The Instant Full-Body Glow

"I audibly gasped as soon as I used this whipped body cream after my shower last night. It left the most gorgeous, pearlescent, lit-from-within glow on my skin. Imagine this with a tan? I'm gagged. The ingredients are equally as lust-worthy with aloe vera juice, coconut oil, beeswax and vitamin E—the ultimate hydration powerhouse. Bonus? My dog always tries to lick my skin after I apply body cream, but this one she sniffed and walked away, which means I can enjoy my sumptuous, hydrated skin in peace, without having her chase me around the house 😊." — *Victoria, senior writer*
