

Thank you for buying 'Curio - wall shelf'

Installation instructions.

Please read the instructions and warnings carefully before use to ensure safe and satisfactory operation of this product.

The Wall shelf is supplied with screws and wall plugs suitable for a stone or brick wall. For other wall types (eg. hollow plasterboard) alternative fixings will be required. If in doubt, consult a qualified person.

Fixings (as marked):

- (A) Wall screws x2 
- (B) Wall plugs x2 

Fitting Instructions:

You will need a power drill, a masonry drill bit, a medium cross-head screwdriver, a spirit level and pencil to install this product. Ensure the wall surface is of suitable strength and construction before hanging.

Carefully measure the position of the holes on the back of the shelf. Mark the drill hole positions for the wall plugs on the wall using a spirit level to check alignment. Drill holes and push in wall plugs so they are flush.

*Helpful hint: To accurately drill wall holes, first use a smaller drill bit. Then change to the larger drill bit size and re-drill.

Fix wall screws securely leaving screw heads protruding 4mm from the wall.

Guide the keyhole hanging slots onto the wall screws and check it's securely fixed to the wall before use. Adjust the depth of the wall screws if necessary.

Warnings:

Maximum load per shelf - 2kg.

Fit in accordance with manufacturers instructions. Do not place very hot or wet items on the wood surface. Wear suitable eye protection when drilling. When using power tools near water the use of a residual current device is advised for added protection against electric shock. Beware of hidden pipes or power cables. Take care when drilling on glazed tile surfaces in case drill slips.

Cleaning:

Wipe using a damp cloth with mild soap solution; do not use substances containing abrasives.
