inspiration

L'innovazione del living comincia da una linea.

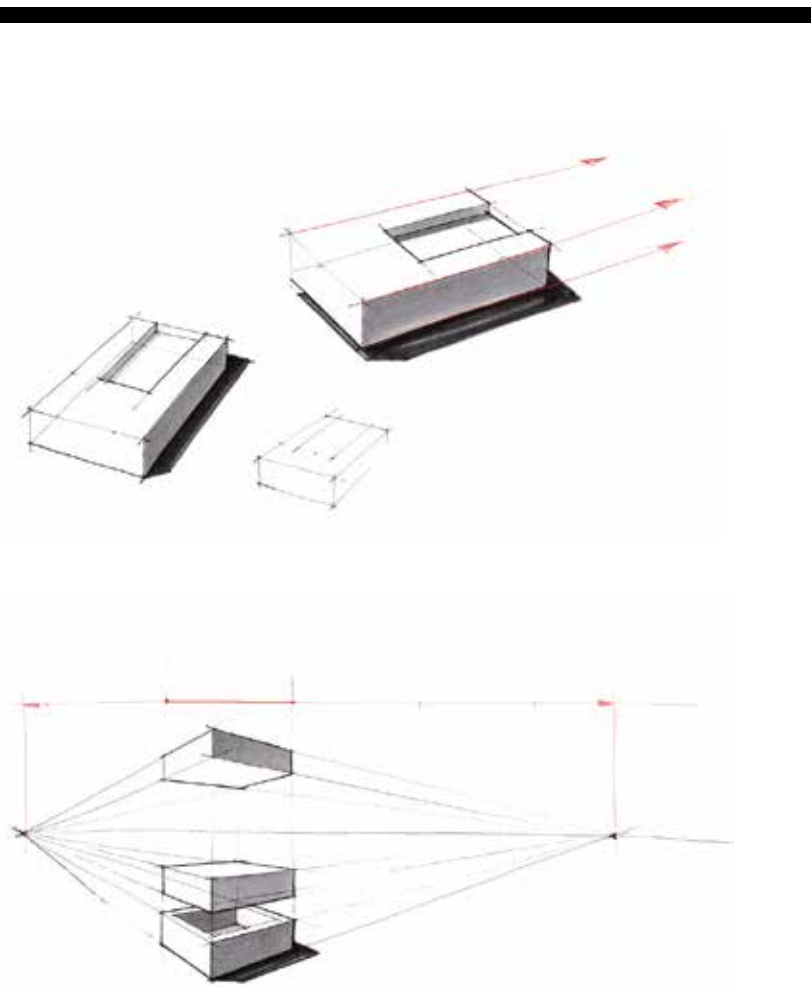

Una semplice linea retta come fonte d'ispirazione. Un tratto essenziale e intuitivo che nasconde grandi potenzialità. Righe continue o spezzate si incontrano, delineano profili, definiscono spazi e compongono i volumi dell'arredo.

La linea è il punto di partenza.

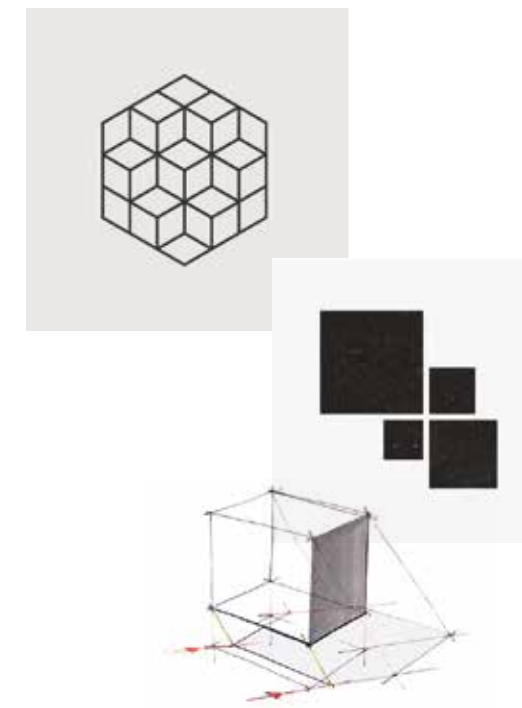

Innovation in the living room all starts with a simple line.

A simple straight line is all we need to feel inspired. This sleek, intuitive stroke hides huge potential. As continuous and broken lines meet, they trace outlines, define spaces and compose the forms of this furniture. **It all starts with a line.**

Innova nasce dall'intersezione di più linee. La scocca interrotta dei moduli a giorno e la linea continua della presa a gola definiscono i tratti del design. Le forme regolari degli arredi sono arricchite dai piedini in metallo e valorizzate dalle finiture: colori desaturati, venature e vetro fumè.

Innova was born where the lines meet. The features of this design are sketched out by the continuous line of the open-fronted units and the groove grip. The regular-shaped furniture is broken up by metal feet and enriched with finishes in desaturated colours, wood grain and smoked glass.

innova collection

La casa rinnova lo stile e
la quotidianità acquista nuove forme.
Gli elementi d'arredo si inseriscono
in spazi ampi e luminosi,
pensati per fare da scenario
alla vita contemporanea.

New style for your home,
where the everyday takes on new forms.
This furniture collection
fits into bright, light spaces,
designed to be the
backdrop to modern life.

Le forme che popolano la zona giorno sono essenziali e allo stesso tempo eloquenti: l'incrocio di linee definisce i contorni di elementi pieni e vuoti.

The shapes that populate the living space are simple yet eloquent. As lines cross they mark out the contours of full and empty spaces.

**Il design è in prima linea nell'innovazione del living.
Una visione contemporanea della zona giorno, fatta di nuove modularità
e nuove proporzioni che configurano ambienti raffinati e di ampio respiro.**

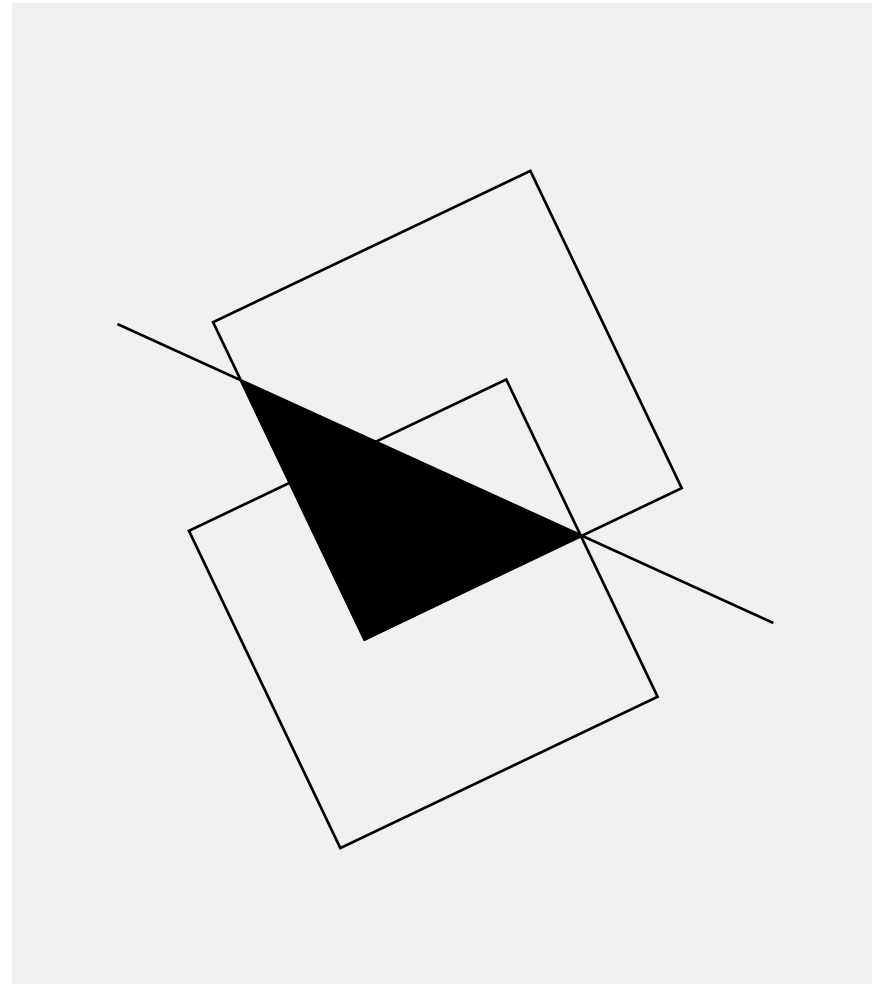

Design is at the forefront of any innovative living space. A contemporary take on the living area sees modular units and new proportions that create refined spaces with wide appeal.

La boiserie in essenza accoglie i volumi del pensile sospeso e della base a terra.

The wood grain panelling stands its ground against the wall-mounted top unit and the floor-standing base unit.

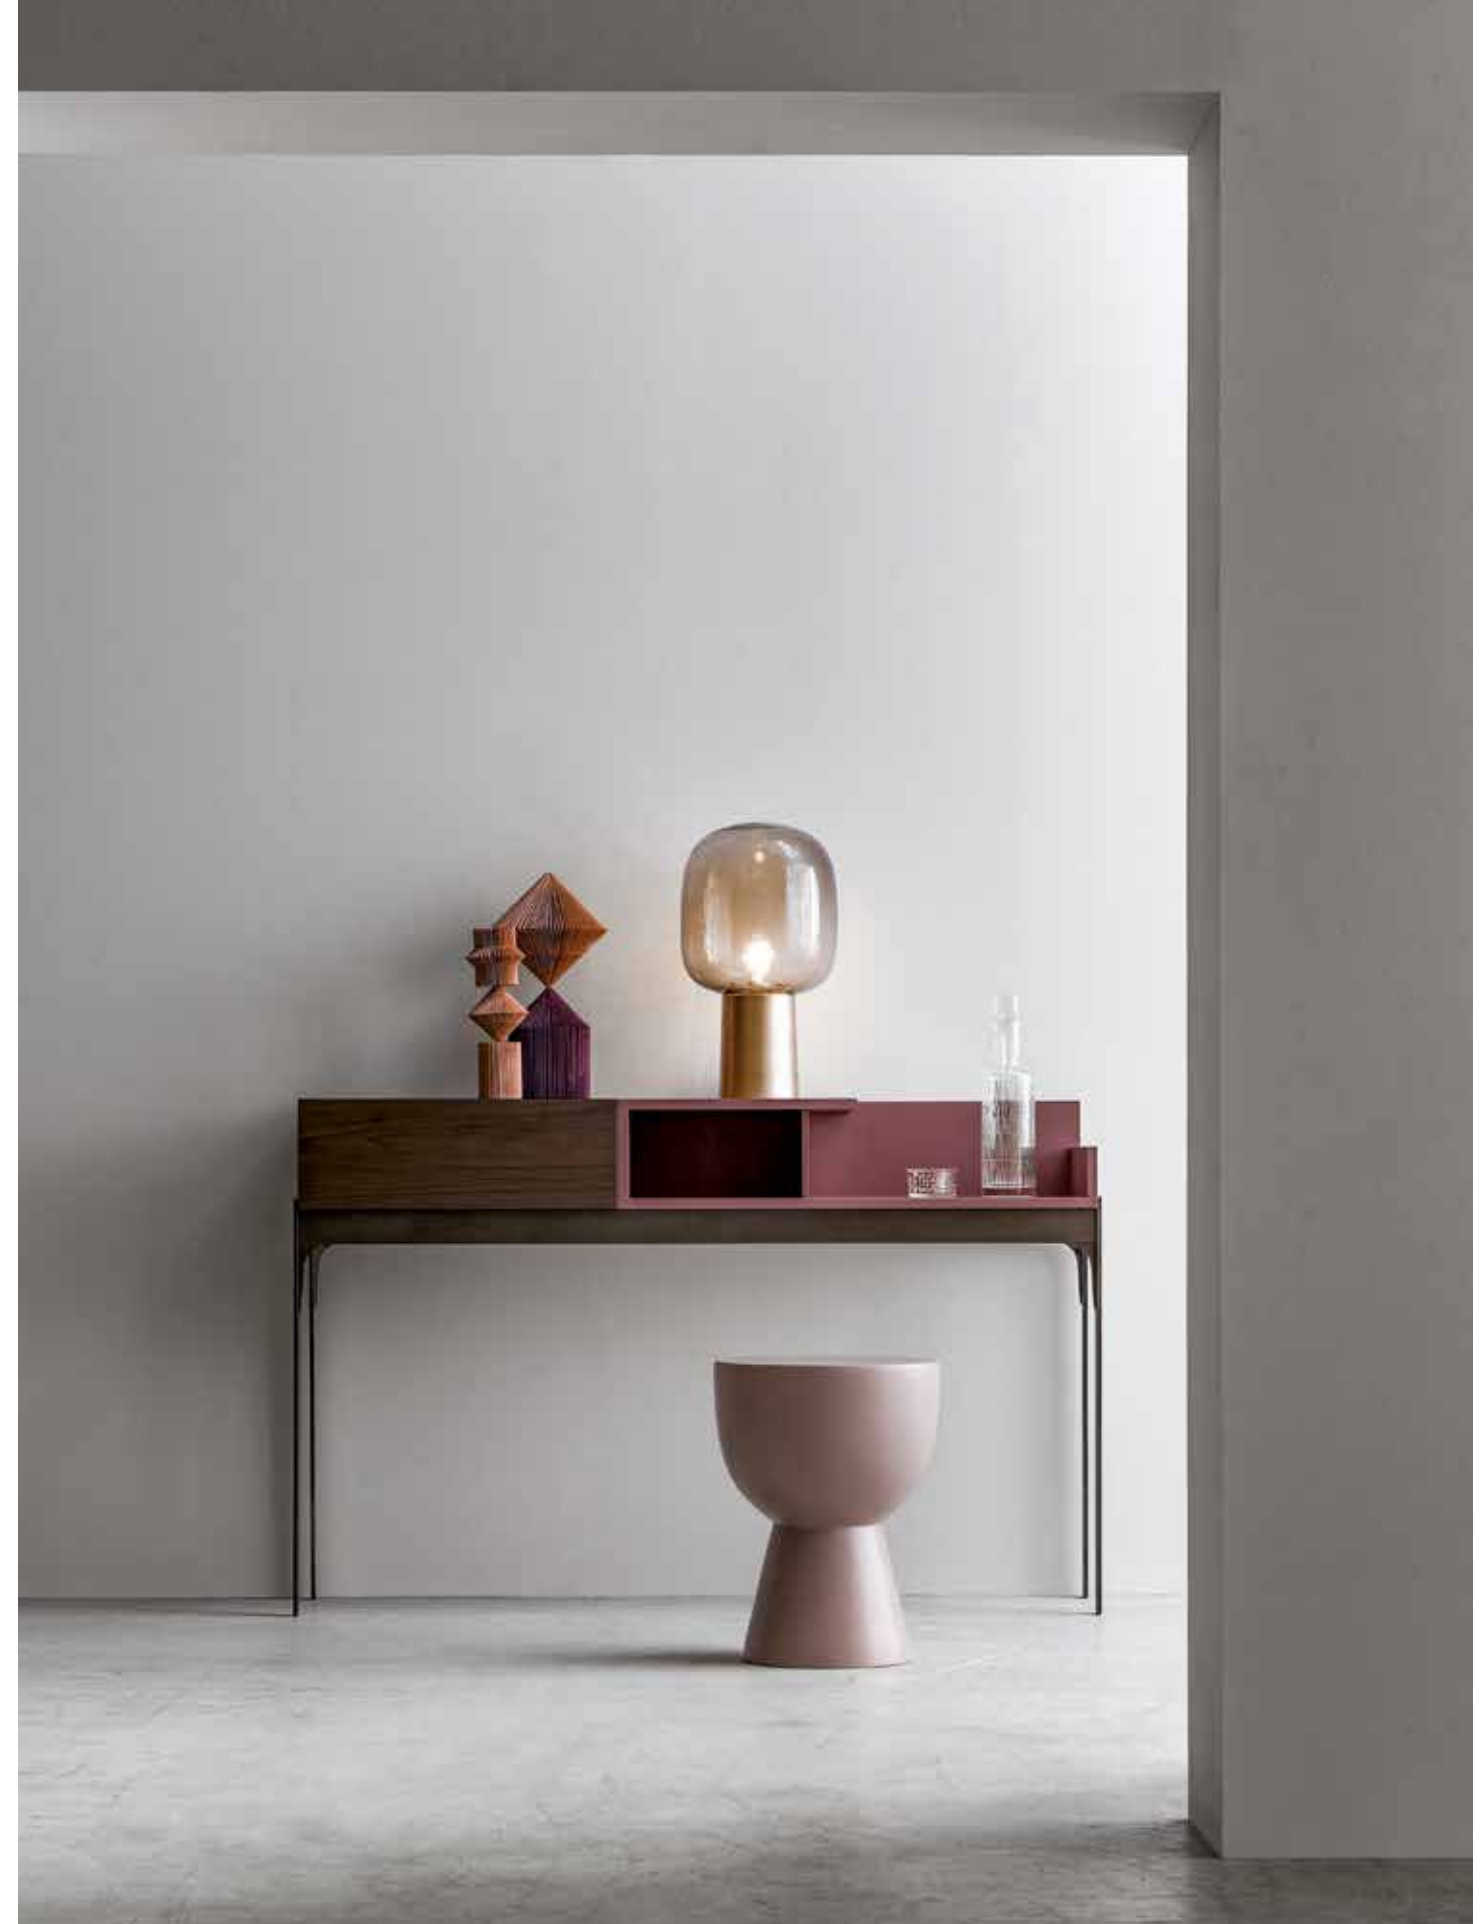

Linee che si incontrano e si dividono tracciando i contorni di ante e moduli a giorno.

Lines that meet and split mark out the edge of the unit doors and open unit fronts.

**Varietà di elementi
con tante soluzioni originali.**

Variety of elements with multiple
original solutions.

Tra luci e ombre, la linea assume spessore e dà forma agli arredi.

In between light and shade, the lines take on new depth and give form to the furniture collection.

Il tratto si interrompe e il modulo a giorno
supera i propri confini.

**There are lines that define
and others that break up the outline.**
As the lines are interrupted,
the open unit goes beyond its limits.

**Linee che definiscono schemi
e linee che li rompono.**

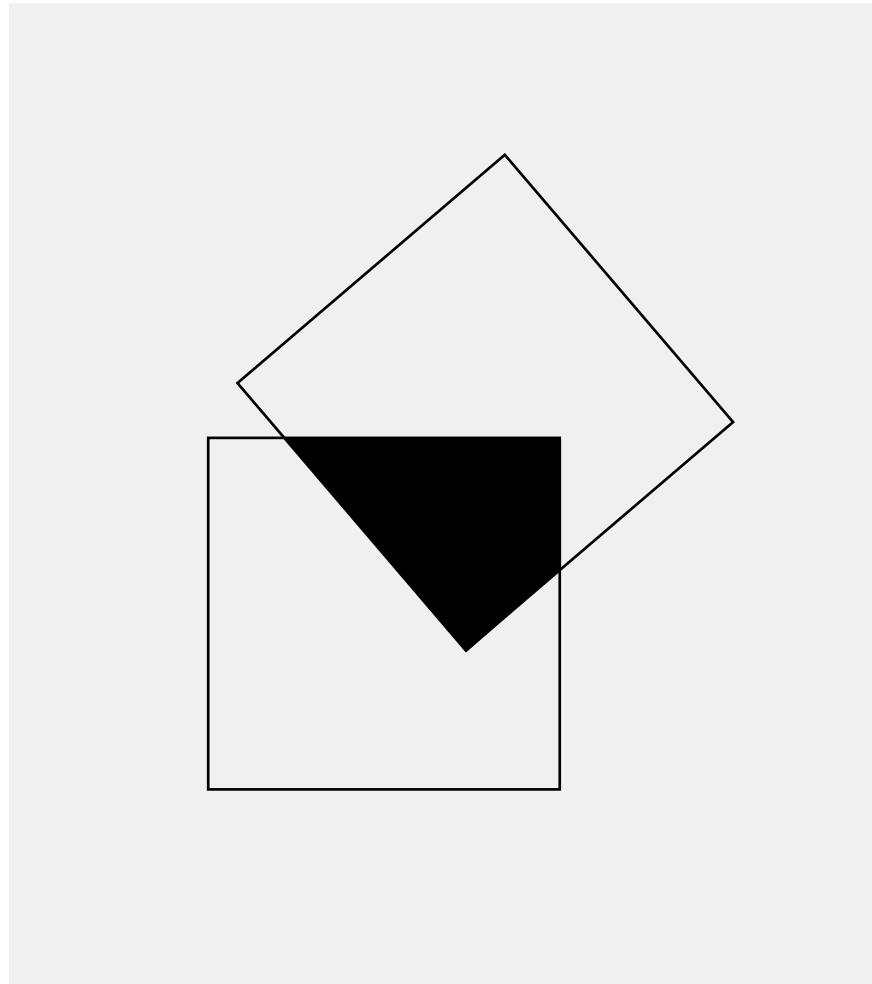

**La madia si regge agilmente
su gambe lunghe e affusolate.**

The sideboard stands nimbly on
its long, tapered legs.

Frontali e moduli a giorno giocano con le finiture sulla madia sospesa.

The fronts and open compartments experiment playfully with different finishes on this wall-mounted sideboard.

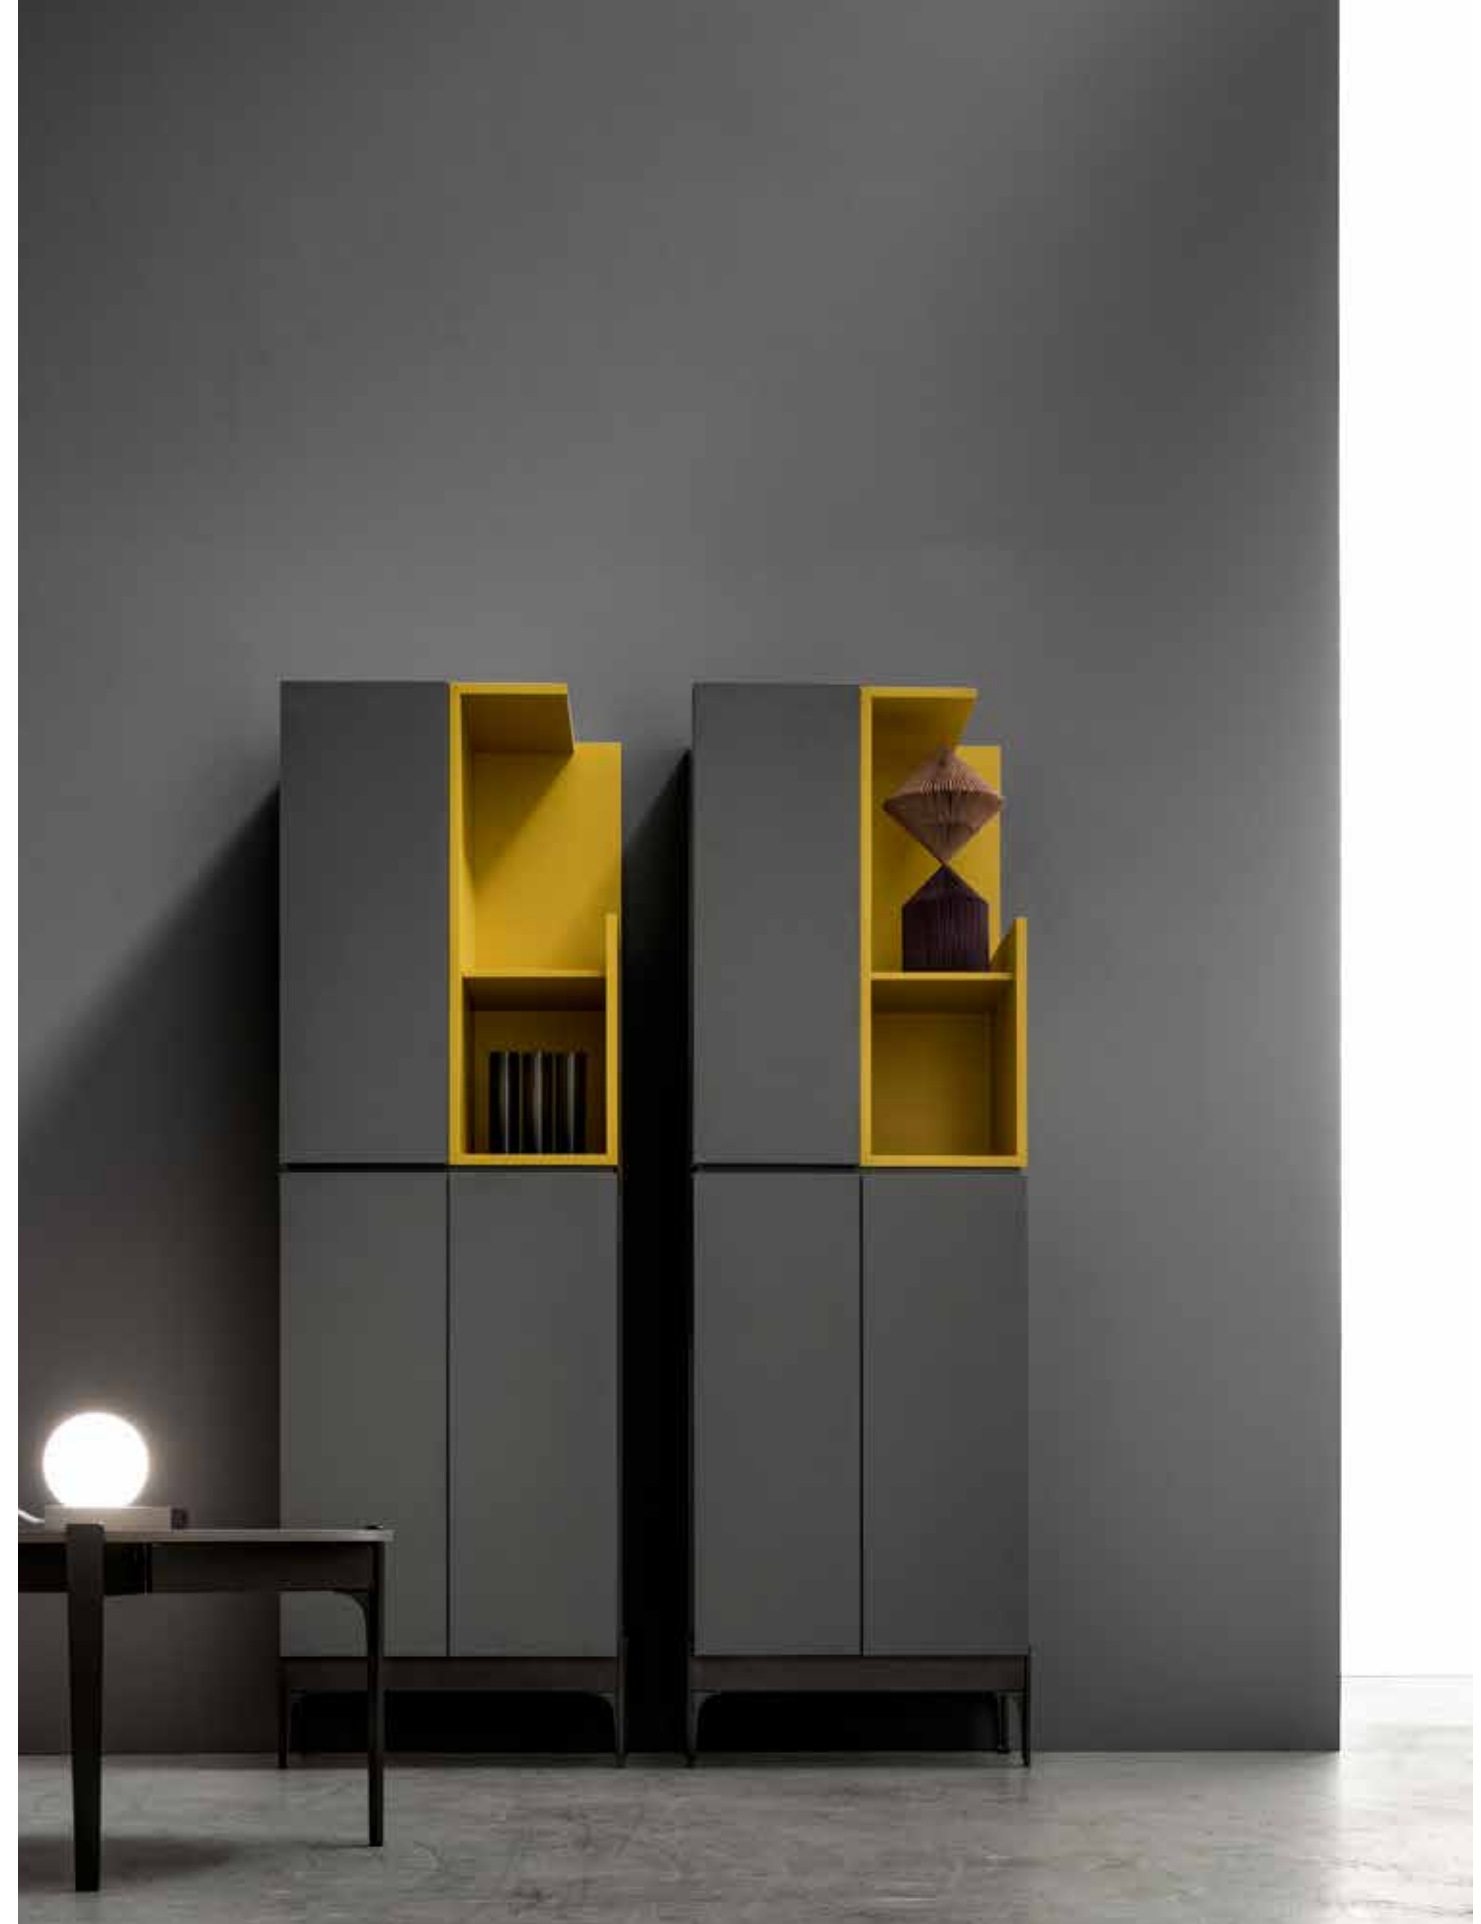

**L'inserto a giorno color Senape
vivacizza un design rigoroso.**

The bright Senape open-fronted insert
adds vitality to this structured design.

A tutto tondo: i tavolini in diverse altezze mettono in risalto le finiture.

All-round: the tables at different heights accentuate the finishes.

Dal fondo del pensile, la luce a led illumina i profili della composizione.

LED lighting under the wall unit puts the spotlight on the contours of this composition.

Le grafiche sul pannello boiserie possono essere adattate a diverse finiture in essenza e colori eco, ottenendo un effetto unico ed esclusivo.

The patterns on the wood panelling can be adapted to suit different wood grain and eco colour finishes, creating a unique, exclusive effect.
