## CTS DESIGN

DESIGN FURNITURE MADE IN ITALY SINCE 1976

ICONIC DESIGN FURNITURE, TUSCAN CRAFT TRADITION

CTS Design was born in 1976 in Poggibonsi, near Siena, Tuscany, when the founder started a chair factory.

CTS today produces and distributes worldwide chairs, tables and design accessories for the residential and contract world, preserving traditional artisan techniques skillfully combined with the use of the most modern technologies.

Its history is rooted in the passion for artisanal furnishing elements and the details that characterize them.

Production is completely Made in Italy; all stages of the manufacturing process take place in Italy through qualified and trained labour and only top quality materials are used: solid oak wood, leathers processed by Italian tanneries, certified eco-leather for contract use, marbles selected directly from the quarry, ceramic tiles and first choice fabrics.

The attention to material details and all the processing phases that has always distinguished CTS is fundamental to be able to offer customers a constant and excellent quality standard.

The company is aimed at retailers, manufacturers, design and architecture studios, offering a range of items that includes numerous models as tables, chairs, stools, armchairs and sofas;

In addition, the company's organisational and production structure allows for the customisation of products in terms of size and finish, as well as the realisation of completely customised elements and entire projects.
