

SAUCHA

NATURALLY CARES

Hey you, we
could be the
perfect match!

Do you want to provide your guests with 100% natural and premium body wash products? We are here to help.

Your guests have the privilege of the comfort and hospitality you offer. You can add a special experience with our natural, sustainable and ethical soaps. Our soaps are locally handcrafted in Amsterdam, using only organic raw materials obtained from small-scale, sustainable farms. This allows us to contribute directly to the CSR objectives of your company. Read on for more information. Is it a match? Yay! Feel free to contact us at robin@saucha.co and we will send you a quotation within 24 hours.

100% natural and
organic body wash
for your guests.

SAUCHA

We are organic, biodegradable, vegan, cruelty-free, shower-drain friendly, 100% recycled and made in co-creation with micro-businesses from Asia

100% natural and organic

All our soaps are 100% natural; no hidden chemicals and impossible-to-read ingredient lists. Just safe, active and organic ingredients of familiarity, produced by mother earth. Only the best ingredients are being used, containing rich nutrients for the body, resulting in high-performance products.

Co-creation

Many small entrepreneurs in Asia have a lot of knowledge regarding herbs and other natural wonders translated into natural skincare, however, do not have the resources or reach to share this with you all. Through Saucha, we want to give them a stage. Many years of great friend/partnerships, formulating and testing followed. We bundled our knowledge and passion together and consciously curated products that we loved.

Recycled & collected plastic

Our bottles are made of 100% post-consumer recycled plastic, made from water bottles from South-East-Asia. There, where cleaning is of highest importance. With every product purchased, we also collect 1kg (equal to 50 bottles) of ocean plastic.

SAUCHA

The soaps are made in co-creation with Khun Big and his wife. For every sold soap, 5% commission goes straight to our partner-friends. Close to the border of Myanmar, Khun Big owns his little shop together with his wife. They have been making 100% natural skincare for over 15 years. Being half Thai, half Chinese, Khun Big holds a great mix of knowledge between Asian herbs and Chinese medicine.

Chiang Rai,
Thailand

About Saucha

Saucha has been founded by Robin, Alumni from Hotelschool The Hague. We are committed to supporting micro-businesses and small-scale farmers in Asia, by (re)connecting people to pure products. We aim to empower one to make more conscious, ethical and sustainable choices, keeping oneself and our surroundings clean. Throughout the years, my path crossed some incredible Asian skincare-creators and in 2017 the idea came to join forces. It quickly started to become a real community of small entrepreneurs and small-scale farmers, leading to the social enterprise as we are

today (B-corp pending). We co-create all our products with our partner-friends from Asia, yet produce them locally in Amsterdam. This way we are able to provide quality control and sustainable packaging while creating products made of organic ingredients, carefully collected from small-scale and fair-trade farmers. We have always believed that we are better together!

We aim for a world where trade is a driving force for positive and sustainable change benefiting people and their environment.

SAUCHA

Made with Organic Oils from Small-Scale and Sustainable farmers

Extra Virgin Organic Olive Oil

Jaen, Spain

- 200 years old family business
- They create world's finest extra virgin olive oil while only using environmentally-friendly techniques
- No use of herbicides, pesticides or any other chemical products
- Their organic farming system is focused on maintaining a natural forest of olive trees with the least possible interference. Nature itself performs most of the tasks, and they respect its cycles and rules.

Virgin Organic Coconut Oil

Aceh Sumatra, Indonesia

- Their organic coconuts are produced to preserve our endangered ecosystems and wildlife
- Together with the collective of small-scale farmers, they set up seedling nurseries and replant coconut trees on 6000 hectares of existing plantations and degraded, unproductive land
- Aceh Sumatra is the last place on earth where orangutans, rhino, elephants and tigers coexist and where turtles nest every night of the year, their mission is to protect this land from big palm oil companies

Organic Castor Oil

Gujarat, India

- High quality, cold-pressed oil
- World's first certified organic and Fair-for-life Castor Oil
- The Fair-for-Life surcharge is used to implement projects in the farmers' villages, such as:
 - Building a classroom for girls
 - Building a drinking water tank
 - A sewing machine for 10 women. They have been trained in sewing. The goal is to have them process fabrics made from organic cotton grown in the region in order to gain financial independence.

SAUCHA

Soaps

We are

Organic
Ethically made
Shower drain friendly
Save for sensitive skin
Biodegradable
Cruelty-free
Vegan

100% Natural

Our multipurpose Castile Soap gets its cleaning power from plant-based oils, making it rich and moisturising. It's made free of animal fats and synthetic ingredients and is 100% natural, organic and biodegradable. Castile soap is mild enough to use on your face and strong enough to disinfect pores and eliminate harmful bacteria. Saucha uses the traditional way of making this lovely, yet powerful liquid castile soap.

Moisturise

The process of making plant-based soaps results in a byproduct known as glycerin. Glycerin absorbs water from surrounding air, moisturising your skin as naturally as possible.

Scents

Uplifting

Peppermint & Eucalyptus

The soothing and cooling effect of Peppermint in combination with Eucalyptus, improves focus and mental clarity, boosts energy and blood circulation, and releases muscle tightness. Inhaling its aroma can make it easier to take deep, nourishing breaths that calm your nervous system.

Healing

Tea Tree

Tea Tree stimulates the body's immune system and heals skin conditions through its antifungal and antibacterial properties. Ideal for wound and scar healing. It moreover disinfects the pores to enrich a healthy skin flora and promotes relaxation. Inhaling the aroma of steamed shower water, scented with Tea Tree Oil, can relieve inflammation that leads to headaches.

Relaxing

Lavender & Bergamot

Inhaling the scent of steamed shower water with Lavender and Bergamot, helps you to fully relax and unwind and has the ability to reduce (winter) depressions and anxiety levels. It moreover soothes and purifies the skin, is high in antioxidants and enriches a healthy skin flora.

Bottles

100% Recycled & Refillable

Made from Thai water bottles

Options:
100 ml bottles
300ml bottles
5000ml Refill

(Hand)made consciously & with purpose.

SAUCHA

Interested? Yay!

Whats in it for you?

Show your guests that you naturally care. For them, for the environment, for the people.

With Saucha, you don't only provide your guests with high quality, organic and sustainable soap benefiting their health. You also deliver an extra, meaningful, story to their stay.

Contribute directly to
the CSR objectives of
your company

Whats in it for them?

- For every 10L, we collect 1700 bottles of ocean plastic, powered by the Plastic Bank.
- 5% commission goes straight to the micro-businesses we work with in Asia.
- Due to our Fair-For-Life programs, the small-scale farmers we work with receive extra profit for projects in farmers villages such as:
 - Replanting of coconut trees in Sumatra
 - Building a classroom and water tank in India
 - Educating farmers on how to farm organically and gain financial independence

Are you interested in our
soaps for your boutique
hotel? Great match!
