What to Pack in a Checked Bag

Not sure what to pack in a checked bag? However you use this checked bag checklist, make sure you stick to it. There are certain items that cannot be packed in a checked bag, so pay attention!

Checked Suitcase

When checking a suitcase, you do not have to follow the [TSA 3-1-1 rule](#) for liquids. There are still items that are not allowed to be placed in checked bags, but you have more freedom around liquids and amounts that you can bring in a checked bag.
