CULTURA D'IMPRESA

UN NETWORK DI COMPETENZE, PASSIONI, ESPERIENZA E PROFESSIONALITÀ

BUSINESS CULTURE

A NETWORK OF COMPETENCE, PASSION, EXPERIENCE AND PROFESSIONALISM

La storia umana e imprenditoriale di Riflessi ha il sapore di una sfida vissuta sul campo. Una sfida che l'azienda ha saputo vincere grazie alla sua particolare sensibilità e ad alcune felici intuizioni: puntare su qualità e servizio, ponendo particolare attenzione nel cogliere le suggestioni che arrivano dall'esterno e nell'amalgamarle con il proprio stile.

Riflessi makes your dreams come true! Standing our ground and not backing down when faced with a challenge, our company managed to conquer the market by offering a unique customer-oriented experience comprising outstanding service, a keen eye for detail and the unique ability to incorporate new concepts into our designs.

L'histoire humaine et d'entreprise de Riflessi a la saveur d'un défi vécu sur le terrain. Un défi que l'entreprise a su gagner grâce à sa sensibilité particulière et à certaines bonnes intuitions: miser sur la qualité et le service, en viellant particulièrement à accueillir les suggestions qui arrivent de l'extérieur et dans la façon d'amalgamer son propre style.

Die menschliche und unternehmerische Geschichte von Riflessi gleicht einer erfolgreich gemeisterten Herausforderung. Eine Herausforderung, die das Unternehmen durch seine besondere Sensibilität und einige richtige Intuitionen bewältigt hat: auf Qualität und Service setzen, mit besonderem Augenmerk auf äußere Eindrücke, die in den eigenen Stil miteinfließen.

ALL'INSEGNA DEL MADE IN ITALY

LA COSTANTE RICERCA DELLA QUALITÀ DÀ VITA A SEMPRE NUOVI PROGETTI

UNDER THE 'MADE IN ITALY'

LABEL CONSTANT STRIVING FOR QUALITY PRODUCES A FLOW OF NEW PROJECTS

Riflessi fonda l'esperienza nella continua innovazione e crea i propri prodotti di design rigorosamente Made in Italy. Il Centro di Ricerca e Sviluppo Riflessi è il motore di tutto il processo di sviluppo dei prodotti. Al suo interno vengono ideati e progettati tutti gli arredi, si studiano soluzioni funzionali. Qui si sviluppano nuove tecnologie e s'incontrano saperi contemporanei che si fondono con competenze artigiane in grado di realizzare lavorazioni recuperate dalla tradizione. Un lavoro d'équipe che mette al centro l'unicità di ciascun individuo per realizzare un progetto comune.

Riflessi creates its design products, made entirely in Italy, drawing from its experience in continuous innovation. Our design team creates solutions for a variety of interiors, helping customers express their own style through their decor choices. Our company is deeply involved in every stage of the research, design and manufacturing process. Our expertise and knowledge will help guide our customers towards the right choices for their specific needs as well as ensuring that their decor becomes a true reflection of their inner self.

Riflessi fonde son expériences dans l'innovation continue et crée ses propres produits de design rigoureusement Made in Italy. Le Centre de Recherche et Développement Riflessi est le moteur de tout le processus de développement des produits. C'est là que les meubles sont créés et projetés et que les solutions fonctionnelles sont créées. On y développe de nouvelles technologies et c'est le lieu de rencontre des talents contemporains qui se fondent avec des compétences artisanales en mesure de réaliser des procédés récupérés de la tradition. Un travail d'équipe qui met au centre le caractère unique de chaque individu pour réaliser un projet commun.

Bei Riflessi trifft kontinuierliche Innovation auf Erfahrung für Designprodukte ausschließlich Made in Italy. Im Forschungs- und Entwicklungszentrum von Riflessi nimmt der Entstehungsprozess der Produkte seinen Anfang. Hier werden alle Einrichtungen entworfen und geplant, sowie die funktionalen Aspekte ausgearbeitet. Es werden neue Technologien entwickelt und Moderne verschmilzt mit traditioneller Handwerkskunst. Eine Teamarbeit, bei der jeder Einzelne im Mittelpunkt steht, um gemeinsam ein Ziel zu erreichen.

I NUOVI FLAGSHIP STORE

UNA PRESENZA DINAMICA NELLE PRINCIPALI CITTÀ ITALIANE

OUR NEW FLAGSHIP STORES
TO THE FORE IN THE MAIN ITALIAN CITIES

Sono i punti vendita che meglio rappresentano la vision aziendale; in termini di prodotti e d'immagine sono l'espressione più genuina del Made in Italy firmato Riflessi. Si presentano come degli spazi suggestivi dove mobili e complementi diventano protagonisti ed interpreti del gusto e dello stile di vita Riflessi.

These points of sale are the most representative of our corporate vision; the products and image they display are genuinely made in Italy by Riflessi. The stores comprise evocative areas where furniture and complementary items make statements about Riflessi's taste and lifestyle.

Ce sont les points de vente qui représentent le mieux la vision d'entreprise ; en termes de produits et d'image, ils sont l'expression la plus authentique du Made in Italy signé Riflessi. Ils se présentent comme des espaces suggestifs où les meubles et les compléments sont au premier plan et deviennent des interprètes du goût et du style de vie Riflessi.

An den Verkaufsstellen kommt die Mission des Unternehmens am besten zum Ausdruck; Produkte und Image interpretieren das Made in Italy von Riflessi in seiner reinsten Form. Suggestive Räume, in denen Möbel und Ergänzungselemente den Geschmack und den Lebensstil von Riflessi perfekt darstellen und interpretieren.

Un Oggetto d'arredo unico

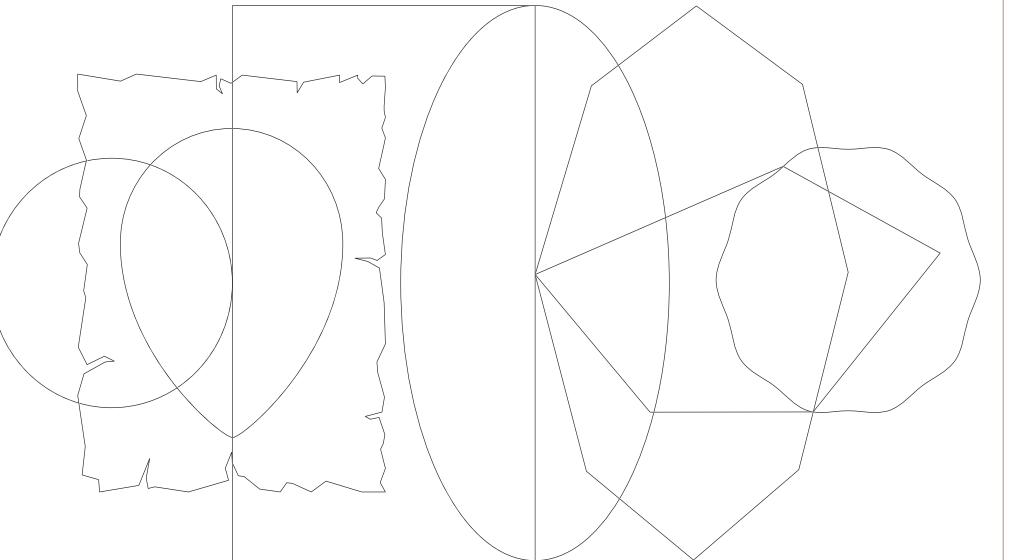

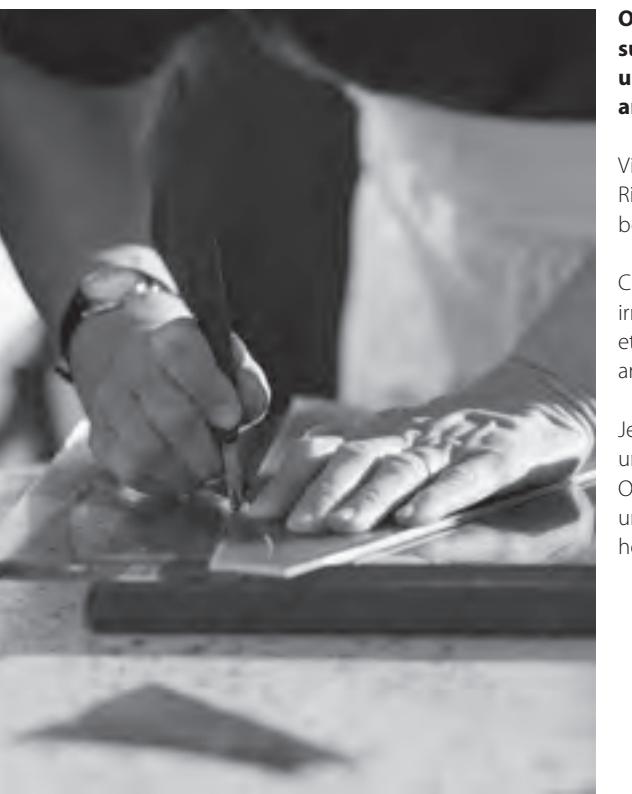

A unique interior design item

Design esclusivo e know-how artigianale, produzione nel territorio e utilizzo di materiali pregiati; design, ricerca e sviluppo rigorosamente made in Italy.

Exclusive design and craftsmanship, local production, use of outstanding materials, design, research and development strictly made in Italy.

Design exclusif et savoir-faire artisanal, production sur le territoire et utilisation de matériaux de haute qualité; design, recherche et développement rigoureusement made in Italy.

Exklusives Design und handwerkliches Know-how, Produktion in der Region und Verwendung edler Materialien; Design, Forschung und Entwicklung ausschließlich Made in Italy.

Ogni specchio Riflessi, con le sue superfici irregolari e vibranti è unico e irripetibile perché creato artigianalmente.

Vibrant, irregular surfaces make every Riflessi mirror unique and unrepeatable because it is hand crafted.

Chaque miroir Riflessi, avec ses surfaces irrégulières et vibrantes, est unique et irremplaçable parce qu'il est créé artisanalement.

Jeder Spiegel von Riflessi ist mit seinen unregelmäßigen und vibrierenden Oberflächen einzigartig und unnachahmbar, da er handwerklich hergestellt ist.

Design sartoriale

Sartorial design

Ogni materiale è scelto e lavorato manualmente in base alle sue proprietà tecnologiche: malleabilità, duttilità, fusibilità, permettono di plasmare forme irregolari e sinuose oppure geometrie sfaccettate.

Each material is selected and hand-worked according to its technological qualities: suppleness, pliancy and fusibility make possible irregular, sinuous shapes or faceted geometries.

Chaque matériau est choisi et travaillé manuellement selon ses propriétés technologiques : malléabilité, souplesse, fusibilité, ils permettent de créer des formes irrégulières et sinueuses ou bien des géométries facettées.

Jedes Material wird anhand seiner technologischen Eigenschaften ausgewählt und von Hand verarbeitet: Geschmeidigkeit, Verformbarkeit und Schmelzbarkeit lassen unregelmäßige und geschwungene Formen oder facettenreiche Geometrien entstehen.

Sono molteplici le tecniche di lavorazione utilizzate per ottenere effetti sorprendenti, come ad esempio il rivestimento della cornice con foglia argento o le applicazioni in resina.

We create amazing effects using several methods, such as, for example, applying silver leaf to the frame or adding resin applications.

Les techniques de façonnage utilisées pour obtenir des effets surprenants sont multiples, comme par exemple le revêtement du cadre avec de la feuille d'argent ou les applications en résine.

Durch die zahlreichen verwendeten Verarbeitungstechniken werden überraschende Effekte erzielt, wie beispielsweise die Beschichtung des Rahmens mit Blattsilber oder die Applikationen aus Kunsthars.

MARTELLATURA. È una tecnica ripresa dall'antica cesellatura che consente di modellare manualmente l'alluminio cotto e creare una superficie irregolare e vibrante sempre diversa per ogni specchio realizzato.

HAMMERING. A technique harking back to the metal chasing of olden times, with which soft aluminium was modelled by hand, creating irregular, dynamic surfaces different for each and every mirror.

MARTELAGE. C'est une technique reprise de l'ancienne ciselure qui permet de modeler manuellement l'aluminium cuit et de créer une surface irrégulière et vibrante toujours différente pour chaque miroir réalisé.

HÄMMERN. Eine an die alte Ziselierung angelehnt Technik, mit der weiches Aluminium von Hand geformt werden kann, wodurch eine unregelmäßige und vibrierende Oberfläche entsteht, die bei jedem hergestellten Spiegel anders aussieht.

FUSIONE DA STAMPO
Gli specchi realizzati in stampo hanno come caratteristica peculiare la possibilità di realizzare forme irregolari e sinuose ottenute tramite il riscaldamento dei materiali ad elevate temperature che permettono a questi ultimi di assumere qualsiasi aspetto.

MOULDING. The distinguishing feature of moulded mirrors is that irregular, sinuous shapes can be achieved by heating the materials at high temperatures so they can take on any form.

FUSION EN MOULE. Les miroirs réalisés avec des moules ont pour caractéristique la possibilité de réaliser des formes irrégulières et sinuoses obtenues au moyen de la chauffe des matériaux à des températures élevées qui permettent à ces derniers de prendre tout type d'aspect.

FORMGUSS. Formgegossene Spiegel haben die besondere Eigenschaft, dass durch Erhitzen der Materialien auf hohe Temperaturen unregelmäßige und geschwungene Formen hergestellt werden können, die jedes Aussehen erlangen können.

DIAMANTATURA. Questa tecnica consente tramite l'uso di stampi di modellare geometricamente l'acciaio, materiale leggero, duttile e prezioso, che viene piegato per assumere la forma desiderata. L'acciaio è ottimo per realizzare finiture di pregio sfruttando la sua rifrazione naturale.

FACETING. This technique uses a die to bend quality steel, which is light and pliable, into the required shape. Steel is ideal for outstanding finishes due to its natural refraction.

DIAMANTAGE
Cette technique permet, avec l'utilisation de moules, de modeler géométriquement l'acier, matériau léger, souple et précieux, qui est plié pour prendre la forme désirée. L'acier est excellent pour réaliser des finitions de haut niveau, en exploitant sa réfraction naturelle.

DIAMANTIERUNG. Bei dieser Technik kann Stahl mithilfe von Werkzeugen geometrisch geformt werden. Ein leichtes, verformbares und hochwertiges Material, das gebogen wird, um die gewünschte Form zu erhalten. Stahl eignet sich hervorragend, um edle Oberflächen zu erhalten, indem seine natürliche Brechung genutzt wird.

Specchi realizzati in fusione

La sperimentazione creativa dà vita a specchi che come sculture irrompono negli spazi domestici con i loro affascinanti bagliori.

Il riscaldamento dei materiali ad elevate temperature consente di dare vita a forme inaspettate, irregolari e sinuose.

Moulded glass mirrors

Creative experimentation produces sculpture-like mirrors that amaze with their fascinating glow. Materials heated at high temperatures can take on unusual shapes that are attractively irregular and sinuous.

Miroirs réalisés en fusion

L'expérimentation créative donne vie à des miroirs qui, comme des sculptures, s'introduisent dans les espaces domestiques avec tout leur éclat. La chauffe des matériaux à des températures élevées permet de donner vie à des formes inattendues, irrégulières et sinusoises.

Formgegossene Spiegel

Durch kreative Experimente entstehen Spiegel, die wie Skulpturen die Wohnräume mit ihrem faszinierenden Glanz dominieren. Durch Erhitzen der Materialien auf hohe Temperaturen entstehen unerwartete, unregelmäßige und geschwungene Formen.

CIRCLE

Designed by Riflessi Lab

Circle scompon l'ambiente stravolgendo il convenzionale concetto di specchio a riflessione frontale.
L'immagine che ci restituisce si rivela infatti man mano che ci si avvicina grazie alla particolare inclinazione delle superfici.

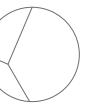

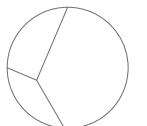

The circle mirror revolutionises its surroundings by changing the conventional concept of frontal reflection. The image appears as you approach the mirror, reflecting to the left or right due to the inclined surface.

Circle décompose l'ambiance en bouleversant le concept conventionnel de miroir à réflexion frontale. L'image qu'il nous rend apparaît en effet au fur et à mesure que l'on s'approche, grâce à l'inclinaison particulière des surfaces.

Circle unterteilt den Raum und weicht vom konventionellen Konzept des Spiegels mit frontaler Reflexion ab. Das Bild, das er wiedergibt, wird durch die spezielle Schräge der Flächen umso deutlicher, je mehr man sich annähert.

GIOIELLO

Designed by Molteni/Baron Associati

La cornice che rimanda alle minute sfaccettature di un gioiello è una bisellatura irregolare realizzata in più passaggi sovrapposti. Lo spessore elevato del cristallo attribuisce ulteriore pregio allo specchio.

A frame that recalls a jewel's tiny facets is irregularly bevelled by overlaying a number of times. The thickness of the glass adds value to this mirror.

Le cadre qui rappelle les minuscules facettes d'un bijou est un biseautage irrégulier réalisé en plusieurs passages superposés. La grande épaisseur du cristal confère une valeur ultérieure au miroir.

Der Rahmen, der an kleine Facetten eines Juwels erinnert, ist ein unregelmäßiger Schliff, der in mehreren Passagen übereinander erfolgt. Die große Materialstärke des Kristallglasses verleiht dem Spiegel noch mehr Wert.

SPECCHI / MIRRORS

VIVIAN

Designed by Riflessi Lab

Dallo specchio è plasmata la cornice costituita da una sottile
bisellatura concava.

Il suo volume appena accennato accompagna le rotondità
della forma e i suoi contorni sinuosi.

The concave, slightly bevelled frame is moulded round the mirror and repeats the roundness of the sinuous shape.

Le miroir est façonné sur le cadre constitué par un fin biseautage concave. Son volume à peine esquissé accompagne les rondeurs de la forme et ses contours sinueux.

Aus dem Spiegel wird der Rahmen geformt, der aus einer schmalen konkaven Schrägkante besteht. Sein kaum angedeutetes Volumen begleitet seine runde Form und geschwungenen Konturen.

Specchi con cornice in legno

Con il legno la cornice acquista spessore ed importanza.

È sapientemente lavorata per dare valore aggiunto allo specchio, per ospitare una luce o accogliere una mensola.

Wood framed mirrors

Wood makes frames imposing and important. Beautifully processed, it adds value to the mirror and can accommodate lighting or a shelf.

Miroirs avec cadre en bois

Avec le bois, le cadre gagne en épaisseur et en importance. Il est savamment travaillé pour donner une valeur ajoutée au miroir, pour loger un éclairage ou accueillir une tablette.

Spiegel mit Holzrahmen

Mit Holz erlangt der Rahmen Stärke und Bedeutung. Er ist sorgfältig verarbeitet, um dem Spiegel Mehrwert zu verleihen, eine Beleuchtung aufzunehmen oder eine Ablage zu integrieren.

Orologi

L'orologio è un elemento funzionale ma soprattutto decorativo, le superfici in vetro serigrafato effetto marmo evocano materiali naturali e creano atmosfere suggestive. I dettagli dorati o argento completano il design elegante e ricercato.

Wall clocks

Clocks are decorative as well as functional elements. Marble-effect screen-printed glass surfaces evoke natural materials and create refined atmospheres. Gold or silver details complete the elegant design.

Horloges

L'horloge est un élément fonctionnel mais surtout décoratif, les surfaces en verre sérigraphié effet marbre évoquent des matériaux naturels et créent des atmosphères suggestives. Les détails dorés ou argent complètent le design élégant et recherché.

Uhren

Die Uhr ist ein funktionales, aber vor allem dekoratives Element. Die Oberflächen aus siebbedrucktem Glas in Marmoroptik sind natürlichen Materialien nachempfunden und schaffen eindrucksvolle Atmosphären. Die Details in Gold und Silber vollenden das elegante und edle Design.
