

S U U K Y

Ultimately it is in the summer that we get to experience nature at its most ripe state, a perfect botanical wonder of colorful fruit - and floral landscapes, for SUUKY, it is the “Essence of Summertime”.

Earthy shades inspired by the natural flora of our Southern European terroir are the backdrop of our collection, which in combination with our original prints, applied not only on relaxed and refined silhouetted pieces, but also on our curated swimwear lines, provide you with a serene style with an undoubtedly refined sophistication.

Embodied with carefully selected luxurious fabrics that exude comfort, linen, organic cotton and sustainable materials, this curated, “assemblment” of garments is truly a summer “must-have”.
