front and rear give easy access to most of the interior space. The cockpit features adjustable foot braces, a gear track, and a self-draining seat pan. Perfectly balanced side carry handles double as a paddle park you can use with one hand.

SIT ON TOP **CARIBBEAN 12 FS**

Highly stable and lightweight, the Caribbean 12 FS ("Frame Seat") is the newest addition to our award-winning Caribbean Series of sit on top kayaks

New for 2020, the Caribbean 12 FS, features a removable frame seat – equally comfortable while paddling and as your camp chair. The award-winning Caribbean hull design makes for an efficient and stable kayak. The large front and smaller rear hatches allow for storage, while the cockpit features adjustable foot braces and dual gear tracks. Our new carry handles are balanced for easy transport, and double as a one-handed paddle park.

SIT ON TOP CARIBBEAN 12 // 14

Highly stable and lightweight, the award-winning Caribbeans are the best paddling sit on top kayaks available.

Our highly efficient hull design sets the Caribbean apart from other sit on top kayaks. Tracking is exceptional, enabling longer distance travel with less effort.

The large front hatch, center day hatch and rear hatch give easy access to most of the interior space. The cockpit features adjustable foot braces, handy gear bucket, and a comfortable Cloud 10 SOT seat. Perfectly balanced carbon fiber side carry handles make the carry to the water's edge effortless. Accessory tracks and an abundance of mounting surfaces provide a wide variety of options for customizing a Caribbean to suit your specific needs.

Caribbean 12

At 12 feet long, the Caribbean 12 is the perfect lightweight sit on top for almost any paddler. It is easy to transport, carry and paddle, so you can enjoy your time on the water.

Caribbean 14

The 14 foot Caribbean 14 adds waterline length for those needing more hull speed or larger load capacity.

Caribbean 12

Length: 12' | Beam 30" | Weight 45 lb

Caribbean 14

Length: 14' | Beam 29" | Weight 50 lb

SIT ON TOP CARIBBEAN ANGLER

The Angler version of our popular Caribbean sit on top kayaks turns a great paddling experience into a "best in class" fishing platform.

For the angler who values a superb paddling experience. The removable front hatch liner is a handy bucket for bait, fish or gear storage. Two flush mount gear tracks come with an installed YakAttack rod holder and track mount, while two additional flush mount Sea-Dog rod holders behind the cockpit allow for even more action on the water. The stern tankwell fits a wider variety of tackle management systems including standard milk crates and 5 gallon buckets.

Our 2020 Angler versions include:

- Front Hatch Liner
- Installed YakAttack 8" GTTL90
- Installed Footwell Pads
- Installed Flush Mount Sea-Dog Rod Holders x 2
- YakAttack Rod Holder and Track Mount

TECHNOLOGY

KAYAK TECHNOLOGY

Eddyline has been a leader of innovation in manufacturing and design technology throughout our history. In 1995, the company pioneered thermoform composite technology for the construction of kayaks. While thermoforming is a standard manufacturing process, the raw materials used vary significantly between kayak manufacturers.

Our proprietary **Carbonlite™** material is the result of years of refinement. Carbonlite looks and performs like fiberglass with clear advantages over other plastics:

- Abrasion resistance
- Easily repaired
- Lighter weight
- Hard, glossy finish
- Dimensional stability
- Impact resistance
- Superior UV protection
- Higher heat distortion temperature

Features vary by model. Caribbean 14 and Sitka LT pictured here

ABOUT US

THE EDDYLINE TRADITION

Thank you for your interest in Eddyline! Since 1971, our family-owned business has worked hard to give customers a superb kayaking experience. Eddyline's unique designs are a direct reflection of the input we've received from customers. Whether you are new to the sport or an avid enthusiast, we've developed a line of kayaks that will help you have the best experience on the water.

Our customers inspire us every day with their passion for the water.

OUR COMMITMENT

At Eddyline we promise to strive daily to:

- Build the highest quality kayaks and paddles with meticulous attention to detail
- Support our customers with "best in class" service for their adventures
- Innovate to improve the comfort, performance and reliability of our kayaks and paddles

ENVIRONMENTALLY FRIENDLY

Our manufacturing process consumes less energy than other methods and nearly 100% of our scrap material is recycled

MADE IN THE USA

We are proud that 100% of our kayaks are manufactured in Burlington, WA, with virtually all of our parts sourced from North America.

WARRANTY

We offer a 3 year limited warranty covering defects in materials in workmanship. Register online

OUR TEAM

Eddyline is headquartered in Burlington, WA near the picturesque paddling regions of the San Juan Islands, the North Cascades, and the Salish Sea. Our team feels fortunate to call this area home. Eddyline employs skilled craftspeople who are proud to produce a top of the line product in the USA. Eddyline has grown and innovated while staying true to our roots.

The Eddyline family continues to grow, and we invite you to be a part of it.
