The Healthy Hair Duo

"My favorite small-batch, Indigenous-owned beauty brand Wildcraft (I've been using their [Renew Eye Serum](#) religiously for years) just expanded into the haircare space with this invigorating, delicious-smelling shampoo and conditioner. Inside, you'll find all-natural ingredients you can actually pronounce (chamomile, calendula, quinoa protein, green tea, yucca, marshmallow), and outside, the bottles are made from plant-based sugarcane bioplastic that can be fully recycled." — *Victoria, senior writer*
