## ABOUT US

### TIMELESS DESIGN

All our designs are intentionally timeless. They withstand trends and associate well with different styles. They can be passed on from one home to the next, carrying over the stories of one lifetime into another.

We create collections for every room of the house: from the furniture that defines the purpose of a space to the objects that layer it with meaning. Nothing excites us more than seeing how people love and use our products in the story of their life.

### UNIQUENESS OF THE PRODUCT

This item has been made by hand using specially selected minerals and pigments. By incorporating ancestral techniques and combining these with new technologies, each finish is truly unique; embodying its own particularities, identity and character. Due to variations to intensities, hues and the movements of light, colour nuances are to be expected. We consider these variations a sign of uniqueness and quality.

## CARE INSTRUCTIONS

### TABLE TOP

Your table is varnished with a water-based finish to repel common substances and fluids such as coffee, tea and wine. However, this protective coat is no foolproof guarantee against stains. In case of a spill, remove it immediately.

Always use coasters to prevent the hot surface from leaving marks on the tabletop.

For regular dusting, use a dry cloth. For a more thorough cleaning, use a damp cloth and natural detergents.

### METAL LEGS

Dust regularly using a soft dry cloth. For a more thorough cleaning, use mild soap and warm water. Rinse with clean water and wipe dry. Do not use steel wool, sandpaper, mineral acid, bleach or chlorine cleaners on metal surfaces.

## USER INSTRUCTIONS

- The table surfaces should be treated carefully as they can get scratched when using aggressive cleaning products and get ruined by extreme heat.
- These products are intended for indoor use only.
- To prevent staining, we recommend that any spills be removed immediately.
- Do not drag the furniture along the floor, always lift the furniture when moving.
- Direct contact with abrasive/high acidity products should be avoided.

*We create the foundations of your home,  
to inspire the stories of your life.*
