Care Guide

# *Care Instructions*

## JEWELLERY & SILVERWARE

Over time the surface of your silver will naturally oxidise which leads to tarnish.

### Reducing Tarnish

Avoid getting the metal in contact with hand creams, moisture for prolonged periods of time, and chemicals which may be present in swimming pools or used for cleaning etc.

### Cleaning

Use a silver polishing cloth to gently rub the surface of your piece. Rub the cloth in a circular motion to remove the tarnish.

Spun and Chased Vessel

# *Care Instructions*

## JEWELLERY & SILVERWARE

### Jewellery

Ensure jewellery is stored in a dry clean and moderate environment and that it is kept in the box it was supplied where possible.

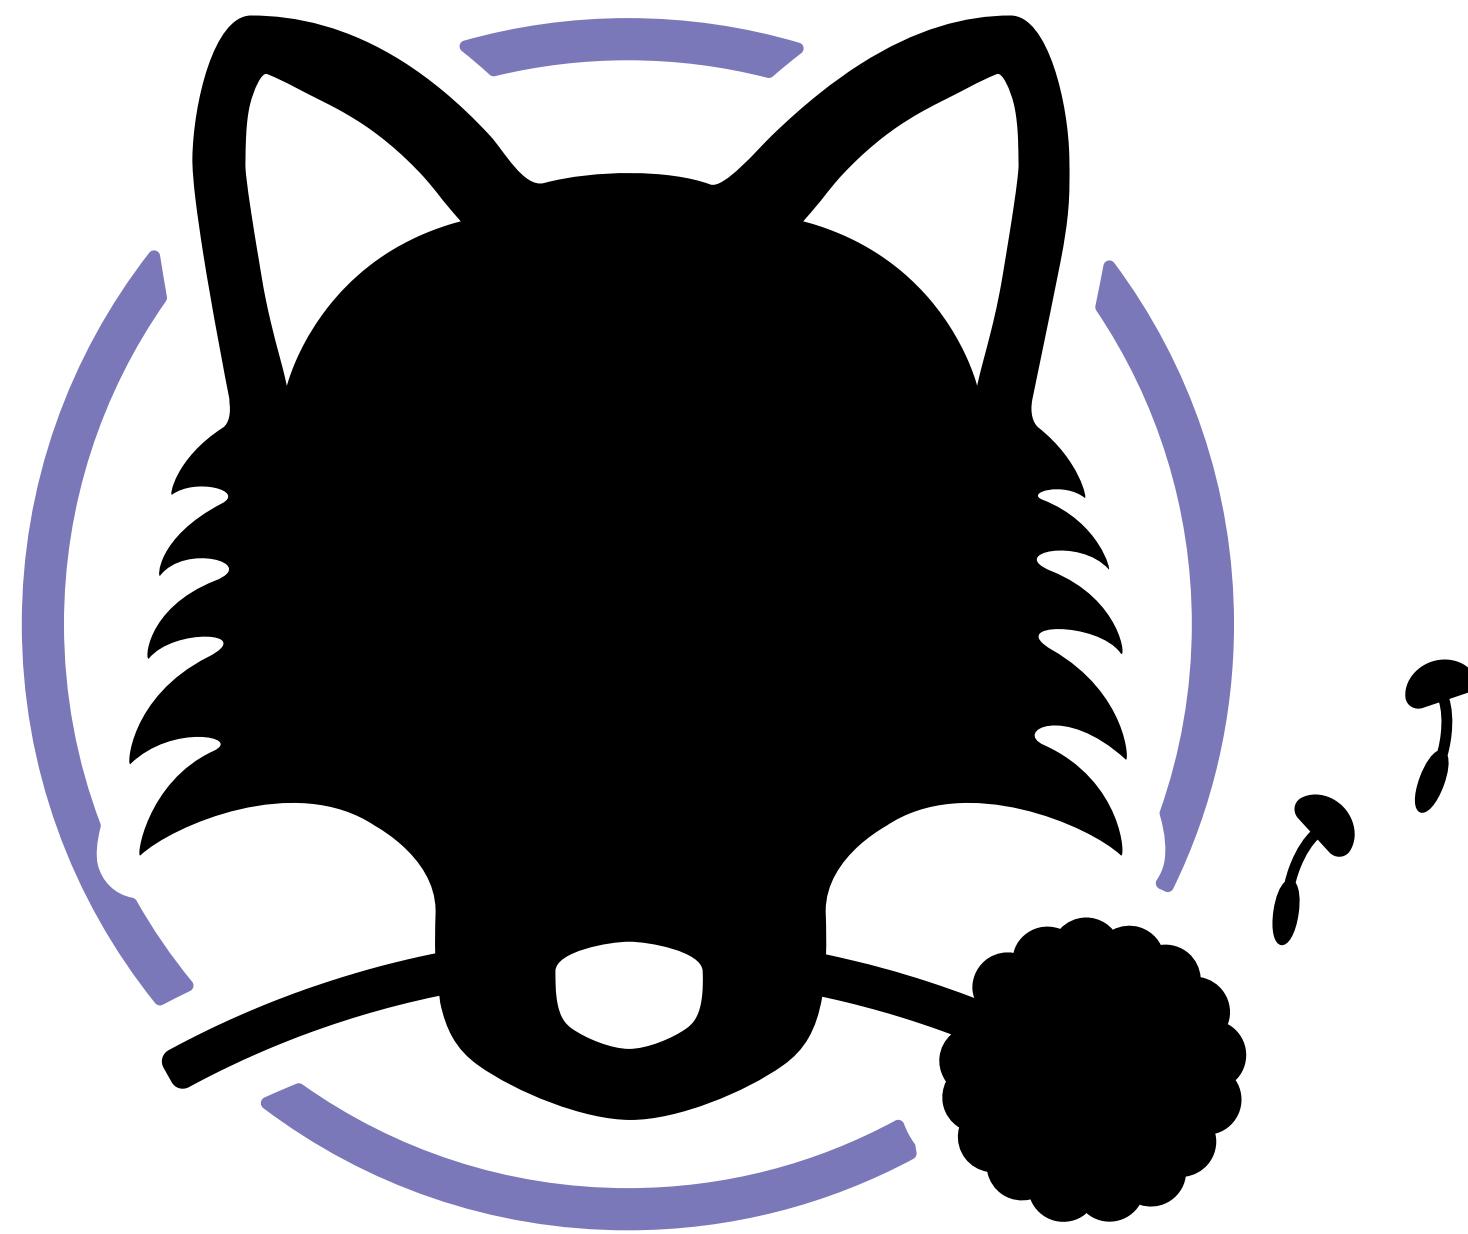

### Silverware

Clean silver tableware with a soft cloth and mild soapy water (only if necessary) after each use and ensure piece is dried thoroughly with a soft cloth before storing.

\*Pieces made by Claire can be polished for a small fee.
