

FUSANOTSUYU

Misty Blue

Highly aroma
and mellow taste

The Kuma-region of Japan,
there is a 500-year tradition of shochu.

By selected rice and ferment
at a lower temperature
than normal production,
we made a new type of shochu
the "Misty Blue".

This is an exquisite gem.
Pleasant aroma and mellow taste
like sake is a good point.

The best ways how to drink is rock or crushed ice.
