Do I really need a vandal proof dispenser?

We're not in the market to sell people things they don't need. If you have a vandalism problem then we have the answer for you! Ask yourself these questions:

- How many times have you had to change your soap dispensers in the past 12 months?
- How much money have you spent on maintenance for soap and paper towel dispensers?
- How many times have your dispensers been vandalised beyond repair?
- How much paper towel gets wasted at your place of work?

The OPS Vandal Proof Soap Dispenser and Vandal Proof Paper Towel Dispenser's will solve all of these problems, it will be the last dispenser you will ever buy! These dispensers are your solution to a hostile environment. And not that you'll need our 5 year guarantee but just in case you'd like some extra peace of mind, we offer to replace or repair any of our Vandal Proof Soap Dispensers within 5 years in the very unlikely event that it should break.

For your staff areas, try the Economy Plastic Soap Dispenser. It uses the same soap as the vandal proof model meaning you don't need to stock multiple types of soap.

FREE trial offer

We are so confident in our soap dispensers and paper towel dispensers that we will even offer you one to try for **FREE!**

We'll send you a FREE soap dispenser with soap cartridge or paper towel dispenser with paper sample to try, if you decide that you don't want to keep it at the end of the trial period then we'll arrange for it to be picked up. There is ZERO cost for you to try this, we'll even cover the cost of shipping. If you do decide to keep it then we'll invoice you for the cost of the unit you're keeping but the soap or paper was our gift to you.

OPS Vandal Proof Soap Dispenser

Key Features - OPS Soap Dispenser

So what's different about the OPS Vandal Proof Soap Dispenser?

★ **Unbreakable**

The OPS Vandal Proof Soap Dispenser is unbreakable, it is kick proof, it is punch proof, it is knife proof, like any item it can be graffitied BUT it cannot be broken, no matter what this dispenser is subjected to it will continue to work. Don't believe us? Watch our YouTube video where we hit it repeatedly with a piece of wood and a metal pipe and it still continues to dispense soap.

★ **Unique Soap Cartridge**

The OPS soap (and sanitiser or body wash) cartridge is a unique design that cannot be tampered with which means it cannot be contaminated with gum, pens, bodily fluids, etc. Once installed safely inside the dispenser the nozzle cannot be broken off.

★ **Maintenance Free**

There is no mounting bracket or tape, you simply secure your soap dispenser to a solid wall and you won't have to worry about vandals removing it. Because it is tamper proof and unbreakable you save money by not having to replace it every month. The soap does not leak and is quick drying which means there are no slip hazards and no soap scum in showers.

★ **Economical**

At up to 5000 hand washings per cartridge the OPS soap cartridges last up to 3 times longer than most other foaming soaps. The average daily cost of usage is currently between 32c - 90c per location depending on the type of organisation using the soap. Because of the enhanced tamper proof locking mechanism that is inset into the unit the soap is safe and free from theft.

★ **Suicide & Ligation Resistant**

The most suicide resistant soap dispenser in the world. The dispenser is ligation resistant with no hang points. It has no sharp edges and prevents self-cutting. It has no external parts that can be swallowed and choked on. Plus it cannot be made into a weapon, there is no part of this dispenser that can be broken off to form a weapon to be used on oneself or on a staff member.

★ **5 Year Warranty**

The OPS Vandal Proof Soap Dispenser will not break, but in the unlikely event that it does we promise to repair or replace it for FREE within 5 years of your purchase.

★ **Unbreakable**

The OPS Vandal Proof Paper Towel Dispenser is unbreakable, it is kick proof, it is punch proof, it is knife proof and it is BURN proof, like any item it can be graffitied BUT it cannot be broken, no matter what this dispenser is subjected to it will continue to work. ★ **Single Sheet Dispense**

The OPS paper towel dispenser and paper towel itself is designed so that only 1 paper towel will be dispensed at one time, this results in less wastage and is a more cost effective and economical solution for you. The Standard Capacity dispenser holds 350 sheets of paper and the High Capacity dispenser holds 1500 sheets of paper.

★ **Fire Resistant**

Yes you heard that right, this paper towel dispenser is fire resistant. Should someone try to burn your paper towel contained within the dispenser it will only burn the one sheet that is outside of the dispenser, once the flames reach the metal casing it halts the burn right there, the rest of the ream of paper will be safe inside the dispenser. Watch our video on YouTube to see us burn it:
